Kansas Docket No. 17-SWBT-158-MIS
Kansas Corporation Commission Staff
Request No. 3
RFI No. 3

Received Date: 01/26/2017
Company Name: Southwestern Bell Telephone Company

QUESTION: a) Please explain why the listing in Exhibit A to AT&T's application in this Docket differs from the listing in Attachment A filed by AT&T in Docket No. 98-GIMT-241-GIT (See http://estar.kcc.ks.gov/estar/viewfile.aspx/19971125164242.pdf?id=98450d9d-5210-4344-8130-4787059338d5).

ANSWER: Exhibit A to SWBT's Application filed on October 27, 2016 commencing this proceeding was amended by AT&T Kansas' Notice of Filing of Amended Application Exhibits "A" and "C" on December 21, 2016. The reason initial Exhibit A filed in this proceeding differed from the exchange listing filed by SWBT as Attachment A in Docket No. 98-GIMT-241-GIT is due to inadvertent omissions, clerical errors, and errors in attributing exchange names to wire centers instead of zones. (See further explanations on pages 1 and 2 of AT&T Kansas' Notice of Filing of Amended Application Exhibits "A" and "C"). There remain six (6) instances where the listing of Amended Exhibit "A" in the instant proceeding differs from that of Attachment A filed in Docket No. 98-GIMT-241-GIT; however, as shown in the chart below, these differences are simple clerical/typographical errors or the clarification of the exchange name.

Docket No. 98-GIMT-241-GIT	AT&T's Amended Exhibit A
Ellsworth-Lorraine	Ellsworth
Lacrosse	La Crosse
Norcator	Norcatur
Phillipsburg-Kirwin	Phillipsburg
Sedan-Peru	Sedan
Mount Hope	Mt. Hope

Kansas Corporation Commission Staff
Request No. 3
RFI No. 3

Received Date: 01/26/2017
Company Name: Southwestern Bell Telephone Company

QUESTION: b) Please explain why the following exchanges are not included in Exhibit A: (1) Basehor; (2) Chetopa; (3) Clinton; (4) Concordia; (5) Elwood; (6) Norton; (7) Reading; and (8) Treece.

ANSWER: Of the eight (8) exchanges listed, Concordia and Chetopa are both included in the list on Page 1 of Exhibit A to AT&T's Application filed on October 27, 2016. AT&T Kansas' Notice of Filing of Amended Application Exhibits "A" and "C" was filed on December 21, 2016, and Amended Exhibit "A" includes the other six (6) exchanges in question, with an explanation as to why they were inadvertently omitted in the original Application. (See page 2 of the Notice of Filing of Amended Application Exhibits for further explanation). As both the initial Exhibit "A" and Amended Exhibit "A" were sorted and listed based on wire center/CLLI codes, some of the exchanges do not appear in alphabetical order. The following is each exchange in question and the corresponding page number in Amended Exhibit "A": Basehor (p.2); Chetopa (p.1); Clinton (p.3); Concordia (p.1); Elwood (p. 4); Norton (p.3); Reading (p. 1); and Treece (p.3).

Kansas Corporation Commission Staff
Request No. 4
RFI No. 4

Received Date: 01/26/2017
Company Name: Southwestern Bell Telephone Company

QUESTION: Will AT&T provide service to new customers in the area in which it relinquishes its ETC designation?

ANSWER: Yes. In Paragraphs 11 and 15 of its Application in this proceeding, AT&T Kansas stated that it will continue to offer service to customers, including new customers, in the areas where it is relinquishing its ETC designation. After relinquishment, the only difference will be that AT&T Kansas will no longer participate in the state or federal Lifeline program in the ETC relinquishment area. The ETC relinquishment will have no impact on the availability of AT&T services. All customers (including both new customers and any former AT&T Lifeline subscribers who elect to keep their existing AT&T service) will continue to have access to all existing AT&T services. Every new customer, and every former AT&T Lifeline customer who elects to retain AT&T service, will be assessed charges for basic residential local service in the same way as all other customers of AT&T's basic residential local service in the same service area. In other words, those customers will be assessed the same rate elements, fees, surcharges, taxes and other applicable charges as the other AT&T basic local exchange service subscribers in their local service area.

