

**THE STATE CORPORATION COMMISSION  
OF THE STATE OF KANSAS**

Before Commissioners: Pat Apple, Chairman  
Shari Feist Albrecht  
Jay Emler

In the Matter of the Application of Kansas City )  
Power & Light Company for Approval of its )  
Demand-Side Management Portfolio Pursuant ) Docket No. 16-KCPE-446-TAR  
to the Kansas Energy Efficiency Investment )  
Act ("KEEIA"), K.S.A. 66-1283. )

**CORRECTED NOTICE OF FILING OF  
PUBLIC COMMENTS**

1. On April 13, 2016, the Kansas Corporation Commission's (Commission) Office of Public and Consumer Protection (PACP) filed its Notice of Filing of Public Comments.

2. Due to a scrivener's error the comment made by Dorothy Barnett on behalf of Climate and Energy Project was inadvertently marked as being opposed to the application.

3. In this filing PACP corrects its mistake and submits its Corrected Notice of Filing of Public Comments.

WHEREFORE, PACP respectfully submits its Corrected Notice of Filing of Public Comments to the Commission.

Respectfully submitted,

Samuel Feather #25475  
Deputy General Counsel  
Kansas Corporation Commission

## MEMORANDUM

To: Amy Green  
Secretary to the Commission

From: Linda Berry, Director *LB*  
Public Affairs and Consumer Protection

Date: April 12, 2017

Re: Public Comments  
Docket No. 16-KCPE-446-TAR

Attached is the report summarizing comments received by the Office of Public Affairs and Consumer Protection (PACP) in the Matter of the Application of Kansas City Power & Light Company for Approval of Its Demand-Side Management Portfolio Pursuant to the Kansas Energy Efficiency Investment Act ("KEEIA"), K.S.A. 66-1283.

There have been 108 comments received either by letter, phone, email or via website between April 6, 2016, and April 11, 2017 at 5:00 pm. The comment period ends on May 5, 2017.

Copies of the comments and summary are attached as "Attachment A." I request the General Counsel file the comment memo and supporting materials into the docket.

Cc: Samuel Feather, Deputy  
General Counsel

08/16/2016

TO THE KANSAS CORPORATION COMMISSION COMMISSIONERS,

ENERGY EFFICIENCY IS THE CHEAPEST, CLEANEST, FASTEST SOURCE OF ENERGY! AS A KANSAS KCP&L CUSTOMER, I ENCOURAGE YOU TO SUPPORT KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAMS FOR ITS RESIDENTIAL AND BUSINESS CUSTOMERS IN KANSAS (DOCKET NO. 16-KCPE-446-TAR).

THE PROPOSED PROGRMS ARE SIMILAR TO THE ONES THAT HAVE ALREADY BEEN APPROVED IN MISSOURI. IN FACT, KCP&L'S 3-YEAR ENERGY EFFICIENCY PROGRAMS IN MISSOURI HAVE BEEN SO SUCCESSFUL THAT THEY ARE BEING RENEWED FOR ANOTHER 3 YEARS! THESE PROGRAMS HAVE SAVE CUSTOMERS MONEY AND ALSO REDUCED THE EMISSIONS OF GREEN HOUSE GASES.

PLEASE SUPPORT KCP&L'S REQUEST (DOCKET NO. 16-KCPE-446-TAR). I ASK THAT MY COMMENTS BE INCLUDED IN THE PUBLIC RECORD.

REGARDS,

SALLIE VEENSTRA  
2016 W 92ND ST.

BILL.BLESSING@GMAIL.COM

08/31/2016 I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. IF SUCCESSFUL OVER TIME, THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND, THEREBY INDIRECTLY SAVING KANSANS MONEY. SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF ENERGY CONSUMPTION, THEREBY DIRECTLY SAVING KANSANS MONEY AND LIMITING GREENHOUSE GAS EMISSIONS. SIMILAR KCP&L PROGRAMS HAVE WORKED IN MISSOURI AND AS A KANSAS HOMEOWNER I LOOK FORWARD TO FINALLY HAVING AN OPPORTUNITY TO BENEFIT FROM THEM. IF THE WESTAR ACQUISITION IS APPROVED, EVEN MORE KANSANS SHOULD BENEFIT FROM ENERGY EFFICIENCY.

PLEASE INCLUDE THIS EMAIL/LETTER IN THE RECORD OF PROCEEDINGS FOR THE SUBJECT DOCKET. I APPRECIATE BEING INCLUDED IN THE DECISION MAKING PROCESS AT THE KCC.

SUBJECT: DOCKET NO. 16-KCPE-446-TAR.

DEAR COMMISSIONERS:

I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. I PARTICIPATED IN PROGRAMS LIKE THIS IN HUTCHINSON IN THE 1980S THROUGH KPL, AND IN IDAHO IN THE 2000S THROUGH LOWER VALLEY ENERGY, AND I CAN ATTEST TO THEIR VALUE.

ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. IF SUCCESSFUL OVER TIME, THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND. SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF GREENHOUSE GAS EMISSIONS.

I AM NOW A HOMEOWNER IN OVERLAND PARK WHO VALUES SUPPORT FROM PUBLIC UTILITIES TO SAVE ON MY ELECTRIC BILL THROUGH ENERGY EFFICIENCY INVESTMENTS AROUND MY HOME. I HAD AN ENERGY EFFICIENCY AUDIT PERFORMED AT MY OWN EXPENSE AND IMPLEMENTED THE RECOMMENDATIONS TEN YEARS AGO. BUT I KNOW THERE ARE MANY WHO WILL NOT OR CANNOT DO WHAT I HAVE DONE WITHOUT INCENTIVES.

JUST AS I ENJOY COST SAVINGS FROM PAST ENERGY EFFICIENCY UPGRADES I HAVE MADE TO MY HOME, THE ENERGY EFFICIENCY PROGRAM PROPOSED BY KCP&L WILL MAKE ENERGY SAVINGS POSSIBLE FOR A VARIETY OF PEOPLE, SO THAT WE ALL MAY BENEFIT.

KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN ALMOST IDENTICAL PROGRAM IN THEIR MISSOURI SERVICE AREA. NONETHELESS, GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS, I DO ENCOURAGE THE KCC TO REQUIRE INDEPENDENT MONITORING AND AUDITING TO ENSURE THAT THE PROMISED GAINS ARE ACTUALLY ACHIEVED.

DEAR COMMISSIONERS:

I URGE YOUR SUPPORT FOR KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO DELAY THE NEED FOR NEW POWER GENERATION CAPACITY FROM INEFFICIENT AND EXPENSIVE GAS - COMBUSTION TURBINES. ENERGY EFFICIENCY PROGRAMS ALSO IMMEDIATELY REDUCE GREENHOUSE GAS EMISSIONS.

ALTHOUGH IN WICHITA I AM SERVICED BY WESTAR, I AM A HOMEOWNER WHO SAVES MONEY THROUGH MY THERMOSTAT SETTINGS. I APPLAUD KCP&L WHICH UNDERSTANDS AND PUBLICIZES SAVING CUSTOMERS' ELECTRIC BILL THROUGH ENERGY EFFICIENCY EDUCATION AND INVESTMENTS. KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN SIMILAR PROGRAM IN MISSOURI.

GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS--I DO RECOMMEND THAT THE KCC REQUIRE INDEPENDENT MONITORING AND AUDITING.

THANK YOU FOR INCLUDING THIS EMAIL IN THE RECORD OF PROCEEDING FOR THIS KCC DOCKET.

16-KCPE-446-TAR

04/10/2017

AS A LONG-TIME CUSTOMER OF WESTAR IN WICHITA AND OWNING A HOUSE WITH SOLAR PANELS, I HAVE FOLLOWED THIS CASE WITH INTEREST. IF THE PROPOSED WESTARKCPL MERGER MOVES FORWARD, I WOULD WANT ACCESS TO KCPL'S EFFICIENCY PROGRAMS. OUR REGIONAL AND GLOBAL ENERGY PROBLEMS ARE URGENT AND MUST BE ADDRESSED. THANK YOU FOR CONSIDERING MY PERSPECTIVE.

DEAR COMMISSIONERS:

I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. IF SUCCESSFUL OVER TIME, THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND. SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF GREENHOUSE GAS EMISSIONS.

I AM A HOMEOWNER WHO VALUES SUPPORT FROM PUBLIC UTILITIES TO SAVE ON MY ELECTRIC BILL THROUGH ENERGY EFFICIENCY INVESTMENTS AROUND MY HOME.

KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN ALMOST IDENTICAL PROGRAM IN THEIR MISSOURI SERVICE AREA. NONETHELESS, GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS, I DO ENCOURAGE THE KCC TO REQUIRE INDEPENDENT MONITORING AND AUDITING TO ENSURE THAT THE PROMISED GAINS ARE ACTUALLY ACHIEVED.

PLEASE INCLUDE THIS EMAIL/LETTER IN THE RECORD OF PROCEEDINGS FOR THE SUBJECT DOCKET. I APPRECIATE BEING INCLUDED IN THE DECISION MAKING PROCESS AT THE KCC.

16-KCPE-446-TAR

## Narrative

09/01/2016

DEAR COMMISSIONERS:

JOHNSON COUNTY COMMUNITY COLLEGE IS A REGIONAL LEADER IN PROMOTING SUSTAINABILITY, NOT ONLY AMONG ITS PEER INSTITUTIONS BUT IN THE LOCAL COMMUNITY. JCCC HAS SOUGHT OUT WAYS TO INCORPORATE SUSTAINABLE PRACTICES INTO THE COLLEGE'S DINING SERVICES AND FACILITIES, ITS USE OF WATER RESOURCES, WASTE MINIMIZATION AND RECYCLING, AND HAS INCORPORATED SUSTAINABILITY INTO OUR CURRICULUM. WE ALSO RECOGNIZE THAT REDUCING ENERGY USAGE BRINGS TANGIBLE RELIEF TO THE COLLEGE'S BOTTOM LINE AND ASSISTS THE COLLEGE IN BEING GOOD STEWARDS OF TAX DOLLARS. INCENTIVES TO ASSIST US IN FURTHER REDUCING OUR ENERGY USE WOULD BE WELCOME.

AS A COMMUNITY COLLEGE THAT ENCOURAGES SUSTAINABILITY AND THEREBY CLEAN ENERGY SOLUTIONS WE ARE WRITING THIS LETTER TO SHOW OUR SUPPORT FOR THE ENERGY EFFICIENCY PROGRAMS BEING PROPOSED BY KCP&L, DOCKET NO. 16-KCPE-446-TAR.

ENERGY EFFICIENCY WILL NOT ONLY COMPLEMENT OUR EFFORTS, BUT IT IS THE CLEANEST AND LEAST-EXPENSIVE ENERGY SOLUTION IMMEDIATELY AVAILABLE TO US. HAVING ACCESS TO KCP&L'S NEW EFFICIENCY PROGRAMS WILL HELP US REDUCE OUR ELECTRICITY BILLS, ALLOWING US ACCESS TO THE SAME SORT OF OPPORTUNITIES MISSOURI CUSTOMERS HAVE. ANOTHER IMPORTANT FACTOR FOR US AS A REGIONAL LEADER IS FOR THE PROGRAMS TO BE ACCESSIBLE TO A VARIETY OF PEOPLE, INCLUDING OUR FACULTY AND STUDENTS. THE ENERGY EFFICIENCY PROGRAMS BEING PROPOSED BY KCP&L ARE CUSTOMIZED TO BE AVAILABLE TO NOT ONLY TO HOMEOWNERS BUT RENTERS, BUSINESSES, AND LOW INCOME INDIVIDUALS ALIKE.

WE URGE THE KANSAS CORPORATION COMMISSION TO APPROVE THE PROPOSED PROGRAMS THAT WILL HELP US CONTINUE TO SAVE ENERGY, REDUCE COSTS, AND ALLOW OUR ECONOMY TO BENEFIT FROM THE ADDITIONAL JOBS THAT WILL BE CREATED AS A PART OF THIS PROPOSAL.

YOUR CONSTITUENTS APPRECIATE BEING INCLUDED IN THE DECISION-MAKING PROCESS!

SINCERELY,

09/02/2016 ALSO SEE ATTACHED PAPER FOR ADDITIONAL STATEMENT

HELLO,

I AM WRITING TO SHOW MY SUPPORT FOR ENERGY EFFICIENCY PROGRAMS IN KANSAS. I'VE ATTACHED A LETTER, BUT ALSO WANT TO MAKE THIS PERSONAL. I WAS BORN IN KANSAS, RAISED IN KANSAS AND GRADUATED FROM KU. I HAVE SPENT THE LAST DECADE OF MY LIFE WORKING IN THE ENERGY EFFICIENT LIGHTING SECTOR AND HAVE SEEN THE MONEY SAVED BY MOM AND POP STORES TO LARGE CORPORATIONS WHEN THEY CONVERT THEIR INEFFICIENT LIGHTING TO ENERGY EFFICIENT LIGHTING. THEY ARE ABLE TO CONTROL THEIR UTILITY BILLS AND FIGHT RATE HIKES BY REDUCING THEIR USAGE. LIGHTING ACCOUNTS FOR UP TO 40% OF THE ELECTRIC BILL IN MOST COMMERCIAL BUILDINGS. THINK HOW MUCH CAN BE SAVED BY JUST DOING ONE THING.

I GOT A JOB IN ENERGY EFFICIENT LIGHTING IN 2007 WHEN THE ECONOMY WAS AT ITS WORST. I HAD BEEN LAID OFF AT A GENERAL CONSTRUCTION COMPANY, BUT THE LIGHTING COMPANY WAS HIRING! RENEWABLE COMPANIES ARE GROWING AND CREATING JOBS! WHAT A SIMPLE ANSWER! CREATE JOBS, REDUCE COMPANIES' BOTTOM LINES AND HELP REDUCE CARBON FOOTPRINTS, ALL WITHOUT RAISING TAXES!

