

**BEFORE THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS**

AUG 09 2013

In the Matter of the Application of Grain Belt Express)
Clean Line LLC for a Siting Permit for the Construction)
of a High Voltage Direct Current Transmission Line in)
Ford, Hodgeman, Edwards, Pawnee, Barton, Russell,)
Osborne, Mitchell, Cloud Washington, Marshall,)
Nemaha, Brown, and Doniphan Counties Pursuant to)
K.S.A. 66-1,177 et. seq.)

by
State Corporation Commission
of Kansas

Docket No. 13-GBEE-803-MIS

**NOTICE OF FILING OF LETTERS OF SUPPORT OF
GRAIN BELT EXPRESS CLEAN LINE LLC**

Grain Belt Express Clean Line LLC (Grain Belt Express) respectfully submits for Commission consideration the Letters of Support, attached hereto as **Grain Belt Express Exhibit 2**.

1. On June 28, 2013, Grain Belt Express filed a Petition indicating its intent to file on July 15, 2013 an Application for a Siting Permit for the construction of a high voltage direct current transmission line, converter station and associated facilities spanning approximately 370 miles through Kansas.

2. On July 1, 2013, the Commission issued a procedural schedule in this matter, establishing among other things, a public comment period to allow interested persons to file comments in this proceeding. Grain Belt Express caused Notice to be provided to affected landowners and will be filing an Affidavit to that effect in a separate pleading. In addition to providing statutory notice of the filing of the siting Application, which included the information regarding the public comment period, Grain Belt Express included on its website a link to an email address for the State Corporation Commission of the State of Kansas' (Commission) Office of Public Affairs and Consumer Protection (PACP) to afford interested persons the opportunity to submit comments to the PACP directly from the Grain Belt Express website.

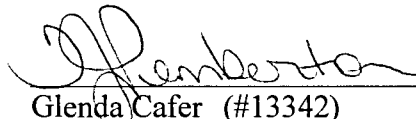

3. On August 2, 2013, Grain Belt Express discovered that an incorrect email address had been used for PACP and, therefore, the comments being filed through the website were not being directed to the PACP office. Grain Belt Express has since corrected the error and any comments received after August 2, 2013 via the website are being directed to the correct email address for PACP.

4. During the time leading up to August 2, 2013, Grain Belt Express received notification from the website that 63 comments were made via the website that were not properly directed to the PACP.

WHEREFORE, Grain Belt Express hereby submits the 63 comments received via its website that, due to an error in an email address, did not initially get directed to PACP.

Respectfully submitted

GRAIN BELT EXPRESS

EXHIBIT 2

June 26, 2013

Dear Commissioners Sievers, Wright, and Albrecht:

I am writing to express support for the Grain Belt Express Clean Line, a transmission line that will enable more than 3,500 megawatts of new wind energy projects to be built in Kansas.

Kansas has a rich history of exporting our products across the nation, and it has helped our economy grow. Now Kansas has the opportunity to export wind energy, but the existing transmission grid is limiting our ability to do so. The Grain Belt Express Clean Line offers a solution that will enable us to export wind energy to larger markets.

The biggest reasons I support this project are:

- Job Creation
- New Investment
- New Wind Energy Generation
- Pollution Reduction
- Water Savings

I support the Grain Belt Express Clean Line and urge you to provide the regulatory approvals required to move the project forward.

Sincerely,

Jonathan Koehn
SantaBarbara, CA

June 26, 2013

Dear Commissioners Sievers, Wright, and Albrecht:

I am writing to express support for the Grain Belt Express Clean Line, a transmission line that will enable more than 3,500 megawatts of new wind energy projects to be built in Kansas.

Kansas has a rich history of exporting our products across the nation, and it has helped our economy grow. Now Kansas has the opportunity to export wind energy, but the existing transmission grid is limiting our ability to do so. The Grain Belt Express Clean Line offers a solution that will enable us to export wind energy to larger markets.

The biggest reasons I support this project are:

- Job Creation
- New Investment
- New Wind Energy Generation
- Powering Homes at a Lower Cost
- Pollution Reduction
- Water Savings
- HVDC Technology

I support the Grain Belt Express Clean Line and urge you to provide the regulatory approvals required to move the project forward.

Sincerely,

Eli Bosco

I am writing to express support for the Grain Belt Express Clean Line, a transmission line that will enable more than 3,500 megawatts of new wind energy projects to be built in Kansas.

Kansas has a rich history of exporting our products across the nation, and it has helped our economy grow. Now Kansas has the opportunity to export wind energy, but the existing transmission grid is limiting our ability to do so. The Grain Belt Express Clean Line offers a solution that will enable us to export wind energy to larger markets.

The biggest reasons I support this project are:

- Job Creation
- New Investment
- New Wind Energy Generation

I support the Grain Belt Express Clean Line and urge you to provide the regulatory approvals required to move the project forward.

Sincerely,

Jon Puckett
Miltonvale, Ks

July 15, 2013

Dear Commissioners Sievers, Wright, and Albrecht:

I am writing to express support for the Grain Belt Express Clean Line, a transmission line that will enable more than 3,500 megawatts of new wind energy projects to be built in Kansas.

Kansas has a rich history of exporting our products across the nation, and it has helped our economy grow. Now Kansas has the opportunity to export wind energy, but the existing transmission grid is limiting our ability to do so. The Grain Belt Express Clean Line offers a solution that will enable us to export wind energy to larger markets.

The biggest reasons I support this project are:

- Job Creation
- New Investment
- New Wind Energy Generation
- Powering Homes at a Lower Cost
- Pollution Reduction
- Water Savings
- HVDC Technology

I feel this a win win project and fully support this project and I look forward to the economic impact it will have in our county.

I support the Grain Belt Express Clean Line and urge you to provide the regulatory approvals required to move the project forward.

Sincerely,

phil Sudduth
concordia, Ka