USA Proud Sponsor of the U.S. Olympic Team

QUESTION: In its Application, paragraphs 11 and 15, and in response to Staff Data Request (DR) 4, AT&T stated it will offer service to existing and new customers in a census block in which the Company will relinquish its ETC designation.

(a) If AT&T is no longer an ETC in a census block, will AT&T have a legal obligation to offer or provide universal voice service to existing or new customers? Please cite to all federal and state statutory and regulatory cite(s) relied on by AT&T.

(b) If new construction (e.g. single or multi-family home or business) is built in a census block in which AT&T is not the designated ETC, will AT&T be legally obligated to serve the new homeowner(s) customers?

(c) What services will AT&T continue to offer and provide to existing and new subscribers? If service offered to new customers will vary in any way (e.g. services available, technology used, etc.) please identify the change in provisioning of the services.

(d) AT&T states, in paragraphs 11 and 12, that its ETC relinquishment in the relinquishment area won't affect the deployment of broadband. Since AT&T seeks to relinquish its ETC designation in areas in which it will not receive Connect America Fund, Phase 2 (CAF II) support, does AT&T plan to deploy broadband in the relinquishment area? If AT&T does not plan to deploy broadband in the relinquishment area, please clarify what is mean by the statement that relinquishment, "won't affect deployment of broadband."

ANSWER: (a) Federal law, at 47 U.S.C. § 214(e)(4), provides that a state commission "shall permit" an ETC to relinquish its ETC designation in "any area" where there is more than one ETC. The only issue before the Kansas Commission is whether there are other ETCs available in the areas for which AT&T is relinquishing its ETC designation. As shown in AT&T Kansas' October 27 Application (at ¶¶ 14-15), there are at least seven, and as many as fourteen, other ETCs available in every wire center for which AT&T Kansas is relinquishing its ETC status. Accordingly, this Staff question is not

relevant to the issue of whether at least one other ETC is present in the area for which AT&T Kansas is relinquishing its ETC designation. Moreover, consumers today prefer other ETCs, as shown by the fact that from 2009 to mid-2016 AT&T Kansas lost some 76% of its Lifeline subscribers to other ETCs, even though overall Kansas Lifeline subscribership grew by more than 120%. Without waiving any objections available to it, AT&T Kansas provides the following information.

AT&T Kansas has committed in its Application that it will continue to provide all of its existing services in the relinquishment area unless and until AT&T Kansas obtains any necessary regulatory approvals to discontinue them. Consumers in all portions of the AT&T Kansas wireline footprint, including former Lifeline subscribers in the relinquishment area, will continue to be able to purchase all of AT&T services at AT&T's standard prices, including all applicable fees, surcharges and taxes. The only thing that is changing is that the Lifeline discount will not be available.

Under Kansas law, AT&T Kansas is an "electing carrier." As an electing carrier, it is no longer subject to regulation for the provision of telecommunications services. K.S.A. 66-2005(z). Post-relinquishment, in relinquishment area where AT&T Kansas is no longer an ETC, it will have the same legal obligations, if any, as any other similarly situated telecommunications carrier with regard to the provision of service(s). K.S.A. 66-1,187 (h), (m).

Pursuant to federal law, all common carriers engaged in interstate telecommunications, such as AT&T Kansas, are required to furnish service throughout its territory upon reasonable request. See 47 U.S.C. 201. In addition, prior to discontinuing any service with an interstate telecommunications component, such as Basic Residential Local Service, AT&T Kansas would need to file a request with the FCC to discontinue service. See 47 U.S.C. § 214(a) and 47 CFR 63.71.

In short, AT&T Kansas' ETC relinquishment does not trigger discontinuance of any existing AT&T Kansas services. In the future, if

AT&T Kansas seeks to discontinue any service, it will obtain any necessary approvals.

Finally, as a point of clarification, the question asks about "a census block in which the Company will relinquish its ETC designation," as stated in Response 1, AT&T Kansas does not have a business reason to know the census blocks in the relinquished area.