PLEASE CONSIDER PASSING KCP&L'S TARIFF.

16-KCPE-446-TAR

103 755

Dear Kansas Corporation Commission,

I am writing regarding **docket number 16-KCPE-446-TAR concerning KCP&L's request to offer energy efficiency programs in Kansas**. I strongly believe that these energy efficiency programs have important advantages that will directly benefit Kansas residents and businesses, and they need to be approved. I have seen these benefits in action in Missouri, and I know that they will improve our economy, help secure our energy supply by reducing consumption, and enable compliance with future carbon & energy regulations.

It is obvious that energy efficiency programs benefit residents by enabling them to afford improvements that will lower their energy bills. But even more impactful is the effect on businesses. Businesses can drastically reduce their energy consumption because 60% of commercial electricity use powers heating and lighting. Both heating and lighting upgrades become accessible and affordable when there are programs to educate business owners, assist with audits and provide rebates. Energy efficient lighting alone reduces lighting energy use by 70% on average. The lower utility bills help businesses thrive, allowing them to spend money on other needs, and creating more jobs. It helps create jobs and businesses not only in the energy industry, but in every industry.

KCP&L wants to offer efficiency programs because they know that energy efficiency not only benefits customers, but also improves our economy and benefits the utility company. Energy efficiency is the lowest-cost way to meet our growing demand for electricity. Fossil fuels can cost 2-3 times more than the same amount of energy saved by efficiency upgrades. This prevents rises in electric costs and the need to purchase more electricity.

It is sad that Kansas consistently ranks in the bottom five on the American Council for an Energy Efficient Economy Scorecard. We also invest an incredibly low percentage of utility revenues on energy efficiency compared to the rest of the country. It is time for Kansas to catch up and invest in these programs that will benefit Kansas residents, businesses, utility companies and the environment. Please approve KCP&L's request to offer energy efficiency programs.

Thank you for your time,

Dana Gordon

I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. IF SUCCESSFUL OVER TIME, THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND. SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF GREENHOUSE GAS EMISSIONS.

I AM A HOMEOWNER IN AND LIFELONG RESIDENT OF WICHITA AND I AM ANTICIPATING THE MERGER OF KCP&L WITH MY CURRENT PROVIDER WESTAR. PLEASE ALLOW THIS TO HAPPEN! THIS WILL BE GREAT FOR EVERYONE IN MY CITY! IF YOU REMEMBER, THERE USED TO BE THE EFFICIENCY KANSAS PROGRAM AND I TOOK ADVANTAGE OF THAT PROGRAM WHERE WESTAR GAVE ME AN INTEREST FREE LOAN TO BUY NEW ENERGY EFFICIENT EQUIPMENT. THEY WORKED IN PARTNERSHIP WITH THE STATE TO ACCOMPLISH THIS. EVERYONE IN TOWN WAS DISAPPOINTED THAT WAS STOPPED.

HERE IS AN OPPORTUNITY TO ALLOW THE CITIZENS OF WICHITA AND TOPEKA AND OTHER PARTS OF THE STATE TO TAKE ADVANTAGE OF COST SAVINGS. PLEASE ALLOW THIS TO HAPPEN. KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN ALMOST IDENTICAL PROGRAM IN THEIR MISSOURI SERVICE AREA. NONETHELESS, GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS, I DO ENCOURAGE THE KCC TO REQUIRE INDEPENDENT MONITORING AND AUDITING TO ENSURE THAT THE PROMISED GAINS ARE ACTUALLY ACHIEVED. AS YOU SHOULD WELL KNOW, OFTEN THESE PROGRAMS ARE OFTEN NOT MONITORED. I HOPE YOU WILL MAKE SURE IT WORKS AS IT IS SUPPOSED TO.

PLEASE INCLUDE THIS EMAIL/LETTER IN THE RECORD OF PROCEEDINGS FOR THE SUBJECT DOCKET. I APPRECIATE BEING INCLUDED IN THE DECISION MAKING PROCESS AT THE KCC.

PLEASE INCLUDE THESE COMMENTS AS PART OF THE OFFICIAL RECORD.

I STRONGLY URGE THE KCC TO APPROVE THE FILING FOR ENERGY EFFICIENCY FUNDING IN KANSAS THROUGH THE K.C.P. & L. BUSINESS ENERGY SAVINGS PROGRAM!

WE HAVE HUNDREDS OF COMMERCIAL CUSTOMERS AND CLIENTS THAT OPERATE IN THE KANSAS PORTION OF THE K.C.P. & L. SERVICE AREA WHO WOULD GREATLY BENEFIT FROM THESE ENERGY EFFICIENCY REBATE INCENTIVE PROGRAMS, LIKE THOSE CURRENTLY BEING OFFERED IN THE K.C.P. & L. MISSOURI SERVICE AREA.

THERE ARE I'M CERTAIN, MANY MILLIONS OF KW HOURS OF PRECIOUS AND EXPENSIVE ENERGY BEING WASTED BY INEFFICIENT AND ANTIQUATED LIGHTING SYSTEMS AND MATERIALS.. WITH THIS INCENTIVE IN PLACE FOR KANSAS, IT WOULD CERTAINLY MAKE IT FAR MORE ATTRACTIVE-AND PROFITABLE-FOR THOSE COMPANIES TO JUSTIFY EXPENDITURES TO UPGRADE AND MODERNIZE NOT ONLY THE LIGHTING SYSTEMS BUT HVAC EQUIPMENT AS WELL, THEREBY SAVING THE COST OF ELECTRICAL PRODUCTION, BUT ALSO ADDING TO THE 'BOTTOM LINE' OF THESE BUSINESSES.

FURTHERMORE I AM CONFIDENT THIS EE INCENTIVE WOULD ALSO ATTRACT NEW BUSINESS DEVELOPMENT IN KANSAS, AND IN DOING SO INCREASE VALUABLE TAX REVENUE FOR THE STATE OF KANSAS AND AT THE SAME HELPING TO MAKE KANSAS 'GO GREEN'!

AGAIN, I STRONGLY URGE THE COMMISSIONER'S TO SUPPORT AND APPROVE THE FILING FOR K.C.P. & L.'S ENERGY EFFICIENT REBATE FUNDING!

HELLO,

I AM AN INVOLVED CITIZEN AND BUSINESSMAN IN THE KANSAS CITY, KANSAS AREA AND I WOULD LIKE MY COMMENTS TO BE INCLUDED AS PART OF THE RECORD. I GREATLY SUPPORT THE ENERGY EFFICIENCY MOVEMENT THAT KCP&L HAS RUN IN MISSOURI AND WOULD LIKE TO SEE THAT EXTENDED TO THE KANSAS SIDE. NOT ONLY IS IT BENEFICIAL TO THE ENVIRONMENT AND REDUCING OUR RELIANCE ON FOSSIL FUELS, THE PROGRAM CAN STIMULATE JOBS AND ECONOMIC GROWTH IN THE STATE. PLEASE SEE THE ATTACHED LETTER THAT FULLY EXPLAINS MY POSITION THAT I WOULD LIKE TO BE PART OF THE PUBLIC RECORD FOR DOCKET NO. 16-KCPE-446-TAR. THANK YOU FOR YOUR TIME.

SINCERELY,

Dear Kansas Corporation Commission,

I am writing regarding docket number 16-KCPE-446-TAR concerning KCP&L's request to offer energy efficiency programs in Kansas. I strongly believe that these energy efficiency programs have important advantages that will directly benefit Kansas residents and businesses, and they need to be approved. I have seen these benefits in action in Missouri, and I know that they will improve our economy, help secure our energy supply by reducing consumption, and enable compliance with future carbon & energy regulations.

It is obvious that energy efficiency programs benefit residents by enabling them to afford improvements that will lower their energy bills. But even more impactful is the effect on businesses. Businesses can drastically reduce their energy consumption because 60% of commercial electricity use powers heating and lighting. Both heating and lighting upgrades become accessible and affordable when there are programs to educate business owners, assist with audits and provide rebates. Energy efficient lighting alone reduces lighting energy use by 70% on average. The lower utility bills help businesses thrive, allowing them to spend money on other needs, and creating more jobs. It helps create jobs and businesses not only in the energy industry, but in every industry.

KCP&L wants to offer efficiency programs because they know that energy efficiency not only benefits customers, but also improves our economy and benefits the utility company. Energy efficiency is the lowest-cost way to meet our growing demand for electricity. Fossil fuels can cost 2-3 times more than the same amount of energy saved by efficiency upgrades. This prevents rises in electric costs and the need to purchase more electricity.

It is sad that Kansas consistently ranks in the bottom five on the American Council for an Energy Efficient Economy Scorecard. We also invest an incredibly low percentage of utility revenues on energy efficiency compared to the rest of the country. It is time for Kansas to catch up and invest in these programs that will benefit Kansas residents, businesses, utility companies and the environment. Please approve KCP&L's request to offer energy efficiency programs.

Thank you for your time,

Andrew Stancati

**Narrative**

09/12/2016

DEAR KANSAS CORPORATION COMMISSION,

I AM WRITING REGARDING DOCKET NUMBER 16-KCPE-446-TAR CONCERNING KCP&L'S REQUEST TO OFFER ENERGY EFFICIENCY PROGRAMS IN KANSAS. I STRONGLY BELIEVE THAT THESE ENERGY EFFICIENCY PROGRAMS HAVE IMPORTANT ADVANTAGES THAT WILL DIRECTLY BENEFIT KANSAS RESIDENTS AND BUSINESSES, AND THEY NEED TO BE APPROVED. I HAVE SEEN THESE BENEFITS IN ACTION IN MISSOURI, AND I KNOW THAT THEY WILL IMPROVE OUR ECONOMY, HELP SECURE OUR ENERGY SUPPLY BY REDUCING CONSUMPTION, AND ENABLE COMPLIANCE WITH FUTURE CARBON & ENERGY REGULATIONS.

IT IS OBVIOUS THAT ENERGY EFFICIENCY PROGRAMS BENEFIT RESIDENTS BY ENABLING THEM TO AFFORD IMPROVEMENTS THAT WILL LOWER THEIR ENERGY BILLS. BUT EVEN MORE IMPACTFUL IS THE EFFECT ON BUSINESSES. BUSINESSES CAN DRASTICALLY REDUCE THEIR ENERGY CONSUMPTION BECAUSE 60% OF COMMERCIAL ELECTRICITY USE POWERS HEATING AND LIGHTING. BOTH HEATING AND LIGHTING UPGRADES BECOME ACCESSIBLE AND AFFORDABLE WHEN THERE ARE PROGRAMS TO EDUCATE BUSINESS OWNERS, ASSIST WITH AUDITS AND PROVIDE REBATES. ENERGY EFFICIENT LIGHTING ALONE REDUCES LIGHTING ENERGY USE BY 70% ON AVERAGE. THE LOWER UTILITY BILLS HELP BUSINESSES THRIVE, ALLOWING THEM TO SPEND MONEY ON OTHER NEEDS, AND CREATING MORE JOBS. IT HELPS CREATE JOBS AND BUSINESSES NOT ONLY IN THE ENERGY INDUSTRY, BUT IN EVERY INDUSTRY.

KCP&L WANTS TO OFFER EFFICIENCY PROGRAMS BECAUSE THEY KNOW THAT ENERGY EFFICIENCY NOT ONLY BENEFITS CUSTOMERS, BUT ALSO IMPROVES OUR ECONOMY AND BENEFITS THE UTILITY COMPANY. ENERGY EFFICIENCY IS THE LOWEST-COST WAY TO MEET OUR GROWING DEMAND FOR ELECTRICITY. FOSSIL FUELS CAN COST 2-3 TIMES MORE THAN THE SAME AMOUNT OF ENERGY SAVED BY EFFICIENCY UPGRADES. THIS PREVENTS RISES IN ELECTRIC COSTS AND THE NEED TO PURCHASE MORE ELECTRICITY.

IT IS SAD THAT KANSAS CONSISTENTLY RANKS IN THE BOTTOM FIVE ON THE AMERICAN COUNCIL FOR AN ENERGY EFFICIENT ECONOMY SCORECARD. WE ALSO INVEST

## Narrative

09/12/2016

DEAR KANSAS CORPORATION COMMISSION,

I AM THE DIRECTOR OF ENERGY INCENTIVES AT MANAGED ENERGY SYSTEMS, A KANSAS COMPANY THAT WORKS WITH CLIENTS NATIONWIDE TO HELP THEM FIND ENERGY EFFICIENCY REBATES AND REDUCE THEIR ENERGY CONSUMPTION.

I AM WRITING IN SUPPORT OF THE KANSAS ENERGY EFFICIENCY INVESTMENT ACT (KEEIA), DOCKET NO. 16-KCPE-446-TAR. KEEIA WOULD DECREASE OVERALL ENERGY USE, INCREASE JOB OPPORTUNITIES IN THE STATE, AND PROMOTE THE "SAVE ENERGY, SAVE MONEY" MINDSET NEEDED TO KEEP ENERGY CONSUMPTION LOW. IN ADDITION, KEEIA WOULD ALLOW KANSAS COMPANIES TO REDUCE THEIR PAYBACK TIMEFRAME, MAKING ENERGY EFFICIENT UPGRADES A MORE REALISTIC AND PROFITABLE ADDITION TO THEIR CAPITAL SPEND.

