

Feb 14/2016

I Danny Lambeth of Truck Wholesale
a used truck dealership challenge the
violations on this notice of violations.

1) No Improper safety chains for tow bar.
I did not have a tow bar, it was a
factory Holmes wrecker unit and it had
5 safety chains and two chain binders,
See the pictures the trooper Weber took,
I have been moving hundreds of trucks for
sixty years and never an accident, I
know how to do it.

2) The tire was not flat nor was fabric
showing. The one tire out of 12 tires of the
ground was low. Nearly all tires get low on
air sometime in their life time span. It is
always unavoidable and usually caused by
a nail on the highway. This truck had very
little weight on it and was not in any way
dangerous to anyone.

3) All of the turn signals were operative and
Weber knew it. There were two people watching
or rather following me and they will verify
that the lights were all working.

4) I did not need a log book because I was
only 23 miles from home and only went 35
miles to get the truck. I am not a truck driver

I am a truck cooler and usually work 10-20 hours a week and do not have to punch a time clock. Trooper Weber has only seen me 4 times in his life and put me a foot every time. This has gotten to be harassment by this trooper and I intend to file a complaint against him.