(b) Federal law, at 47 USC Sec. 214(e)(4), provides that a state commission "shall permit" an ETC to relinquish its ETC designation in "any area" where there is more than one ETC. The only issue before the Kansas Commission is whether there are other ETCs available in the areas for which AT&T is relinquishing its ETC designation. As shown in AT&T Kansas' October 27 Application (at ¶14-15), there are at least seven, and as many as fourteen, other ETCs available in every wire center for which AT&T Kansas is relinquishing its ETC status. Consumers prefer those other ETCs. From 2009 to mid-2016 as overall Kansas Lifeline subscribership was growing by more than 120%, AT&T Kansas was losing some 76% of its Lifeline subscribers to other ETCs. This staff question is not relevant to the issue of whether at least one other ETC is present in the area for which AT&T Kansas is relinquishing its ETC designation. Without waiving any objections available to it, AT&T Kansas provides the following information.

See response to 5.a. above.

(c) Federal law, at 47 USC Sec. 214(e)(4), provides that a state commission "shall permit" an ETC to relinquish its ETC designation in "any area" where there is more than one ETC. The only issue before the Kansas Commission is whether there are other ETCs available in the areas for which AT&T is relinquishing its ETC designation. As shown in AT&T Kansas' October 27 Application (at ¶14-15), there are at least seven, and as many as fourteen, other ETCs available in every wire center for which AT&T Kansas is relinquishing its ETC status. Consumers prefer those other ETCs. From 2009 to mid-2016 as overall Kansas Lifeline subscribership was growing by more than 120%, AT&T Kansas was losing some 76% of its Lifeline subscribers to other ETCs. This staff question is not relevant to the issue of whether at least one other ETC is present in the area for which AT&T Kansas is relinquishing its ETC designation. Without waiving any objections available to it, AT&T Kansas provides the following information.

See AT&T Kansas' response to Staff 4.a. AT&T Kansas has committed in its Application that it will continue to provide all of its existing services in the relinquishment area unless and until AT&T Kansas obtains all necessary regulatory approvals to discontinue them. Consumers in the AT&T Kansas wireline footprint, including former Lifeline subscribers in the relinquishment area, will continue to be able to purchase all of AT&T services at AT&T's standard prices, including all applicable fees, surcharges and taxes.

See also AT&T Kansas' response to Staff 5.a.

As to any new services AT&T may elect to offer in Kansas, AT&T will comply fully with all applicable state and federal regulatory requirements, if any, before it begins the provision of such services. All such services will be aimed at giving Kansas consumers the functionality they want, at prices they are willing to pay, using technology that best meets consumer needs. AT&T fully understands that if it does not meet consumer needs, it will lose business to other providers who do.

(d) Federal law, at 47 U.S.C. § 214(e)(4), provides that a state commission "shall permit" an ETC to relinquish its ETC designation in "any area" where there is more than one ETC. The only issue before the Kansas Commission is whether there are other ETCs available in the areas for which AT&T is relinquishing its ETC designation. As shown in AT&T Kansas' October 27 Application (at ¶14-15), there are at least seven, and as many as fourteen, other ETCs available in every wire center for which AT&T Kansas is relinquishing its ETC status. Accordingly, this Staff question is not relevant to the issue of whether at least one other ETC is present in the area for which AT&T Kansas is relinquishing its ETC designation. Moreover, consumers today prefer other ETCs, as shown by the fact that from 2009 to mid-2016 AT&T Kansas lost some 76% of its Lifeline subscribers to other ETCs, even though overall Kansas Lifeline subscribership grew by more than 120%. Without waiving any objections available to it, AT&T Kansas provides the following information.

Unlike federal USF funding in the past, CAF II funding is made available for "high cost" census blocks and may also be used in extremely high cost census blocks to fulfill the carrier's CAF II broadband commitment. The laser focus down to the census block level is intended to ensure high cost support is reaching its target, and not being used in areas already served by other broadband providers, or in areas where it is commercially feasible to provide broadband without a subsidy. AT&T's decision to accept CAF II funding to bring broadband to the primarily rural, high-cost Kansas census blocks identified by the FCC also triggered an obligation to remain an ETC in those census blocks, and to offer Lifeline discounts to customers who reside in them.