THE LEADERSHIP OF MANAGED ENERGY SYSTEMS HAS DECADES OF EXPERIENCE IN ENERGY CONSULTING AND DEVELOPING STRATEGIES TO PROMOTE SUSTAINABLE CONSUMPTION, AND WE ARE PROUD TO ASK FOR YOUR SUPPORT OF KEEIA TO PROMOTE A GREENER FUTURE FOR KANSAS.

PLEASE INCLUDE MY COMMENTS AS PART OF THE RECORD.

THANK YOU FOR YOUR CONSIDERATION

DEAR MEMBERS OF THE KANSAS CORPORATION COMMISSION,

WE WRITE TO REQUEST THAT YOU HELP US CATCH UP WITH THE MOST COMPETITIVE STATES IN THE UNION ON

ENERGY EFFICIENCY.

WHILE KANSAS DOES NOT HAVE MANDATES FOR ENERGY EFFICIENCY, UNDER THE KANSAS ENERGY EFFICIENCY

INVESTMENT ACT (KEEIA), KCC IS REQUIRED TO PERMIT ELECTRIC AND NATURAL GAS PUBLIC UTILITIES TO

IMPLEMENT COMMISSION-APPROVED PROGRAMS AND COST RECOVERY MECHANISMS TO REDUCE THE

CONSUMPTION OF ELECTRICITY OR NATURAL GAS BY RETAIL CUSTOMERS. WE SUPPORT THESE GOALS.

AT KCP&L'S REQUEST YOU RECENTLY YOU OPENED THE DOCKET (REFERENCE DOCKET NO 16-KCPE-446-

TAR) TO HELP CONSIDER KCP&L'S 9 RESIDENTIAL AND BUSINESS ENERGY-EFFICIENCY PROGRAMS. WE

SUPPORT POSITIVE ACTION ON THIS REQUEST. WHILE WE DO NOT TAKE A POSITION ON THE SPECIFIC PROPOSED

COST-RECOVERY MECHANISMS, WE STRONGLY SUPPORT THE PROPOSED CUSTOMER PROGRAMS.

THE PROPOSED PROGRAMS ARE ACCESSIBLE BY ALL KCP&L CUSTOMERS - BOTH COMMERCIAL AND RESIDENTIAL,

AND ALL INCOME LEVELS

IN ADDITION, THE PROGRAMS WILL BECOME AVAILABLE TO WESTAR CUSTOMERS IF AND WHEN THE KCP&L AND

## Narrative

WESTAR MERGER TAKES PLACE, IMPACTING A WIDER NUMBER OF KANSANS.

WE SUGGEST THAT THE KCC ORDER SHOULD PROVIDE FOR STEPS TO COMPARE THE DATA AFTER ENOUGH TIME HAS

PASSED AFTER IMPLEMENTION TO SEE WHICH OF THE PROGRAMS WORKED, WHERE THEY WORKED AND HOW.

ENERGY EFFICIENCY IS THE LEAST EXPENSIVE WAY WE CAN REDUCE GREENHOUSE GAS EMISSIONS, AND IT SAVES

CUSTOMERS MONEY.

MUCH OF THIS WORK WILL INVOLVE LOCAL SKILLED WORKERS INSTALLING MEASURES THAT ARE SOURCED GLOBALLY.

THESE INVESTMENTS TYPICALLY USES A HIGHER PROPORTION OF LOCAL LABOR AND GENERATES MORE JOBS PER

UNIT OF ENERGY DELIVERED THAN INVESTMENTS IN FOSSIL FUEL-BASED ELECTRICITY PRODUCTION, TRANSMISSION,

AND DISTRIBUTION (REFERENCE: ). AS SUCH, THIS PROGRAM WILL BENEFIT KANSANS IN WAYS THAT GO BEYOND

THEIR ROLES AS ENERGY CUSTOMERS AND AS BENEFICIARIES OF ECOLOGICAL MITIGATION

RE: DOCKET NUMBER 16-KCPE-446-TAR  
KCP&L'S ENERGY EFFICIENCY PROGRAMS

I AM WRITING TO ENCOURAGE APPROVAL OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAMS WHICH I STRONGLY BELIEVE WILL CREATE JOB AND BUSINESS GROWTH, SUPPORT THE KANSAS ECONOMY, SAVE KANSANS MONEY AND HELP THE ENVIRONMENT. AS A RESIDENT AND EMPLOYEE HERE IN KANSAS I CAN SEE NO NEGATIVE IMPACT OF APPROVING THESE PROGRAMS.

THESE ENERGY EFFICIENCY PROGRAMS HAVE IMPORTANT ADVANTAGES THAT WILL DIRECTLY BENEFIT KANSAS RESIDENTS AND BUSINESSES, AND THEY NEED TO BE APPROVED. I HAVE SEEN THESE BENEFITS IN ACTION IN MISSOURI, AND I KNOW THAT THEY WILL IMPROVE OUR ECONOMY, HELP SECURE OUR ENERGY SUPPLY BY REDUCING CONSUMPTION, AND ENABLE COMPLIANCE WITH FUTURE CARBON & ENERGY REGULATIONS.

IT IS OBVIOUS THAT ENERGY EFFICIENCY PROGRAMS BENEFIT RESIDENTS BY ENABLING THEM TO AFFORD IMPROVEMENTS THAT WILL LOWER THEIR ENERGY BILLS. BUT EVEN MORE IMPACTFUL IS THE EFFECT ON BUSINESSES. BUSINESSES CAN DRASTICALLY REDUCE THEIR ENERGY CONSUMPTION BECAUSE 60% OF COMMERCIAL ELECTRICITY USE POWERS HEATING AND LIGHTING. BOTH HEATING AND LIGHTING UPGRADES BECOME ACCESSIBLE AND AFFORDABLE WHEN THERE ARE PROGRAMS TO EDUCATE BUSINESS OWNERS, ASSIST WITH AUDITS AND PROVIDE REBATES. ENERGY EFFICIENT LIGHTING ALONE REDUCES LIGHTING ENERGY USE BY 70% ON AVERAGE. THE LOWER UTILITY BILLS HELP BUSINESSES THRIVE, ALLOWING THEM TO SPEND MONEY ON OTHER NEEDS, AND CREATING MORE JOBS. IT HELPS CREATE JOBS AND BUSINESSES NOT ONLY IN THE ENERGY INDUSTRY, BUT IN EVERY INDUSTRY.

KCP&L WANTS TO OFFER EFFICIENCY PROGRAMS BECAUSE THEY KNOW THAT ENERGY EFFICIENCY NOT ONLY BENEFITS CUSTOMERS, BUT ALSO IMPROVES OUR ECONOMY AND BENEFITS THE UTILITY COMPANY. ENERGY EFFICIENCY IS THE LOWEST-COST WAY TO MEET OUR GROWING DEMAND FOR ELECTRICITY. FOSSIL FUELS CAN COST 2-3 TIMES MORE THAN THE SAME AMOUNT OF ENERGY SAVED BY EFFICIENCY UPGRADES. THIS PREVENTS RISES IN ELECTRIC COSTS AND THE NEED TO

09/12/2016

DEAR KCC COMMISSIONERS:

I AM WRITING TO URGE YOUR APPROVAL OF THE MUCH-NEEDED ENERGY EFFICIENCY PROGRAMS PROPOSED BY KCP&L.

THESE PROPOSED PROGRAMS, ALREADY AVAILABLE TO KCP&L CUSTOMERS IN NEIGHBORING MISSOURI, OFFER NUMEROUS BENEFITS, INCLUDING:

- AVAILABILITY TO ALL RESIDENTIAL AND COMMERCIAL CUSTOMERS, REGARDLESS OF INCOME.
- ADOPTION OF ENERGY EFFICIENCY MEASURES WILL HAVE A NET RESULT OF LOWER ELECTRIC UTILITY BILLS FOR THE CONSUMER.
- DECREASED DEMAND FOR ELECTRICITY RESULTS IN A NO-COST INCREASE IN EXISTING CAPACITY, ALLOWING DELAY IN COSTLY CONSTRUCTION OF NEW POWER GENERATING FACILITIES. THE COST OF CONSTRUCTION OF NEW POWER GENERATION IS EXHORBITANT. LARGE RATE HIKES RESULTING FROM NEW CONSTRUCTION WOULD BE KEENLY FELT BY AVERAGE CONSUMERS.
- IMPLEMENTATION OF THE PROPOSED ENERGY EFFICIENCY PROGRAMS WOULD PROVIDE NEW, LOCAL EMPLOYMENT OPPORTUNITIES.
- PROVIDING EASE OF ACCESS TO LOW-COST ENERGY-SAVING MEASURES WILL ALLOW RENTERS AND HOMEOWNERS TO PURCHASE PRODUCTS AND SERVICES PREVIOUSLY OUT OF REACH FINANCIALLY.
- REDUCED ENERGY CONSUMPTION LEADS TO A DECREASE IN POWER PLANT EMISSIONS. CLEANER AIR CORRELATES TO IMPROVED PUBLIC HEALTH AND REDUCED HEALTH CARE COSTS.

WHILE EACH OF THESE BENEFITS CAN STAND ON ITS OWN MERITS, IMPROVING AIR QUALITY AND PROTECTING HEALTH IS THE MOST IMPORTANT TO MY FAMILY. AS THE MOTHER OF TWO SONS WITH ASTHMA, I HAVE WITNESSED THE CLEAR CONNECTION BETWEEN RESPIRATORY HEALTH AND AIR QUALITY. WHILE COAL-FIRED POWER PLANTS AREN'T THE ONLY SOURCE OF POLLUTING EMISSIONS, THEY ARE AN IMPORTANT SOURCE. COAL-FIRED POWER GENERATION - EVEN WITH UPGRADES - EMITS NITROGEN DIOXIDE, SULFUR DIOXIDE AND PARTICULATES, RESULTING IN GROUND-LEVEL OZONE AND THREATENING THE HEALTH OF THOSE WITH

## Narrative

RESPIRATORY ILLNESS. KCP&L'S PROPOSED PROGRAM ALLOWS US TO DO SOMETHING ABOUT IT.

09/12/2016

ACCORDING TO A KDHE REPORT, AN ESTIMATED 251,670 (12.1%) ADULT KANSANS HAVE HAD ASTHMA IN THEIR LIFETIME. AMONG KANSAS CHILDREN, ABOUT 11.3% HAVE HAD ASTHMA IN THEIR LIFETIME. ASTHMA ACCOUNTS FOR ABOUT 300 DEATHS AND 3,000 INPATIENT HOSPITAL DISCHARGES EACH YEAR IN KANSAS. WE HAVE A MORAL RESPONSIBILITY TO ADDRESS THAT ISSUE.

IT IS NOT ONLY THOSE WITH RESPIRATORY ILLNESS THAT PAY THE PRICE FOR POLLUTED AIR. MISSED WORKDAYS AND SCHOOL, LOST PRODUCTIVITY, HEALTHCARE - THESE COSTS ARE ALL BORNE DIRECTLY OR INDIRECTLY BY ORDINARY CITIZENS.

FOR THE SAKE OF OUR CHILDREN'S HEALTH, I URGE YOU TO SEIZE THIS OPPORTUNITY TO REDUCE EMISSIONS THROUGH ADOPTION OF KCP&L'S ENERGY EFFICIENCY PROGRAM.

I KINDLY REQUEST THAT YOU INCLUDE THIS COMMUNICATION IN THE RECORD OF DOCKET PROCEEDINGS. I APPRECIATE THE WORK YOU DO AND THE OPPORTUNITY TO SHARE MY INPUT.

09/12/2016

DEAR COMMISSIONERS,

I WOULD LIKE TO HAVE THESE COMMENTS AS PART OF THE PUBLIC RECORD PERTAINING TO THE DOCKET 16-KCPE-446-TAR IN WHICH KCP&L IS SUBMITTING AN ENERGY EFFICIENCY REBATE PROGRAM TO BE IMPLEMENTED IN THE STATE OF KANSAS.

FRIDGEWIZE WORKS ACROSS THE COUNTRY AND AROUND THE WORLD IN REDUCING THE ENERGY CONSUMPTION OF SMALL TO LARGE BUSINESSES. WE HAVE SEEN THE POSITIVE EFFECTS THAT REBATE DOLLARS THAT UTILITY PROVIDERS PROVIDE TO ENABLE LOCAL JOBS AS WELL AS ALLOWING THE BUSINESS TO REMAIN COMPETITIVE BY INCREASING THEIR PRODUCTIVITY BY REDUCING THEIR ENERGY COSTS. ALTHOUGH THE VARIOUS CONSUMERS ACROSS KANSAS WILL SEE A PUBLIC BENEFIT CHARGE THAT HELPS PAY FOR THESE EFFICIENCY PROGRAMS, THESE EFFICIENCY PROGRAMS CAN HELP REDUCE THE CONSUMER'S ENERGY BILLS MORE THAN THE COST OF THE PROGRAM CHARGE.

OFTEN TIMES WE HAVE SEEN PROJECTS NEEDING THE REBATES TO ACHIEVE A DESIRED PAYBACK THAT THE END USER IS LOOKING TO ACHIEVE. THESE REBATES, THROUGH UTILITY EFFICIENCY PROGRAMS, HAVE OFTEN TIMES BRIDGED THAT GAP. THIS CAN HELP KANSAS BUSINESSES ACHIEVE THE SAME OPERATING EFFICIENCIES THAT OTHER COMPANIES LOCATED IN OTHER STATES WITH UTILITY EFFICIENCY PROGRAMS HAVE BEEN ABLE TO ACHIEVE. KEEPING KANSAS BUSINESSES COMPETITIVE WHILE PROVIDING JOBS AND AVOIDING COSTLY INVESTMENTS IN NEW POWER PLANTS,

I HOPE THAT THE COMMISSION WILL LOOK UPON THE REQUEST FROM KCP&L FAVORABLY AND ALLOW FOR THE UTILITY EFFICIENCY PROGRAMS TO MOVE FORWARD.

