Subject: Re: Injection application by Stramline Energy, LLC

This is an EXTERNAL EMAIL. Think before clicking a link or opening attachments.

Dear Mr. Stucky,

Yes, it is the Rains Lease injection well that I am protesting. According to the "Application For Injection Well" that I received, the lease description is: SW/ of the Sec. 10 Twp. 35S R. 15E, Well Number: SWD. The well is identified by the API # 15-125-32483-00-00.

Thank you for calling and the opportunity to clear this up quickly.

Respectfully,

Adell Nellis

Dear Ms. Nellis,

Per our telephone conversation from today, January 9, 2018, it appears that we have docketed the wrong application that you had protested. In my response to your initial letter I reference the Tuggle SWD application that is located in the N/2 SW NW NW of section 10-35S-15E in Montgomery County Kansas and that is what you used to respond back to me. However your initial letter of concern was on the Rains SWD located in the NE SW SW SW of section 10-35S-15E in Montgomery County Kansas. This well is identified by the API # 15-125-32483-00-00.

It is my understanding that the Rains well, API 15-125-32483-00-00, is actually the well you are protesting and wish to have a hearing. Please verify that this is correct and we will cancel the request for hearing on the Tuggle SWD located in the N/2 SW NW NW of section 10 and schedule a hearing on the Rains SWD, API 15-125-32483-00-00, located in the NE SW SW SW of section 10.

Sincerely,

Rene Stucky