AT&T's decision to relinquish its ETC status has no material impact on AT&T's plans to deploy broadband in the relinquished areas. As a general matter, the areas for which AT&T Kansas is relinquishing its ETC designation have not been determined to be high cost by the FCC.[1] Rather, these are areas where, in the FCC's view, costs are

[1] AT&T Kansas is also relinquishing its ETC designation for a relatively small number of "extremely high cost" census blocks. It is possible that AT&T could seek ETC designation for some of these extremely high cost census blocks in the future. As explained in AT&T Kansas'

such that it is commercially feasible for providers to deploy broadband services without a subsidy. AT&T has been doing just that. AT&T Kansas and its affiliates invested approximately $838 million in Kansas from 2013 to 2015 in wired and wireless networks. At the end of April 2016, some 99.9% of the Kansas population had access to the AT&T Mobile Broadband network. AT&T's investments in Kansas are focused on one simple objective – meeting the needs of Kansas consumers.

---

petition, if AT&T Kansas elects to participate in the FCC's reverse auction and is selected as the winning bidder for extremely high cost census blocks, AT&T Kansas will file a request with this Commission to modify its ETC designation to include the extremely high cost census blocks for which it will be accepting support for broadband services.

QUESTION: Paragraphs 8 and 9 of the Company's Application include statements that AT&T's residential lines have declined approximately 82% between 2005 and 2015 and that its Lifeline subscribership has declined 76%.

(a) Please provide any studies, analysis, and underlying data relied on for these statements.

(b) Are AT&T U-Verse voice customers included as "AT&T Kansas" customers in the aforementioned calculations? If not, please provide the number of AT&T U-Verse voice residential customers in 2005 and 2015.

ANSWER: AT&T Kansas considers and treats some of the information requested as proprietary, confidential information and trade secrets subject to the provisions of K.S.A. 66-1220a and has marked it as such below.

Without waiving any objections available to it, AT&T Kansas provides the following information.

As an initial matter, AT&T's petition in paragraph 9 states that AT&T's Lifeline subscribership has declined 76% between **2009 and June 2016** for its retail Lifeline customers.

(a) AT&T Kansas' retail residential lines decreased 82% from ****Begin Confidential Information****End Confidential Information**** in 2005 to ****Begin Confidential Information **End Confidential Information**** in 2015.

(b) The 82% decrease in AT&T Kansas' retail residential lines between 2005 and 2015 excluded VoIP lines. In December 2005, AT&T did not have any residential VoIP lines in service. In December 2015, AT&T had ****Begin Confidential Information** **End Confidential Information**** residential VoIP lines in service.

QUESTION: Paragraphs 10 of the Company's Application states there is a "relatively small number of AT&T Kansas Lifeline customers in the relinquishment area....."

(a) Please provide a copy of all studies, analysis, and underlying data relied on for this statement.

(b) Please update the study, analysis, and underlying data referred to in subsection (a) as of December 31, 2016. Such data should be provided by wire center and census block, if available.

ANSWER: The full sentence in the October 27, 2016 *Application* states as follows:

> AT&T no longer receives federal high cost support in the relinquishment area, and the relatively small number of AT&T Kansas Lifeline customers in the relinquishment area can obtain Lifeline-discount service from numerous other ETCs.

When AT&T Kansas states that it has "relatively few" Lifeline subscribers, it is reinforcing the point that between 2009 and June 2016, it lost 76% of its Lifeline subscribers in Kansas, presumably to other ETCs. As of mid-June, 2016, AT&T Kansas had approximately 3,672 Lifeline subscribers in the area where AT&T Kansas is relinquishing its ETC designation.

(a) As of June 2016, the Universal Service Administrative Company ("USAC") reported 61,688 Lifeline customers in the state (USAC LI08 Report 2Q 2016). As of the same date, AT&T Kansas had approximately 3,672 customer in the area where it will relinquish its ETC designation. This means that in the area where AT&T Kansas is relinquishing its ETC designation, it had approximately 6% of total Kansas Lifeline customers, which is a relatively small number.

(b) As of December 2016, there were approximately 2,626 AT&T Kansas Lifeline customers in the area where AT&T Kansas will relinquish its ETC designation. As of December 2016, USAC reported 60,326

Kansas Lifeline customers (USAC LI08 Report 2Q 2017). Therefore, in the area AT&T Kansas is relinquishing its ETC designation, it has approximately 4.4% of total Kansas Lifeline customers.

The attached spreadsheet provides the AT&T Kansas Lifeline customers by wire center as of December 31, 2016, for the areas AT&T Kansas is relinquishing its ETC designation.