SINCERELY

DEAR COMMISSIONERS:

SUBJECT: DOCKET NO. 16-KCPE-446-TAR.

I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND. AND SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF GREENHOUSE GAS EMISSIONS, A GOAL I APPRECIATE.

I AM A HOMEOWNER WHO VALUES SUPPORT FROM PUBLIC UTILITIES TO SAVE ON MY ELECTRIC BILL THROUGH ENERGY EFFICIENCY INVESTMENTS AROUND MY HOME.

EVEN THOUGH I UNDERSTAND THAT KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN ALMOST IDENTICAL PROGRAM IN THEIR MISSOURI SERVICE AREA, GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS, I ENCOURAGE THE KCC TO REQUIRE INDEPENDENT MONITORING AND AUDITING TO ENSURE THAT THE PROMISED GAINS ARE ACTUALLY ACHIEVED.

PLEASE INCLUDE THIS LETTER IN THE RECORD OF PROCEEDINGS FOR THE SUBJECT DOCKET. I APPRECIATE BEING INCLUDED IN THE DECISION MAKING PROCESS AT THE KCC.

Dear KCC:

My name is BART MATTRY

I AM writing to you re: KS Docket No. KCPE-446-TAR

Please consider that energy efficiency is the first step in establishing a clean energy program for Kansas. It not only saves money at all costs, but will provide many jobs at the same time

It is clearly the right thing to do for reducing greenhouse gases and making a positive impact.

I invite you to reach out if you would like to discuss.

Thank you,

BART MATTRY

09/12/2016

DEAR KANSAS CORPORATION COMMISSION,

I AM WRITEING REGARDING DOCKET NUMBER 16-KCPE-446-TAR CONCERNING KCP&L'S REQUEST TO OFFER ENERGY EFFICIENCY PROGRAMS IN KANSAS. I STRONGLY BELIEVE THAT THESE ENERGY EFFICIENCY PROGRAMS HAVE IMPORTANT ADVANTAGES THAT WILL DIRECTLY BENEFIT KANSAS RESIDENTS AND BUSINESSES AND THEY NEED TO BE APPROVED. I HAVE SEEN THESE BENEFITS IN ACTION IN MISSOURI AND I KNOW THAT THEY WILL IMPROVE OUR ECONOMY, HELP SECURE OUT ENERGY SUPPLY BY REDUCING CONSUMPTION AND ENABLE COMPLIANCE WITH FUTURE CARBON AND ENERGY REGULATIONS.

IT IS OBVIOUS THAT ENERGY EFFICIENCY PROGRAMS BENEFIT RESIDENTS BY ENABLING THEM TO AFFORD IMPROVEMENTS THAT WILL LOWER THEIR ENERGY BILLS. BUT EVEN MORE IMPACTFUL IS THE EFFECT ON BUSINESSES. BUSINESSES CAN DRASTICALLY REDUCE THEIR ENERGY CONSUMPTION BECAUSE 60% OF COMMERCIAL ELECTRICITY USE POWERS HEATING AND LIGHTING. BOTH HEATING AND LIGHTING UPGRADES BECOME ACCESSIBLE AND AFFORDABLE WHERE THERE ARE PROGRAMS TO EDUCATE BUSINESS OWNERS, ASSIST WITH AUDITS AND PROVIDE REBATES. ENERGY EFFICIENT LIGHTING ALONE REDUCES LIGHTING ENERGY USE BY 70% ON AVERAGE. THE LOWER UTILITY BILLS HELP BUSINESSES THRIVE, ALLOWING THEM TO SPEND MONEY ON OTHER NEEDS AND CREATING MORE JOBS. IT HELPS CREATE JOBS AND BUSINESSES NOT ONLY IN THE ENERGY INDUSTRY, IN EVERY INDUSTRY.

KCP&L WANTS TO OFFER EFFICIENCY PROGRAMS BECAUSE THEY KNOW THAT ENERGY EFFICIENCY NOT ONLY BENEFITS CUSTOMERS, BUT ALSO IMPROVES OUR ECONOMY AND BENEFITS THE UTILITY COMPANY. ENERGY EFFICIENCY IS THE LOWEST COST WAY TO MEET OUR GROWING DEMAND FOR ELECTRICITY. FOSSIL FUELS CAN COST 2 - 3 TIMES MORE THAT THE SAME AMOUNT OF ENERGY SAVED BY EFFICIENCY UPGRADES. THIS PREVENTS RISES IN ELECTRIC COSTS AND THE NEEDS TO PURCHASE MORE ELECTRICITY.

IT IS SAD THAT KANSAS CONSISTENTLY RANKS IN THE BOTTOM FIVE ON THE AMERICAN COUNCIL FOR AN ENERGY EFFICIENT ECONOMY SCORECARD. WE ALSO INVEST AN INCREDIBLY LOW PERCENTAGE OF UTILITY REVENUES ON ENERGY EFFICIENCY

09/12/2016

COMPARED TO THE REST OF THE COUNTRY. IS IT TIME FOR KANSAS TO CATCH UP AND INCEST IN THESE PROGRAMS THAT WILL BENEFIT KANSAS RESIDENTS, BUSINESSES, UTILITY COMPANIES AND THE ENVIRONMENT. PLEASE APPROVE KCP&L'S REQUEST TO OFFER ENERFY EFFICIENCY PROGRAMS.

SINCERELY,  
JOHN MARTIN, COO

09/16/2016

PLEASE INCLUDE THIS EMAIL/LETTER IN THE RECORD OF PROCEEDINGS FOR THE SUBJECT DOCKET. I APPRECIATE BEING INCLUDED IN THE DECISION MAKING PROCESS AT THE KCC.

I AM WRITING IN SUPPORT OF KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM FOR THEIR RATEPAYERS IN KANSAS. ENERGY EFFICIENCY PROGRAMS ARE THE CHEAPEST WAY TO ACHIEVE ADDITIONAL CAPACITY TO MEET DEMAND. IF SUCCESSFUL OVER TIME, THESE PROGRAMS CAN DELAY FOR MANY YEARS THE NEED FOR NEW POWER GENERATION CAPACITY, PARTICULARLY THE INEFFICIENT AND EXPENSIVE GAS -COMBUSTION TURBINES USED TO MEET PEAK DEMAND. SUCH A PROGRAM ALSO IMMEDIATELY ACHIEVES A REDUCTION OF GREENHOUSE GAS EMISSIONS.

I ENJOY COST SAVINGS FROM PAST ENERGY EFFICIENCY UPGRADES I HAVE MADE TO MY HOME. THE ENERGY EFFICIENCY PROGRAM PROPOSED BY KCP&L WILL MAKE ENERGY SAVINGS POSSIBLE FOR A VARIETY OF PEOPLE, SO THAT WE ALL MAY BENEFIT.

KCP&L HAS DEVELOPED EXPERTISE IN ENERGY EFFICIENCY TECHNOLOGY THROUGH AN ALMOST IDENTICAL PROGRAM IN THEIR MISSOURI SERVICE AREA. NONETHELESS, GIVEN THE PROGRAM'S COMPLEX FORMULAS FOR CALCULATING BENEFITS, COSTS AND RETURNS, I DO ENCOURAGE THE KCC TO REQUIRE INDEPENDENT MONITORING AND AUDITING TO ENSURE THAT THE PROMISED GAINS ARE ACTUALLY ACHIEVED.

## Narrative

09/30/2016

DEAR KANSAS CORPORATION COMMISSION:

ENERGY SOLUTIONS PROFESSIONALS IS WRITING IN SUPPORT OF THE ABOVE REFERENCED DOCKET. AS A SMALL BUSINESS HEADQUARTERED IN OVERLAND PARK, OUR BUSINESS IS FOCUSED EXCLUSIVELY ON HELPING CLIENTS BECOME MORE ENERGY EFFICIENT BY ADDRESSING IMPROVEMENTS THAT CAN BE MADE IN THEIR BUILDINGS. WE WORK WITH KCP&L CUSTOMERS IN BOTH MISSOURI AND KANSAS, AND CAN SPEAK FIRST HAND TO THE FACT THAT UTILITY REBATES OR INCENTIVES CAN OFTEN BE THE DIFFERENCE BETWEEN A CLIENT DECIDING TO INCLUDE OR EXCLUDE A PARTICULAR IMPROVEMENT AS PART OF A PROJECT.

EVERY TIME ONE OF OUR KANSAS CLIENTS DECIDES TO INCLUDE ADDITIONAL ENERGY-SAVING IMPROVEMENTS OR UPGRADES TO THEIR BUILDINGS, WHICH ARE PAID FOR OUT OF THE ENERGY SAVINGS THEY CREATE, JOBS ARE CREATED, BUILDINGS ARE MADE MORE COMFORTABLE, MAINTENANCE COSTS ARE REDUCED, AND THE BURDEN ON OUR GLOBAL ENVIRONMENT IS LESSENED.

WE WOULD STRONGLY ENCOURAGE THE KCC TO SUPPORT A DSM PROGRAM FOR KCP&L IN KANSAS SIMILAR TO THE OFFERING THAT IS CURRENTLY IN PLACE FOR MISSOURI.

TO WHOM IT MAY CONCERN:

AS ENGINEERING MANAGER AT AN ENERGY SERVICES COMPANY WORKING PRIMARILY WITH K-12 SCHOOLS IN KANSAS, MISSOURI AND NEBRASKA, WE HAVE FOUND THE DEMAND-SIDE REBATE PROGRAM IN MISSOURI TO BE A POSITIVE INCENTIVE FOR SCHOOL DISTRICTS DECIDING TO MAKE ENERGY EFFICIENCY IMPROVEMENTS TO THEIR FACILITIES. THE DOLLARS RECEIVED THROUGH THIS PROGRAM HAVE BEEN VERY BENEFICIAL IN HELPING THEM EXPAND FUNDS AVAILABLE FOR IMPROVEMENTS AND MEET THEIR FACILITY NEEDS WITH HIGHLY EFFICIENT EQUIPMENT, RESULTING IN REDUCED ENERGY USE. WE ARE IN SUPPORT OF KANSAS CITY POWER & LIGHT OFFERING A DEMAND-SIDE MANAGEMENT PROGRAM IN KANSAS, AND ENCOURAGE THE KANSAS CORPORATION COMMISSION TO APPROVE A PROGRAM THAT WILL BE SUSTAINABLE FOR SEVERAL YEARS TO ALLOW KANSAS CUSTOMERS TO FULLY IMPLEMENT NEW EFFICIENT TECHNOLOGY IN THEIR BUILDINGS.

I APPROVE OF THESE COMMENTS BEING INCLUDED AS PART OF THE RECORD.  
THANK YOU,  
NAVITAS, LLC

PUBLIC AFFAIRS  
AND  
CONSUMER PROTECTION

Public Comment to KCP&L  
Demand-Side Management Portfolio Pursuant to  
the Kansas Energy Efficiency Investment Act  
("KEEIA"), K.S.A. 66-1283.  
Docket # 16-KCPE-446-TAR

The Flint Hills Renewable Energy & Efficiency Cooperative, Inc. is in favor of incentivizing efficiency through a variety of rate and financing means. We believe that international pressure to decrease carbon emissions will be a permanent trend regardless of which party holds a majority in the US House and Senate. Efficiency is the most cost effective way to relieve that pressure.

We are however, concerned about the conflict of interest an investor owned utility will face satisfying both ratepayers and their stockholders.

1. At a minimum the true-up should be adjusted for both weather and economic conditions.
2. Historically, utility energy efficiency programs have been the first to be cut when revenues fall for any number of reasons. We think utilities should be committed to a minimum number of years of sustained effort in return for the rate-payers' investment.
3. We are concerned that a basic decoupling mechanism guarantees KCP&L will recover its entire revenue requirements regardless of management practices.
4. The emphasis on business efficiency is designed to increase KCP&L's profit by reducing mid-day peak load. This would drive KCP&L's efforts regardless of rate-payer financing.
5. And the utility's rate of return should reflect their reduced overall risk.

Other utilities have been tempted to overestimate savings from efficiency programs and such programs have been difficult to oversee by commissions. Recent changes in the Citizens' Utility Ratepayer Board make us question who will represent citizens in evaluating these adjustments. There are two additions or variations we would like to suggest:

The difficulties quantifying the under- (or over-) recovery of revenue in proposed true-up mechanism, makes us wonder if the establishment of a third party trust to administer a comparable rate-payer collected fund wouldn't be more effective. An existing templet already exists with the Energy Trust of Oregon (<https://energytrust.org/>). With a similar percentage rate increase, the Energy Trust:

"From 2002 to 2015, ...delivered 548 aMW and 45.3 million annual therms, and invested \$1.3 billion dollars that will save utility customers \$5.6 billion on utility bills over time. Our investments delivered clean power and provided a reliable energy resource at a far lower cost than what utilities would have paid for other energy sources.

STATE  
CORPORATION  
COMMISSION  
JUN 13 2016

## 2015 Energy Trust of Oregon Annual results:

- Electric efficiency improvements completed during 2015 saved 54.1 average megawatts of electricity, about 2 percent more than the 2015 goal of 53.1 aMW, at a levelized costs of 2.6 cents per kilowatt hour.
- Gas efficiency improvements completed during 2015 will save 6.5 million annual therms of natural gas, about 16 percent more than the 2015 goal of 5.6 million annual therms, at a levelized cost of 26.6 cents per therm.
- Costs to save and generate energy were among our lowest ever, with electric levelized costs equal to last year and gas levelized costs more than 6 cents lower. Administrative and staffing costs were well below OPUC performance thresholds, supported by ongoing operations and systems improvements.