Request No. 8
RFI No. 8

Received Date: 02/07/2017
Company Name: Southwestern Bell Telephone Company

QUESTION: Please provide a detailed explanation regarding how AT&T will track customers-specific locations at the census block level for determining whether a customer may or may not receive Lifeline service from AT&T. Please provide specific details for each of the following examples:

(a) Lifeline Subscriber A lives in a census block in which AT&T is a Lifeline ETC and moves to a home located in a census block in which AT&T is not a Lifeline ETC.

(b) Subscriber B is an existing customer that lives in a census block in which AT&T relinquishes its ETC designation and moves to a census block in which AT&T is a Lifeline ETC. The customer qualifies for Lifeline and applies for AT&T's Lifeline service.

ANSWER: (a) AT&T's customer service representatives will be able to enter a customer's address into a computer application that will determine whether the customer is in an area in which AT&T provides the Lifeline discount.

Anytime an AT&T Lifeline customer moves to a new address, a notice is generated from the ordering system. In the scenario set forth by Staff, assuming that the customer retains AT&T Kansas' service after he/she moves, the customer's new address would be entered into the computer application to determine whether the customer has moved to an area in which AT&T provides the Lifeline discount. If the customer's new address is outside of AT&T Kansas' retained area, a letter would be sent informing the customer that the Lifeline discount will be removed from his/her account in 30-days and AT&T's basic residential local service rate for that service area will apply, along with applicable taxes, surcharges and fees.

(b)Assuming that the scenario set forth by Staff occurs after AT&T Kansas has relinquished its ETC designation, the customer service representative that handles Lifeline inquiries will input Subscriber B's

new address into the computer application that will pinpoint the address on a map and provide a message to the representative that the Lifeline discount is available at Subscriber B's new address. Subscriber B then will be sent an AT&T Kansas Lifeline application.

QUESTION: Exhibit B contains maps of AT&T's wire centers and the census blocks located within the wire centers in which the Company will retain its ETC designation. Please provide the following:

(a) For each map, provide the interactive map and layers in ARC shape file or kml file.

(b) Provide the underlying census block and wire center data in a format (e.g. Excel) that Staff can track, sort, manipulate, etc.

ANSWER:

(a) After discussing with Staff, AT&T Kansas is providing the retained Census Blocks in Exhibit B in the attached shape file.

KS shape file with att.zip

(b) The Census Blocks included in Exhibit B that are located wholly or partially in AT&T Kansas' service territory are included in the attached electronically provided spreadsheet. AT&T will only be retaining its ETC designation for those census blocks or portion of census blocks in Exhibit B that are within AT&T Kansas' service territory.

Kansas Request No. 9(b) AT&T Kansas Exl

The United States Census Bureau website provides information about census blocks, mapping a physical address in a census block, translating a physical address to a specific census-block, and mapping a census block.

Input Address and Map Census Block:

A user can input an address and view the census block where the address is located by following these steps:

a. Visit https://tigerweb.geo.census.gov/tigerweb2010/.
b. In the upper-right search bar that reads "Street, City, State, Zip", input the address using the required information. The map will populate to the exact state and county in which the address is located. The initial map view may not show much detail, but this can be adjusted as explained below.
c. In the upper-left portion of the page, click on "Layers".
d. Once "Layers" is selected, check the boxes for "Labels", "Transportation (Roads and Railroads)", "Census Tracts and Blocks", and "Hydrography".
e. For a clearer map of the census block boundaries, click the "+" box next to "Census Tracts and Blocks" to expand the category and ensure that only "Census Blocks" is selected. This will eliminate lines on the map associated with census tracts and census block groups, so that only census block numbers and boundaries are visible, along with roads, highways, and bodies of water.

After following these steps, the user should see a blue dot identifying the precise location of the searched address and a map of the census block boundaries to help recognize which census block the address is located.

Associate Physical Address with Census Block Number:

The United States Census Bureau website also provides the capability to correlate a physical address with a specific census block.

a. Visit https://geocoding.geo.census.gov/geocoder/locations/address

b. On the left-hand side under "Find Geographies," select "address" and then input the physical address.

After following these steps, the user should get a response that includes a section titled "Census Blocks," and the "GEOID" is the census block number.

Map Location of Census Block Number:

a. Visit https://tigerweb.geo.census.gov/tigerweb2010/.

b. Select the query icon on the top right. When the query box displays check that the "Attribute" tab is selected. Select "Census Tracts and Blocks" from the first drop down menu, and then select "Census Blocks" in the next box. Type the census block number in the GEOID box.

c. Follow the directions above in the "Input Address Map Census Blocks" section to adjust the layers to clearly display the census block.

   The result will be a map of the census block boundaries to help recognize which census block the address is located.

Re: Docket No. 17-SWBT-158-MIS

Dear Ms. Aarnes:

Attached are AT&T Kansas' responses to Staff's DR Nos. 10 and 11 in the above-mentioned docket.

If you have any questions, please contact me on 785-276-6863.

Sincerely,

Janet Arnold

QUESTION: AT&T has stated that a two-step process exists for it to cease providing service once its ETC designation is relinquished in the requested areas. Please provide a detailed explanation of the two-step process. Include cities to relevant Federal and State statutes, Commission orders, and rules and regulations.

ANSWER: As a threshold matter, AT&T is not aware of any statements or documents it has provided to the Kansas Staff indicating there is a "two-step" process for discontinuance of legacy voice services.

Moreover, this question deals with a hypothetical scenario that is not pending before the Commission. Despite the seismic changes in the way consumers obtain telecommunications services,[1] AT&T is not pulling the plug on legacy voice services anywhere in Kansas. After it relinquishes its ETC designation, AT&T's legacy services will remain in place, AT&T will continue to employ skilled technicians and customer care personnel to meet customer needs, and customers will remain connected (even though, by their own choice, fewer and fewer of them are using AT&T's legacy voice service offerings). As AT&T stated in its Application, it will "continue to offer and provide service in the relinquishment area," and customers can continue to obtain legacy voice service from AT&T throughout that area. The only change caused by AT&T's ETC relinquishment is that AT&T will no longer offer a Lifeline discount in the relinquishment area. Affected customers who want such a discount can obtain it from one of the many other ETCs in their area.

To the extent Staff is concerned that, *in the future, AT&T might* attempt to stop providing legacy voice services, Staff can rest assured that AT&T will first need regulatory review and approval, even after it relinquishes its ETC designation. If at some point it no longer makes business sense for AT&T to continue offering legacy voice services, AT&T would not be allowed to discontinue those services until it first demonstrated to the

[1] Today consumers are demanding packages of voice, data and video, and regardless of whether those packages are provided over a mobile device or over a high-speed broadband connection, they are being provided in an IP format. That shift in consumer preference has largely been responsible for the nearly 81% decline in AT&T Kansas' Lifeline Subscribers from 2009 through 2016, such that, at the end of 2016, AT&T had only 2,626 remaining Lifeline subscribers. For an ever-increasing number of consumers, legacy voice service is not meeting their needs.

FCC, in an application filed pursuant to 47 USC § 214(a), that "neither the present nor future public convenience and necessity will be adversely affected thereby . . . ." If the FCC had concerns with AT&T's discontinuance request, it could impose conditions to rectify them that "in its judgment the public convenience and necessity require." 47 USC § 214(c).

Federal law ensures that the Kansas Commission will have notice of and the opportunity to comment in the consideration of any discontinuance request. No request to discontinue service can be approved unless and until the state commission has been given notice and a right to be heard (47 USC § 214(b)), and that right to be heard is substantive, not just window dressing. Congress has expressly authorized a state commission to seek an injunction in "any court of competent jurisdiction" if it believes FCC approval of a discontinuance request is not in the public interest. 47 USC § 214(c). Thus, as a practical matter, the FCC would not be able to approve any AT&T application to discontinue legacy voice service anywhere in Kansas without notifying the Kansas Commission and providing the Commission full opportunity to comment on whether such discontinuance could occur without harm to the public interest.