Energy Trust met every Oregon Public Utilities Commission performance measure, including:

- Maintained low administrative and program support costs at 5.5 percent of revenue, well below the Oregon Public Utilities Commission OPUC performance measure of 8 percent.
- Kept staffing costs at 6.8 percent, well below the 7.75 percent, three-year rolling average threshold.
- Received consistently high customer satisfaction ratings of 95 percent overall and 98 percent for interaction with program representatives."

*2015 Annual Report to the Oregon Public Utility Commission, Energy Trust of Oregon, updated June 13, 2016*

*There is no difference in cost to the ratepayer, only in who administers the funds.*

---

One of the other programs for which the KCC could request enabling legislation would be both commercial and residential "Property Assessed Clean Energy (PACE)." Allowing energy efficiency improvements to be amortized through local property taxes would expand the access to more extensive retrofits to households and businesses who could not otherwise have the up-front capital. It benefits the whole community by keeping the money and employment local where it recirculates via the local spending multiplier effects.

Please include our comments in the public record.

Thank you.

William Dorsett

## Narrative

11/01/2016

DEAR COMMISSIONERS:

MY NAME IS NICOLE BARTON-MCGEE. I AM A HUMAN SERVICES MANAGER FOR PHOENIX FAMILY. OUR ORGANIZATION EMPOWERS PEOPLE LIVING IN LOW-INCOME HOUSING COMMUNITIES WITH ON-SITE SUPPORT THEY NEED TO GAIN STABILITY AND ACHIEVE SELF-SUFFICIENCY. THE PROPOSED ENERGY EFFICIENCY PROGRAM WILL SUPPORT COST SAVING BENEFITS TO THE INDIVIDUALS WE SERVE.

I AM WRITING TO SHOW MY SUPPORT FOR THE ENERGY EFFICIENCY PROGRAMS BEING PROPOSED BY KCP&L, DOCKET NO. 16-KCPE-446-TAR. ENERGY EFFICIENCY IS ONE OF THE CLEANEST AND LEAST-EXPENSIVE ENERGY IMPROVEMENTS AVAILABLE IN AMERICA TODAY AND IT'S ACCESSIBLE TO EVERYONE WHO USES ENERGY. WE, AT PHOENIX FAMILY ARE ESPECIALLY IN SUPPORT OF THE PROPOSED ENERGY EFFICIENCY INVESTMENTS DUE TO THE FACT THE PROGRAMS SHOULD PREVENT KCP&L FROM NEEDING TO BUILD NEW GENERATION IN THE NEAR TERM WHICH WILL HELP KEEP THE COSTS LOWER FOR MUNICIPAL UTILITIES LIKE GARDNER WHERE ONE OF OUR PHOENIX FAMILY PROPERTIES IS LOCATED.

I URGE THE KANSAS CORPORATION COMMISSION TO APPROVE THE PROPOSED PROGRAMS THAT WILL HELP PUT US ON THE RIGHT TRACK TO SAVING ENERGY AND COSTS.

THANK YOU,

## Narrative

12/13/2016

AS YOU MAY WELL KNOW, KANSAS IS BEHIND MOST OTHER STATES IN MAKING ENERGY EFFICIENCY A PRIORITY. IT'S TIME THAT WE CHANGE OUR STATUS AND DO OURSELVES A FAVOR.

CONSUMERS HERE DO BENEFIT SOMEWHAT FROM THE KANSAS ENERGY EFFICIENCY INVESTMENT ACT (KEEIA) THAT ALLOWS THE KCC TO PERMIT ELECTRIC AND NATURAL GAS PUBLIC UTILITIES TO IMPLEMENT COMMISSION-APPROVED PROGRAMS AND COST RECOVERY MECHANISMS TO REDUCE THE CONSUMPTION OF ELECTRICITY OR NATURAL GAS BY RETAIL CUSTOMERS. BUT MUCH MORE CAN BE DONE TO HELP OUR CITIZENS.

SOME STATES HAVE MANDATORY ENERGY EFFICIENCY WHILE OTHERS HAVE ENERGY EFFICIENCY RESOURCE STANDARDS, WHERE A PERCENTAGE OF UTILITY INVESTMENTS MUST BE MADE IN ENERGY EFFICIENCY PROGRAMS. CITIZENS OF KANSAS DO NOT ENJOY THESE CONSUMER ADVANTAGES--YET. IF AND WHEN THE PROPOSED MERGER OF KCP&L AND WESTAR TAKES PLACE, THOSE PROGRAM CHANGES COULD HAPPEN, WITH YOUR SUPPORT, AND APPLY TO BOTH COMMERCIAL AND RESIDENTIAL CUSTOMERS.

ENERGY EFFICIENCY IS THE LEAST EXPENSIVE WAY WE CAN REDUCE GREENHOUSE GAS EMISSIONS, SAVING CUSTOMERS MONEY ON THEIR ENERGY BILLS. THESE EFFICIENCY INSTALLATION MEASURES TYPICALLY EMPLOY A HIGHER PROPORTION OF LOCAL LABOR AND THUS GENERATE MORE JOBS PER UNIT OF ENERGY DELIVERED THAN FOSSIL FUEL-BASED ELECTRICITY PRODUCTION, TRANSMISSION, AND DISTRIBUTION.

WE URGE YOU TO GIVE SERIOUS CONSIDERATION TO THESE POSITIVE CHANGES, THEN ACT ON THEM.

**Narrative**

12/15/2016

DEAR COMMISSIONERS:

MY NAME IS MICHAEL CAMPBELL AND I'M WRITING IN SUPPORT OF THE ENERGY EFFICIENCY PROGRAM PROPOSED BY KANSAS CITY POWER & LIGHT, OR KCP&L (DOCKET NO. 16-KCPE-446-TAR). I AM NOT A KCP&L CUSTOMER, BUT I UNDERSTAND THAT THESE REGULATIONS WOULD SET A STANDARD FOR OTHER UTILITIES IN KANSAS TO FOLLOW. AS A HOMEOWNER, I WOULD APPRECIATE THE OPPORTUNITY TO USE EFFICIENCY PROGRAMS TO SAVE MONEY. I'M DISTRESSED TO KNOW THAT KANSAS RANKS NEAR THE BOTTOM IN TERMS PROGRAMS SUPPORTING ENERGY EFFICIENCY. I BELIEVE THAT KCP&L'S PROGRAM WOULD GO A LONG WAY TOWARDS CORRECTING THIS DEFICIENCY. AS A CITIZEN, I ALSO KNOW THAT ENERGY EFFICIENCY IS ONE OF THE CHEAPEST AND MOST-EFFECTIVE WAYS TO REDUCE POLLUTION, INCLUDING GREENHOUSE GAS EMISSION, AND TO MAINTAINING ENERGY SECURITY. I ASK YOU NOW TO DO EVERYTHING YOU CAN TO SEE THAT THE KANSAS CORPORATION COMMISSION ADOPTS KCP&L'S PROPOSED ENERGY EFFICIENCY PROGRAM. THANK YOU FOR YOUR ATTENTION.

SINCERELY,

# KANSAS CORPORATION COMMISSION

RE: DOCKET NO. 16-KCPE-446-TAR

DEAR MEMBERS OF THE KANSAS CORPORATION COMMISSION:

I AM WRITING IN SUPPORT OF KCPL'S FILING TO PROVIDE ENERGY EFFICIENCY REBATES AND PROGRAMS TO KANSAN INDIVIDUALS AND BUSINESSES UNDER THE KANSAS ENERGY EFFICIENCY INVESTMENT ACT. I HAVE PERSONALLY USED FEDERAL TAX INCENTIVES IN MY OWN HOME THROUGH THE YEARS TO REPLACE WINDOWS AND DOORS, ADD INSULATION, AND UPGRADE TO ENERGY-EFFICIENT APPLIANCES AND HVAC SYSTEMS. I HAVE BEEN REWARDED FOR YEARS WITH LOWER UTILITY BILLS PER SF THAN ANY OF MY NEIGHBORS. THE CHEAPEST ENERGY IS THE ENERGY NOT USED!

I AM ALSO THE CEO OF THE LARGEST RETIREMENT COMMUNITY IN KANSAS WITH MORE THAN 1,000,000 SF OF LIVING AND PROGRAM SPACE UNDER ROOF. WE HAVE MADE NUMEROUS INVESTMENTS TO IMPROVE OUR ENERGY EFFICIENCY THROUGHOUT OUR CAMPUS, BUT WOULD CONSIDER INVESTING FAR MORE CAPITAL IF KCPL REBATES OR PROGRAMS HELPED TO OFFSET OUR COSTS AND IMPROVE OUR RETURN ON INVESTMENT.

PLEASE HELP KANSAS BUSINESSES AND INDIVIDUALS REDUCE OUR ENERGY CONSUMPTION BY SUPPORTING KCPL'S FILING, THUS ENABLING THEM TO PROVIDE US SIMILAR PROGRAMS TO OUR NEIGHBORS IN MISSOURI. SUCH PROGRAMS STIMULATE THE ECONOMY THROUGH JOB CREATION; REDUCE POLLUTION AND LOWER HEALTHCARE COSTS; IMPROVE OUR CHERISHED ENVIRONMENT; AND ENHANCE OUR COMMUNITIES.

PLEASE INCLUDE MY COMMENTS IN THE OFFICIAL RECORD.

SINCERELY,

# KANSAS CORPORATION COMMISSION

I SUPPORT THE EE PROGRAMS PROPOSED BY KCPL AS THE LOWEST COST RESOURCE FOR REDUCING EMISSIONS CAUSED BY ENERGY PRODUCTION. THEY WILL NOT ONLY HELP US EMIT LESS BUT WILL ALSO SAVE LOTS OF PEOPLE MONEY, PEOPLE WHO OTHERWISE WOULD NOT BE ABLE TO IMPLEMENT EE. THIS IS A GOOD START FOR KS.

OUR COMPANY, HERMAN KITTLE PROPERTIES, OWNSMANAGES 5 APARTMENT COMMUNITIES IN KANSAS TOTALING OVER 200 UNITS. WE ARE SUPPORTING APPROVAL OF THE INCOME-ELIGIBLE MULTI-FAMILY PROGRAM. ENERGY EFFICIENCY IS A KEY COMPONENT OF OUR AFFORDABLE HOUSING PORTFOLIO. OVER THE LAST 5 YEARS, OUR PROPERTIES IN KANSAS HAVE AVERAGED APPROXIMATELY 80 HIGHER COMMON AREA ELECTRIC COSTS THAN THE REMAINDER OF OUR PORTFOLIO APPROXIMATELY 80 STABILIZED PROPERTIES. WE'VE MADE ENERGY RETROFITS IN OTHER STATES E.G. COMMON AREA LIGHTING AND HOPE THIS PROGRAM CAN SERVE AS A PRECEDENT FOR THE ESTABLISHMENT OF OTHER PROGRAMS IN KANSAS.

THESE PROGRAMS HAVE BEEN AVAILABLE ON THE MO FOR A FEW YEARS NOW. KANSAS NEEDS TO PRIORITIZE ENERGY EFFICIENCY AND INCENTIVIZE RESPONSIBLE ENERGY USE FOR THEIR CITIZENS. WHILE THERE IS AN INITIAL UP FRONT COST, IT CAN SAVE MONEY AS WELL AS ENERGY FOR YEARS TO COME. I AM IN STRONG SUPPORT OF THIS REQUEST.

**Narrative**

03/15/2017

MARCH 15, 2017 DEAR COMMISSIONERS: WE RESPECTFULLY URGE THE COMMISSIONERS TO APPROVE KANSAS CITY POWER LIGHTS KCPL PROPOSED KEEIA PORTFOLIO, ESPECIALLY ITS INCOME-ELIGIBLE MULTI-FAMILY PROGRAM. WE APPLAUD KANSAS CITY POWER LIGHT FOR PROPOSING KANSAS FIRST SET OF KEEIA PROGRAMS UNDER THE NEW LAW. DOMINIUM IS ONE OF THE NATIONS LARGEST AND MOST INNOVATIVE AFFORDABLE HOUSING DEVELOPMENT AND MANAGEMENT COMPANIES. WE OWN 3 PROPERTIES IN KANSAS AND 12 PROPERTIES IN MISSOURI. WHILE OUR KANSAS PROPERTIES ARE NOT SERVED BY KCPL, WE ARE WATCHING THIS CASE CLOSELY AS WE EXPECT IT TO SET A PRECEDENT FOR OTHER KANSAS UTILITIES DECISIONS TO PROMOTE ENERGY SAVINGS ACROSS THE STATE. ENERGY EFFICIENCY IS AN ESSENTIAL COMPONENT OF SMART DECISION-MAKING FOR OUR BUSINESS. DOMINIUM INVESTS IN ENERGY EFFICIENCY ACROSS OUR PROPERTIES, BECAUSE IT LOWERS UTILITY COSTS FOR OUR LOW-INCOME RESIDENTS AND ALLOWS US TO REDUCE OUR OPERATING EXPENSES AND KEEP RENTS AFFORDABLE. WHERE DOMINIUM HAS ACCESS TO UTILITY ENERGY EFFICIENCY PROGRAMS, WE ARE ABLE TO PURSUE DEEPER, MORE MEANINGFUL ENERGY SAVINGS OPPORTUNITIES THAN WE OTHERWISE WOULD BE ABLE TO. IN ADDITION, OUR ENERGY INVESTMENTS SUPPORT LOCAL CONSTRUCTION AND EQUIPMENT INSTALLATION JOBS IN THE LOW-INCOME COMMUNITIES WE OPERATE IN. AS ENERGY EFFICIENCY PROGRAMS SPREAD ACROSS THE STATE OF KANSAS, WE HOPE TO ENROLL OUR PROPERTIES IN THESE PROGRAMS, ESPECIALLY PROGRAMS SUCH AS KCPLS INCOME-ELIGIBLE MULTI-FAMILY PROGRAM THAT TAKE A HOLISTIC APPROACH AND SERVE BOTH TENANT UNITS AND COMMON AREAS WITH A SINGLE PROGRAM. EVERY YEAR DOMINIUM SPENDS OVER 20M ON CAPITAL IMPROVEMENTS ON ITS EXISTING PROPERTIES 25,000 APARTMENT UNITS IN 23 STATES. IN ADDITION, WE ARE CURRENTLY WORKING ON MAJOR REHABILITATION ON DEVELOPMENT PROJECTS TOTALING OVER 106M ON APPROXIMATELY 3,700 UNITS IN 9 STATES. TO THE EXTENT WE HAVE STRONG PARTNERSHIPS IN PLACE WITH LOCAL UTILITY COMPANIES, WE CAN STRETCH THESE RESOURCES TO DO MORE WORK THAT WILL IMPROVE THE