The FCC has set a high bar for any discontinuance of legacy voice service. To determine whether a proposed discontinuance would adversely affect the public interest, the FCC employs a five-factor balancing test that analyzes: (1) the financial impact on the common carrier of continuing to provide the service; (2) the need for the service in general; (3) the need for the particular facilities in question; (4) increased charges for alternative services; and (5) the existence, availability, and adequacy of alternatives.[2] And in the *2016 Technology Transitions Order*, the FCC concluded that the existence, availability, and adequacy of alternatives (the fifth factor) has heightened importance in the context of technology transitions.[3]

---

[2] *Applications for Authority Pursuant to Section 214 of the Communications Act of 1934 to Cease Providing Dark Fiber Service*, Memorandum Opinion and Order, 8 FCC Rcd. 2589, 2600, ¶ 54 (1993), *remanded on other grounds*, *Southwestern Bell v. FCC*, 19 F.3d 1475 (D.C. Cir. 1994).

[3] *Technology Transitions*, Declaratory Ruling, Second Report and Order, and Order on Reconsideration, 31 FCC Rcd. 8283 (rel. July 15, 2016) ("*2016 Technology Transitions Order*"). In that Order, the FCC adopted optional streamlined processes for certain Section 214(a) discontinuance applications involving a technology transition for legacy voice service. *Id.* at ¶ 64. However, regardless of the Section 214(a) process that AT&T Kansas may pursue in the future (if it ever should seek to discontinue legacy voice service), the Governor of Kansas and the

Although the FCC's rules for technology transitions and facilities retirements likely will continue evolving as the FCC, state commissions, carriers and consumers gain more experience with these issues over time, that does not change the two key points being made here – (a) even after AT&T Kansas relinquishes its ETC designation, it will still need FCC approval before it could discontinue providing legacy voice services to Kansas consumers, and (b) the Kansas Corporation Commission will have a statutory right to be heard regarding any such AT&T request. AT&T's pending ETC relinquishment is not a short-cut to service discontinuance, nor does it cut the Kansas Commission out of the review process.

Commission would be provided notice and an opportunity to participate in the FCC proceeding. *Id.* at ¶ 187; 47 C.F.R. § 63.71(a).

QUESTION: The FCC, in the December 2014 Connect America Order, granted partial forbearance from the federal high=-cost ETC requirement for a price cap carrier to offer voice telephony service throughout its service areas pursuant to section 214(e)(1)(A) in the following census blocks:

i. census blocks determined to be low-cost,

ii. census blocks served by an unsubsidized competitor and offering voice and broadband at speeds of 10/1 Mbps or better to all eligible locations, and

iii. census blocks where a subsidized competitor (i.e. another ETC) receives federal high-cost support to deploy modern networks capable of providing voice and broadband to fixed locations.

a. Has AT&T received forbearance to offer voice telephony in any census blocks within its service area pursuant to the December 2014 Connect America Order?

b. If AT&T has received forbearance, separately, by each census block category in subpart (a) – (c), identify each census block by wire center, in which AT&T has received such forbearance. Provide a copy of the census blocks, by category if applicable, in Excel format.

ANSWER: a. Yes

b. The FCC implemented this ETC voice forbearance by issuing a list of census blocks where the forbearance does not apply. *See Wireline Competition Bureau Releases List of Census Blocks Where Price Cap Carriers Still Have Federal High-Cost Voice Obligations & Seeks to Refresh Record on Pending Issues Regarding Eligible Telecommunications Carrier Designations and Obligations*, WC Docket Nos. 10-90, 14-192, 11-42, and 09-197, Public Notice, DA 15-851 (rel. July 23, 2015). The FCC did not release or provide price cap carriers with any census block information by the categories noted in its December 2014 Order and requested above. If the Staff believes this information is necessary for its analysis it would have to obtain that detail from the FCC.

Of the 116,282 unique census blocks in the ETC relinquishment area listed in the AT&T Kansas response to Staff Request No. 1, some 7,736 are on the FCC's list of census blocks for which forbearance was not granted. Those 7,736 census blocks are listed on the attached Excel spreadsheet, along with their serving wire center(s).

Regardless of whether a census block is in an area for which the FCC has granted forbearance, AT&T will need to obtain FCC approval pursuant to 47 U.S.C. § 214(a) before discontinuing any legacy voice services. *See* AT&T Kansas Response to Staff Request No. 10; *see also* the FCC's December 2014 *Connect America Order*, at ¶51, finding that even where it is forbearing from the requirement "that price cap carriers offer voice telephony service throughout their service areas," price cap carriers such as AT&T Kansas "remain obligated . . . to maintain existing voice service unless and until they receive authority under section 214(a) to discontinue that service."