03/15/2017

OPERATIONAL EFFICIENCY OF MANY PROPERTIES, THUS SAVING SIGNIFICANT RESOURCES AND REDUCING OUR CARBON FOOTPRINT. THANK YOU FOR YOUR CONSIDERATION AND WE HOPE THAT THE COMMISSION WILL APPROVE KCPLS KEEIA FILING, OPENING UP THE STATE OF KANSAS FOR GREATER INVESTMENTS IN ENERGY SAVINGS FOR ITS RESIDENTS AND BUSINESSES. JEFF HUGGETT VICE PRESIDENT AND PROJECT PARTNER DEVELOPMENT ACQUISITIONS DOMINIUM

I AM A HOMEOWNER WHO VALUES SUPPORT FROM PUBLIC UTILITIES TO SAVE ON MY ELECTRIC BILL THROUGH ENERGY EFFICIENCY INVESTMENTS AROUND MY HOME. THE PROPOSED ENERGY EFFICIENCY PROGRAMS PROMOTE ENERGY CONSERVATION AND REDUCE CUSTOMERS COST. I ENJOY COST SAVINGS FROM ENERGY EFFICIENCY UPGRADES I MADE TO MY HOME. THE PROPOSED ENERGY EFFICIENCY PROGRAMS THROUGH THE PUBLIC UTILITIES WILL MAKE ENERGY SAVINGS POSSIBLE FOR A VARIETY OF PEOPLE SO THEY TOO CAN ENJOY ENERGY COST SAVINGS. I AM A MEMBER OF A LOW-INCOME FAMILY THAT FUNCTIONS ON A LIMITED BUDGET. THE HOME I LIVE IN IS IN NEED OF ENERGY EFFICIENCY UPGRADES BUT MY BUDGET DOES NOT ALLOW FOR THE UPGRADES. THE PROPOSED ENERGY EFFICIENCY PROGRAMS WILL MAKE IT POSSIBLE FOR ME TO MAKE THE IMPROVEMENTS AND BE ABLE TO SAVE ON MY MONTHLY BILLS. I AM A RENTER AND AM PLEASED TO SEE THE PROGRAMS ARE ACCESSIBLE TO ME AS WELL. THE PROPOSED ENERGY EFFICIENCY PROGRAMS PROMOTE ENERGY CONSERVATION AND REDUCES COSTS FOR TENANTS. ENERGY EFFICIENCY IS ONE OF THE CLEANEST AND LEAST-EXPENSIVE ENERGY IMPROVEMENTS AVAILABLE IN AMERICA TODAY AND ITS ACCESSIBLE TO EVERYONE WHO USES ENERGY. IMPROVEMENTS IN ENERGY EFFICIENCY NOT ONLY REDUCE THE DEMAND FOR ENERGY BUT ALSO CREATE JOBS AND SAVE ENERGY-USERS MONEY. I AM A WESTAR CUSTOMER. I SUPPORT THIS DOCKET BECAUSE PROGRAMS MAY BECOME AVAILABLE TO WESTAR CUSTOMERS IF AND WHEN THE KCPL AND WESTAR MERGER TAKES PLACE. **Re: Kansas City Power & Light Energy -Docket 16-KCPE446-TAR**

Miller-Valentine Group recently learned that the Commission is considering an application by Kansas City Power & Light to carry out energy efficiency programs in its Kansas service area, and that it is the first utility to do so under the KEEIA energy efficiency law. We support the proposed portfolio and its inclusion of an Income-Eligible Multi-Family program and ask that the Commission approve the utility's application.

Miller-Valentine Group provides real estate solutions for both commercial and multifamily markets throughout the Midwest and Southeast. We incorporate cost-effective energy efficiency into our properties whenever possible, such as in our 40-unit property, Galena Estates in Galena, Kansas. Galena Estates is an affordable multi-family housing development that was financed through Tax Credits and was completed in 2016. This property offers residents a pet friendly community comprised of two and three bedroom garden style apartment homes. Galena Estates provides residents with access to a clubhouse with a fitness center, media room, business center and a spacious community area. However, in constructing this building there were several energy features that we had to value-engineer out of the property, including super-high-efficiency HVAC, energy star lighting, and extreme insulation. We simply weren't able to include these features without incentives.

As you can see, utility programs are essential to enabling us to maintain high energy standards in our properties. It is our hope that, by the time we are contemplating upgrades to this property in 7-10 years, there will be well-established energy efficiency programs across Kansas, including in Galena, where our electric utility is Empire District. Without such programs, there will continue to be energy cost savings opportunities that we have to pass on, to the detriment of our tenants and our operation and maintenance budgets.

We hope that Kansas City Power & Light's leadership on energy efficiency will set an example for other Kansas utilities to follow. We are pleased to see that Kansas City Power & Light is prioritizing investments in low-income multi-family housing. We ask the Commission to approve the proposed programs.

Respectfully,

A handwritten signature in black ink, appearing to read "B. McGeady".

Brian McGeady  
President, MV Affordable Housing Development

METROPLAINS IS WRITING IN SUPPORT OF THE ENERGY EFFICIENCY PROGRAM THAT KANSAS CITY POWER LIGHT IS PROPOSING. IF THE COMMISSIONERS APPROVE THE UTILITY COMPANY'S APPLICATION IT WOULD GREATLY BENEFIT THE INCOME ELIGIBLE MULTI-FAMILY PROGRAM. THE MANY ENERGY EFFICIENCY OPPORTUNITIES WOULD BE BENEFICIAL IN ENERGY SAVINGS, COST SAVINGS AND OVERALL RESIDENT SATISFACTION. METROPLAINS HAS TWO PROPERTIES IN KANSAS. THERE ARE 24 RESIDENTIAL HOUSING UNITS IN OUR BUILDING IN NEWTON, KANSAS AND 115 RESIDENTIAL HOUSING UNITS IN OUR BUILDING IN WICHITA, KANSAS. WESTAR ENERGY PROVIDES SERVICE TO OUR BUILDINGS AND WHILE WE ARE NOT A CUSTOMER OF KANSAS CITY POWER LIGHT WE HOPE THAT BY ADOPTING THE PROGRAM KCPL IS PROPOSING A PRECEDENT WILL BE SET FOR OTHER UTILITY COMPANIES. WE ASK THE COMMISSION TO APPROVE THE PROPOSED PROGRAM. SINCERELY, CRAIG STENSON ASSET MANAGER GLS PROPERTIES, LLC

THE APPLICATION IS AN AFFRONT TO THE CONSUMER AND SHOULD BE DENIED. FOR A COMPANY TO SEEK REIMBURSEMENT FOR PROGRAMS DESIGNED TO REDUCE DEMAND FOR THE VERY PRODUCT THEY PRODUCE IS ASININE. IN ADDITION, WHEN THOSE PROGRAMS SUCCEED AND CUSTOMERS INSTALL THEIR OWN POWER GENERATING EQUIPMENT, KCPL WANTS TO BE REIMBURSED FOR THE LOSS OF REVENUE IS BLATANTLY BRAZEN. ENOUGH IS ENOUGH!

I STRONGLY SUPPORT KANSAS CITY POWER LIGHT'S PROPOSED KANSAS ENERGY EFFICIENCY INVESTMENT ACT KEEIA . POWER COMPANIES WHO PROMOTE ENERGY EFFICIENCY AND CONSERVATION PROGRAMS RISK A DECLINE IN THEIR REVENUE BECAUSE OF IT. KEEIA PROGRAMS WILL PROVIDE ENVIRONMENTAL, HEALTH, AND ECONOMIC BENEFITS FOR CONSUMERS AND THE STATE WHILE PROTECTING POWER COMPANIES FROM LOST REVENUE. THE PLAN WILL REDUCE THE NEED FOR NEW POWER PLANTS, REDUCE MERCURY AND HEAVY METAL EMISSIONS, REDUCE CARBON EMISSIONS, AND REDUCE PARTICULATE EMISSIONS - WHICH AGGRAVATE RESPIRATORY PROBLEMS AND LEAD TO APPROXIMATELY 1500 DEATHS PER YEAR. IT SAVES MONEY FOR THE POWER PLANTS AND THE CONSUMER BY REDUCING THE AMOUNT OF FOSSIL FUEL POWER THE UTILITIES NEED TO GENERATE OR PURCHASE. KEEIA ENCOURAGES POWER COMPANIES TO PROMOTE ENERGY EFFICIENCY AND ALLOWS THEM TO RECOVER PROGRAM COSTS AND EARN A SHARE OF THE NET BENEFITS OF PROMOTING ENERGY EFFICIENCY AND CONSERVATION.

TO THE KANSAS CORPORATION COMMISSION COMMISSIONERS, ENERGY EFFICIENCY IS THE CHEAPEST, CLEANEST, FASTEST SOURCE OF ENERGY! AS A KANSAS KCPL CUSTOMER, I ENCOURAGE YOU TO SUPPORT KCPLS PROPOSED ENERGY EFFICIENCY PROGRAMS FOR ITS RESIDENTIAL AND BUSINESS CUSTOMERS IN KANSAS DOCKET NO. 16-KCPE-446-TAR. THE PROPOSED PROGRAMS ARE SIMILAR TO THE ONES THAT HAVE ALREADY BEEN IMPLEMENTED IN MISSOURI. IN FACT, KCPLS 3-YEAR ENERGY EFFICIENCY PROGRAMS IN MISSOURI HAVE BEEN SO SUCCESSFUL THAT THEY HAVE BEEN RENEWED FOR ANOTHER 3 YEARS! THESE PROGRAMS HAVE SAVE CUSTOMERS MONEY AND ALSO REDUCE EMISSIONS THAT CONTRIBUTE TO HEALTH PROBLEMS AND CLIMATE CHANGE. THESE EMISSIONS INCLUDE CARBON DIOXIDE, NITROGEN OXIDES, SULFUR OXIDES, METHYL MERCURY, PARTICULATE MATTER, FLY ASH, AND RADIOACTIVE TRACE ELEMENTS. PLEASE SUPPORT KCPLS REQUEST DOCKET NO. 16-KCPE-446-TAR. I ASK THAT MY COMMENTS BE INCLUDED IN THE PUBLIC RECORD.

I AM A HOMEOWNER WHO VALUES SUPPORT FROM PUBLIC UTILITIES TO SAVE ON MY ELECTRIC BILL THROUGH ENERGY EFFICIENCY INVESTMENTS AROUND MY HOME. THE PROPOSED ENERGY EFFICIENCY PROGRAMS PROMOTE ENERGY CONSERVATION AND REDUCE CUSTOMERS COST. I ENJOY COST SAVINGS FROM ENERGY EFFICIENCY UPGRADES I MADE TO MY HOME. THE PROPOSED ENERGY EFFICIENCY PROGRAMS THROUGH THE PUBLIC UTILITIES WILL MAKE ENERGY SAVINGS POSSIBLE FOR A VARIETY OF PEOPLE SO THEY TOO CAN ENJOY ENERGY COST SAVINGS. ENERGY EFFICIENCY IS ONE OF THE CLEANEST AND LEAST-EXPENSIVE ENERGY IMPROVEMENTS AVAILABLE IN AMERICA TODAY AND ITS ACCESSIBLE TO EVERYONE WHO USES ENERGY. IMPROVEMENTS IN ENERGY EFFICIENCY NOT ONLY REDUCE THE DEMAND FOR ENERGY BUT ALSO CREATE JOBS AND SAVE ENERGY-USERS MONEY.I URGE THE KCC TO APPROVE THE PROPOSED PROGRAMS THAT WILL HELP PUT US ON TRACK FOR SAVING ENERGY AND COSTS, AND ALLOW OUR ECONOMY TO BENEFIT FROM THE ADDITIONAL JOBS THAT WILL BE CREATED AS A PART OF THIS PROPOSAL. ITS TIME KANSAS JOIN OTHER STATES WHO ARE MAKING ENERGY EFFICIENCY A PRIORITY. ENERGY EFFICIENCY IS THE LEAST EXPENSIVE WAY WE CAN REDUCE GREENHOUSE GAS EMISSIONS, AND IT SAVES CUSTOMERS MONEY.

KNOWING THAT KCPL WILL MERGE WITH WESTAR ENERGY IN LAWRENCE, I CANNOT HELP BUT PAY ATTENTION TO KCPL'S ENERGY EFFICIENCY PROGRAMS. HAVING SEEN A SIMILAR PROGRAM WORK WELL IN MISSOURI, I SEE NO REASON WHY KCPL SHOULD NOT MOVE FORWARD WITH THIS PROJECT, ESPECIALLY WITH THE NEED TO TRANSITION AWAY FROM FOSSIL FUELS AND DIVERSIFY OUR ENERGY PORTFOLIO. REDUCING PEAK DEMAND WILL ALSO MAINTAIN LOW PRICES FOR CUSTOMERS, WHICH IS ALWAYS A CONSIDERATION IN UNDERTAKINGS SUCH AS THIS ONE.

THERE IS NO FINANCIALLY RATIONAL REASON TO INSERT A 'MIDDLEMAN' KCPL TO SIPHON OFF MONEY FOR EFFICIENCY EFFORTS. THE PRIVATE SECTOR CAN PROVIDE IMPROVEMENTS DIRECTLY TO CONSUMERS AT A MUCH LOWER COST. FORCING RATEPAYERS TO FUND KCPL PROFITING FROM EFFICIENCY IMPROVEMENTS IS GROSSLY UNFAIR. FURTHER, UNDER NO CIRCUMSTANCES SHOULD KCPL RECEIVE ANY COMPENSATION FOR CUSTOMERS USING LESS ENERGY. AS A SMALL BUSINESS OWNER THAT MUST COMPETE, I RESENT KCPL HAVING A GUARANTEED PROFIT.

I STRONGLY SUPPORT KANSAS CITY POWER LIGHT'S PROPOSED KANSAS ENERGY EFFICIENCY INVESTMENT ACT KEEIA . THROUGH CONSERVATION AND ENERGY EFFICIENCY THIS PLAN REDUCES THE NEED FOR NEW POWER PLANTS. IT WILL REDUCE MERCURY AND HEAVY METAL EMISSIONS, REDUCE CARBON EMISSIONS, AND PARTICULATE EMISSIONS - ALL THESE AGGRAVATE RESPIRATORY PROBLEMS ESPECIALLY IN CHILDREN AND THE ELDERLY AN ADDED BENEFIT OF REDUCING THE NEED FOR FOSSIL FUEL FIRED POWER PLANTS IS THE AVOIDANCE OF POTENTIAL ABANDONED ASSIST IN THE FUTURE WHEN LEGISLATORS MAY FORCE THE CLOSING OF SUCH PLANTS TO HALT GREEN HOUSE GAS EMISSIONS. AS A WESTAR CUSTOMER THE PENDING MERGER BETWEEN KCPL AND WESTAR WILL SOON IMPACT ME DIRECTLY. BY PROMOTING ENERGY EFFICIENCY AND CONSERVATION CONSUMERS AND KCPL WILL SAVE MONEY AND TAKE A STEP TOWARDS PRESERVING A LIVABLE CLIMATE.

APRIL 11, 2017 KANSAS CORPORATION COMMISSION PUBLIC AFFAIRS CONSUMER PROTECTION 1500 SW ARROWHEAD ROAD TOPEKA, KS 66604-4027 RE: DOCKET NO. 16-KCPE-446-TAR DEAR COMMISSIONERS: ON BEHALF OF THE GOVERNMENT OF JOHNSON COUNTY, KANSAS, I AM WRITING TO EXPRESS SUPPORT FOR ENERGY EFFICIENCY PROGRAMS THAT HAVE BEEN PROPOSED BY KANSAS CITY POWER AND LIGHT VIA DOCKET NO. 16-KCPE-446-TAR. PER THE 2017 STATE LEGISLATIVE PLATFORM THAT WAS APPROVED BY THE JOHNSON COUNTY BOARD OF COUNTY COMMISSIONERS ON NOVEMBER 17, 2016, JOHNSON COUNTY SUPPORTS STATE EFFORTS TO 1 DEVELOP AND IMPLEMENT COST-EFFECTIVE, SCIENTIFICALLY-BASED ENERGY AND ENVIRONMENTAL PLANS, INCLUDING PLANS TO ADDRESS GREENHOUSE GAS EMISSIONS, 2 STIMULATE INVESTMENT IN ENERGY CONSERVATION AND ALTERNATIVE ENERGY TECHNOLOGY 3 CONSIDER ECONOMIC, SOCIAL AND NATURAL RESOURCE IMPACTS WHEN MAKING DECISIONS, AND 4 PROVIDE LOCAL GOVERNMENTS FLEXIBILITY AND RESOURCES TO MEET THE COMMUNITY'S ENERGY AND ENVIRONMENTAL GOALS. DOCKET NO. 16-KCPE-446-TAR ALIGNS DIRECTLY WITH THE FOUR OBJECTIVES LISTED ABOVE. ENERGY EFFICIENCY IS ONE OF THE CLEANEST AND LEAST-EXPENSIVE ENERGY IMPROVEMENTS AVAILABLE TODAY AND IS ACCESSIBLE TO EVERYONE WHO USES ENERGY. IMPROVEMENTS IN ENERGY EFFICIENCY WOULD NOT ONLY REDUCE THE DEMAND FOR ENERGY BUT WOULD SAVE RESIDENTS MONEY AND ALLOW THE COUNTY'S ECONOMY TO BENEFIT FROM NEW JOBS THAT WOULD BE CREATED IN THE EFFICIENCY SECTOR. I URGE THE KANSAS CORPORATION COMMISSION TO APPROVE KCPLS PROPOSED PROGRAMS THAT WOULD HELP PUT THE STATE'S AND OUR COUNTY'S ECONOMY ON THE RIGHT TRACK. SINCERELY, JAMES JOERKE, DEPUTY DIRECTOR JOHNSON COUNTY DEPARTMENT OF HEALTH AND ENVIRONMENT

WE ARE AN ALL-ELECTRIC RURAL CUSTOMER AND HAVE SEEN OUR ELECTRIC BILLS APPROACH OUR HOUSE OAYMENT SINCE LIVING HERE 24 YEARS. WE WOULD LIKE TO RETIRE HERE AND ARE SERIOUSLY CONSIDERING SOLAR WHILE WE MAKE SIGNIFICANT EFFICIENCY CHANGES THROUGHOUT THE HOUSEHOLD. BASED ON THE CURRENT ANNUAL RATE INCREASES AND CURRENT AVERAGE USAGE, WE CAN LOOK FORWARD TO OUR ELECTRIC BILL APPROACHING 1400 IN PEAK WINTER MONTHS WHEN WE RETIRE IN 20 YEARS. SO WE ARE WORKING VERY HARD TO MAKE EFFICIENCY CHANGES SO THAT WE CAN REMAIN IN OUR HOME WHERE WE RAISED OUR CHILDREN AND WOULD LIKE TO ENTERTAIN OUR GRANDKIDS. MISSOURI UNFAIRLY RECEIVES MUCH MORE ASSISTANCE FROM KCPL THAN KANSANS. KANSANS DESERVE EQUAL TREATMENT. WE ARE ENVIRONMENTALLY CONSCIOUS AND WOULD LIKE TO SEE KCPL WORK TOWARD FURTHER REDUCING COAL CONSUMPTION.

KCPL IS TO BE CREDITED FOR ITS COMMITMENT TO ENERGY EFFICIENCY AND REDUCING DEMAND. THIS IS A COMMON-SENSE APPROACH THAT ALLOWS THE UTILITY TO SUPPORT THE GREATER PUBLIC INTEREST IN JOINING CUSTOMERS IN MISSOURI WHO ARE ALREADY SERVED BY THIS EXCELLENT PROGRAM. ENERGY EFFICIENCY IS THE LEAST EXPENSIVE WAY WE CAN REDUCE GREENHOUSE GAS EMISSIONS, REDUCING ILLNESS DUE TO AIRBORNE PARTICULATES, AND, IMPORTANTLY, SAVING CUSTOMERS MONEY ON THEIR ENERGY BILLS. KANSAS IS FAR BEHIND ITS COUNTERPARTS IN OTHER STATES, AND THIS SETS ALL OF US BACK.

Kansas Corporation Commission Office of Public Affairs and Consumer Protection  
1500 SW Arrowhead Road  
Topeka, KS 66604

Dear Commissioners:

We appreciate the opportunity to be an intervenor on Docket No. 16-KCPE-446-TAR. As an intervenor, the Climate + Energy Project organized roundtables to discuss the docket, answer questions, and gather feedback from Kansans. We also shared information about the docket at events we attended and presentations we gave. During our outreach efforts we fielded questions about the specifics of the energy efficiency programs, their timeline, and their cost to the customer.

We held nine roundtables held in 2016 and 2017, with a total of approximately 150 people who attended. In addition, approximately 1,490 people received in person information from us about the docket through events and presentations across the state.

Among the comments from roundtables, events, and other presentations we heard a great deal of support for the energy efficiency programs proposed for Kansas by KCP&L. Many Kansans expressed concern about the amount of emissions created by current energy needs and see the proposed energy efficiency programs as a great way for Kansans to make their homes more efficient, save them money, and safeguard their health. Some mentioned in their comments an understanding that the energy world has changed and that energy companies must sell energy efficiency services alongside energy. They see that energy efficiency programs through public utilities makes the world cleaner, healthier, combats climate change, and supports the utilities' essential service: the grid wires that connect us and enable a comfortable lifestyle.

Several Kansans mentioned that energy efficiency is the lowest cost resource and the best way to start down the right path toward a cleaner more cost effective future in energy. Several stated that it is time for Kansas to join other states (including Missouri) in making energy efficiency programs available through the public.

Others mentioned in their comments that they have had made energy efficiency upgrades in their own home and would like to see the same opportunity become available to Kansans who haven't been able to afford the upgrades. An energy specialist for an electrical distributor mentioned that she has witnessed how efficiency programs reduce demand in other states and notes how energy efficiency programs benefit everyone, from the individual homeowner to the investor owned utility. She states that these programs extend the life of turbines, prevent the need for new power plant investment, save money for families and business owners, and extend the life of our grid system. She noted that efficiency programs do not require additional investment in infrastructure and is therefore the most effective means of making an immediate reduction in energy usage and expense.

In addition to individual comments, we've attached a letter from the Government of Johnson County supporting the docket and from the recently formed Clean Energy Business Council (CEBC), coordinated by the Climate + Energy Project. CEBC represents businesses engaged in the transition to the new clean energy economy.

All of these comments and more are provided in the attached pdf.

Thank you for taking all of these comments and signatures into consideration when making decisions about the 16-KCPE-446-TAR docket.

Sincerely,

Climate + Energy Project Board and Staff  
PO Box 1858  
Hutchinson, KS 67504

March 22, 2017

Honorable Chairman Pat Apple and Commissioners Albrecht and Emler,

The Clean Energy Business Council (CEBC) is a coalition of advanced energy businesses working to expand opportunities for energy efficiency and renewable energy in Kansas and the Greater Kansas City Metro area.

We the founding members of the CEBC representing the energy efficiency industry write to express our support for the portfolio of energy efficiency programs proposed by Kansas City Power & Light (KCP&L) before the Kansas Corporation Commission (KCC) in Docket No.: 16-KCPE-446-TAR, pursuant to the Kansas Energy Efficiency Investment Act (KEEIA).

The CEBC applauds the work of KCP&L in the KEEIA docket thus far. As evidenced by the comprehensive testimony collected by the Commission, KCP&L's proposed energy efficiency programs are cost-effective and market-tested in the utility's Missouri jurisdiction. With the Commission's approval, these programs will bring a range of economic, environmental, and societal benefits to the state of Kansas. We urge the KCC to act decisively to approve these programs to achieve the following objectives:

**1.) Deliver the job-creating economic benefits of energy efficiency.** According to a 2017 economic analysis conducted by Cadmus and the Midwest Energy Efficiency Alliance, energy efficiency created more than 18,600 new jobs, nearly \$1.2 billion in increased regional income, over \$1.8 billion in total net economic value, and more than \$3.3 billion in net sales across the 13-state Midwest region—in 2014 alone.<sup>1</sup> However, due to lack of energy efficiency investment, Kansas enjoyed only a fraction of these economic benefits. Approving KCP&L's KEEIA plan will create energy efficiency jobs that cannot be transferred overseas and generate direct economic benefits for homeowners and businesses in Kansas.

**2.) Ensure that Kansas remains competitive with neighboring states.** Over the past decade, neighboring states like Missouri to the east and Colorado to the west have embraced utility-led energy efficiency programs while Kansas has fallen behind. Last year, Kansas placed 48th in a ranking of the 50 states and the District of Columbia on the American Council for an Energy-Efficient Economy's *2016 State Energy Efficiency Scorecard*.<sup>2</sup> By contrast, Missouri was the most improved state on the 2016 scorecard, rising 12 positions from its 2015 ranking. By approving KCP&L's KEEIA programs, there is a clear opportunity to improve Kansas's energy efficiency performance and regional competitiveness.

**3.) Meet Governor Brownback's advanced energy goals.** Governor Brownback has often remarked on the "amazing growth of wind energy" in Kansas and has said he hopes Kansas to get

---

<sup>1</sup> Cadmus. *The Economic Impacts of Energy Efficiency Investments in the Midwest*. Jan 4, 2017. Accessed at: <http://www.mwalliance.org/policy-publications/economic-impacts-energy-efficiency-investments-midwest>

<sup>2</sup> 2016 State Energy Efficiency Scorecard. ACEEE. Sept 26, 2016. Accessed at: <http://aceee.org/research-report/u1606>

50 percent of its energy from wind by the time he leaves office.<sup>3</sup> As overall energy consumption decreases through the deployment of energy efficiency programs, and the proportion of overall energy generated by wind increases, energy efficiency and wind power providers—like the members of CEBC—can work hand-in-hand to achieve the Governor’s goal.

In 2006, wind power was an underutilized resource in Kansas, with just 364 megawatts of installed capacity. Ten years later, wind capacity eclipsed 4,450 megawatts.<sup>4</sup> Today, Kansas’s underutilized energy resource is energy efficiency. Yet like wind power before, it has the potential to see significant growth in the coming years and make powerful contributions to Kansas’s energy economy. A 2008 statewide potential study estimated that energy efficiency could reduce peak demand by more than 1900 megawatts by 2021 under then-current incentives. At twice the incentive levels, the study estimated efficiency could offset nearly 3250 megawatts of peak demand over the same period.<sup>5</sup>

Energy efficiency technologies and program implementation methods like those supported by our companies can help deliver these benefits to homeowners and businesses in Kansas. We the founding members of the CEBC therefore urge the Commission’s swift action to approve KCP&L’s KEEIA portfolio for the benefit of all Kansas ratepayers.

Sincerely,

Brian Bowen

April 11, 2017

Kansas Corporation Commission  
Public Affairs & Consumer Protection  
1500 SW Arrowhead Road  
Topeka, KS 66604-4027

RE: Docket No. 16-KCPE-446-TAR

Dear Commissioners:

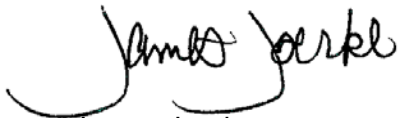

On behalf of the Government of Johnson County, Kansas, I am writing to express support for energy efficiency programs that have been proposed by Kansas City Power and Light via Docket No. 16-KCPE-446-TAR.

Per the 2017 State Legislative Platform that was approved by the Johnson County Board of County Commissioners on November 17, 2016, Johnson County supports state efforts to (1) develop and implement cost-effective, scientifically-based energy and environmental plans, including plans to address greenhouse gas emissions, (2) stimulate investment in energy conservation and alternative energy technology (3) consider economic, social and natural resource impacts when making decisions, and (4) provide local governments flexibility and resources to meet the community's energy and environmental goals.

Docket No. 16-KCPE-446-TAR aligns directly with the four objectives listed above. Energy efficiency is one of the cleanest and least-expensive energy improvements available today and is accessible to everyone who uses energy. Improvements in energy efficiency would not only reduce the demand for energy but would save residents money and allow the county's economy to benefit from new jobs that would be created in the efficiency sector.

I urge the Kansas Corporation Commission to approve KCPL's proposed programs that would help put the State's and our County's economy on the right track.

Sincerely,

James Joerke  
Deputy Director

9/12-2012

Dear Commissioner,

My name is David VANCE I am writing to you with my support for the proposed energy efficiency programs by KCPL, DOCKET No. 16-KCPE-446-TAR.

Energy efficiency is the least expensive and cleanest method to improve America's energy needs.

I am a homeowner, a voter and a parent.

I urge the Kansas Corporation Commission to approve the proposed program that will help put us on the right track to saving our environment.

Sincerely,

David Vance

RE: Docket No. 16-KCPE-446-TAR

Dear Members of the Kansas Corporation Commission:

I am writing in support of KCPL's filing to provide energy efficiency rebates and programs to Kansan individuals and businesses under the Kansas Energy Efficiency Investment Act. I have personally used Federal tax incentives in my own home through the years to replace windows and doors, add insulation, and upgrade to energy-efficient appliances and HVAC systems. I have been rewarded for years with lower utility bills per SF than any of my neighbors. The cheapest energy is the energy not used!

I am also the CEO of the largest retirement community in Kansas with more than 1,000,000 SF of living and program space under roof. We have made numerous investments to improve our energy efficiency throughout our campus, but would consider investing far more capital if KCPL rebates or programs helped to offset our costs and improve our return on investment.

Please help Kansas businesses and individuals reduce our energy consumption by supporting KCPL's filing, thus enabling them to provide us similar programs to our neighbors in Missouri. Such programs stimulate the economy through job creation; reduce pollution and lower healthcare costs; improve our cherished environment; and enhance our communities.

Please include my comments in the official record.

Sincerely,

Jamie Frazier, CEO

9100 Park St., Lenexa, KS 66215

Subject: Submission to KCC on KCP&L Proposal

To: [Jamie.CEP@gmail.com](mailto:Jamie.CEP@gmail.com)

Dear Commissioners:

My name is Felix Revello

I support the energy efficiency programs being proposed by KCP&L, Docket No. 16-KCPE-446-TAR. Conserving energy is one of the cleanest and least-expensive energy improvements available for all Americans. Improvements in energy efficiency not only reduce the demand for energy but also create local jobs and save energy-users money that can be used in other sectors of our economy. And, I should add that energy efficiency makes a healthier environment for citizens by reducing pollution from energy production, which is especially important for the health of our children.

Again, I urge the Kansas Corporation Commission to approve the proposed programs that will help put us on the right track to saving energy and costs, enable our economy to benefit from the additional jobs that will be created as a part of this proposal and promote public health.

Thank you for inviting citizens to participate in the decision-making process!

Subject: Re: Energy Efficiency Roundtable Followup  
To: Jamie Hofling <jamie.cep@gmail.com>

I wish to be on public record supporting KCP&L's energy savings plan. The concept of all users helping to save energy for the entire area is a great plan. People who can't afford upgrades to their homes will get help and save energy.

Subject: comments sent re KEEIA docket  
To: "jamie.cep@gmail.com" <jamie.cep@gmail.com>

I strongly support Kansas City Power & Light's proposed Kansas Energy Efficiency Investment Act (KEEIA) . Through conservation and energy efficiency this plan reduces the need for new power plants. It will reduce mercury and heavy metal emissions, reduce carbon emissions, and particulate emissions - all these aggravate respiratory problems especially in children and the

elderly An added benefit of reducing the need for fossil fuel fired power plants is the avoidance of potential abandoned assist in the future when legislators may force the closing of such plants to halt green house gas emissions. As a Westar customer, the pending merger between KCPL and Westar will soon impact me directly. By promoting energy efficiency and conservation consumers and KCPL will save money and take a step towards preserving a livable climate.

Dear Commissioners:

My name is Nicole Barton-McGee, I am a human services manager for Phoenix Family. Phoenix Family is an organization that empowers people living in low-income housing communities with on-site support they need to gain stability and achieve self-sufficiency.

I am writing to show my support for the energy efficiency programs being proposed by KCP&L, Docket No. 16-KCPE-446-TAR. Energy efficiency is one of the cleanest and least-expensive energy improvements available in America today and it's accessible to everyone who uses energy. We, at Phoenix Family are especially in support of the proposed energy efficiency investments due to the fact the programs should prevent KCP&L from needing to build new generation in the near term which will help keep the costs lower for municipal utilities like Gardner where one of our Phoenix Family properties resides.

I urge the Kansas Corporation Commission to approve the proposed programs that will help put us on the right track to saving energy and costs.

Thank you,

**Nicole Barton-McGee, MSW**

Dear Commissioners:

Johnson County Community College is a regional leader in promoting sustainability, not only among its peer institutions but in the local community. JCCC has sought out ways to incorporate sustainable practices into the college's dining services and facilities, its use of water resources, waste minimization and recycling, and have incorporated sustainability into our curriculum. We also recognize that reducing energy usage brings tangible relief to the college's bottom line and

assists the college in being good stewards of tax dollars. Incentives to assist us in further reducing our energy use would be welcome.

As a community college that encourages sustainability and thereby clean energy solutions we are writing this letter to show our support for the energy efficiency programs being proposed by KCP&L, Docket No. 16-KCPE-446-TAR.

Energy efficiency will not only complement our efforts, but it is the cleanest and least-expensive energy solution immediately available to us. Having access to KCP&L's new efficiency programs will help us reduce our electricity bills, allowing us access to the same sort of opportunities Missouri customers have. Another important factor for us as a regional leader is for the programs to be accessible to a variety of people, including our faculty and students. The energy efficiency programs being proposed by KCP&L are customized to be accessible not only by homeowners but renters, businesses, and low income individuals alike.

We urge the Kansas Corporation Commission to approve the proposed programs that will help us continue to save energy, reduce costs, and allow our economy to benefit from the additional jobs that will be created as a part of this proposal.

Your constituents appreciate being included in the decision-making process!

FIRST        John Nicholas  
AND LAST  
NAME:

EMAIL:       JohnTheEnergyGuy@iCloud.com

MESSAGE Comment on KCP&L Demand Side Hearing:

:

I am not a customer of KCP&L. I am a citizen of Kansas. The lowest cost kilowatt of electricity is the the one that is not used. Allowing a Utility to assist their customers to upgrade equipment and buildings to avoid using more is a good thing for everyone.

Using the Efficiency Kansas program I use less energy then before I implemented my auditors recommendations. The prior 3 year average KWH used actual was 35,962. The post 3 year average KWH used actual was 21,952.

That is a 39% decrease in usage. It should be noted that I know heat my garage to protect the woodworking equipment from winter rust build up and to allow work to proceed. I also added Mechanical Ventilation to my home making the indoor air cleaner and improving the health of my home. Additionally, the home is more comfortable, with less temperature swings.

Allowing private companies, to enable their customers to decrease the amount of product purchased and improve their living conditions, save some money and obtain other benefits is a Great Free Enterprise approach to governing. The money spent will create jobs. The savings will allow other spending that creates or sustains jobs, or investment into companies that will create or sustain jobs.

This decision will allow Kansas to move into competition with surrounding states. Missouri, Oklahoma, Colorado and Nebraska all value and spend tax dollars to promote energy efficiency. Kansas does not. This program will not use tax dollars. It is a private enterprise approach to the problem.

---

Dear members of the Kansas Corporation Commission,

We write to request that you help us catch up with the most competitive states in the union on energy efficiency.

While Kansas does not have mandates for energy efficiency, under the Kansas Energy Efficiency Investment Act (KEEIA), KCC is required to permit electric and natural gas public utilities to implement Commission-approved programs and cost recovery mechanisms to reduce the consumption of electricity or natural gas by retail customers. We support these goals.

At KCP&L's request you recently you opened the docket (Reference Docket No 16-KCPE-446-TAR) to help consider KCP&L's 9 residential and business energy-efficiency programs. We support positive action on this request. While we do not take a position on the specific proposed cost-recovery mechanisms, we strongly support the proposed customer programs.

The proposed programs are accessible by all KCP&L customers - both commercial and residential, and all income levels

In addition, the programs will become available to Westar customers if and when the KCP&L and Westar merger takes place, impacting a wider number of Kansans.

We suggest that the KCC order should provide for steps to compare the data after enough time has passed after implementation to see which of the programs worked, where they worked and how.

Energy efficiency is the least expensive way we can reduce greenhouse gas emissions, and it saves customers money.

Much of this work will involve local skilled workers installing measures that are sourced globally. These investments typically use a higher proportion of local labor and generate more jobs per unit of energy delivered than investments in fossil fuel-based electricity production, transmission, and distribution (reference: ). As such, this program will benefit Kansans in ways that go beyond their roles as energy customers and as beneficiaries of ecological mitigation

- ☒ I am a homeowner who values support from public utilities to save on my electric bill through energy efficiency investments around my home. The proposed energy efficiency programs promote energy conservation and reduce customer's cost.
- ☒ I enjoy cost savings from energy efficiency upgrades I made to my home. The proposed energy efficiency programs through the public utilities will make energy savings possible for a variety of people so they too can enjoy energy cost savings.
- ☐ I am a member of a low-income family that functions on a limited budget. The home I live in is in need of energy efficiency upgrades but my budget does not allow for the upgrades. The proposed energy efficiency programs will make it possible for me to make the improvements and be able to save on my monthly bills.
- ☐ I am a renter and am pleased to see the programs are accessible to me as well. The proposed energy efficiency programs promote energy conservation and reduces costs for tenants.
- ☒ Energy efficiency is one of the cleanest and least-expensive energy improvements available in America today and it's accessible to everyone who uses energy. Improvements in energy efficiency not only reduce the demand for energy but also create jobs and save energy-users money.
- ☐ I am a Westar customer. I support this docket because programs may become available to Westar customers if and when the KCP&L and Westar merger takes place.
- ☒ I urge the KCC to approve the proposed programs that will help put us on track for saving energy and costs, and allow our economy to benefit from the additional jobs that will be created as a part of this proposal.
- ☒ It's time Kansas join other states who are making energy efficiency a priority.
- ☒ Energy efficiency is the least expensive way we can reduce greenhouse gas emissions, and it saves customers money.

- ☒ Energy efficiency is one of the cleanest and least-expensive energy improvements available in America today and it's accessible to everyone who uses energy. Improvements in energy efficiency not only reduce the demand for energy but also create jobs and save energy-users money.
- ☒ I am a Westar customer. I support this docket because programs may become available to Westar customers if and when the KCP&L and Westar merger takes place.
- ☒ I urge the KCC to approve the proposed programs that will help put us on track for saving energy and costs, and allow our economy to benefit from the additional jobs that will be created as a part of this proposal.
- ☒ It's time Kansas join other states who are making energy efficiency a priority.
- ☒ Energy efficiency is the least expensive way we can reduce greenhouse gas emissions, and it saves customers money.

It's PAST TIME TO ADDRESS climate change

Name	Address	Email	Phone	Comments:
Ruth Douglas Miller	1740 Fairview Ave, Manhattan, KS 66502	ruthdouglas@gmail.com	785-537-5066	The energy world has changed. Probably since 2009, no longer can energy companies rely on continually growing demand to cover cost of services. They need to change their vision and purpose for existence. KCPL is doing exactly what it must, and I am sure Westar and even the electric coops will follow: sell energy efficiency services alongside selling energy. This new model makes the world cleaner and healthier, combats climate change, and supports the utilities' essential service: the grid wires that connect us and enable our comfortable lifestyle. Focus must switch from selling energy to selling the "wires in the air", and energy efficiency is the very best way to start. Go for it!
Gerard Van Heot	26929 W. Shadow Circle, Olathe, KS 66061	gerard@vanhoetcpa.com	913-839-3985	I support allowing KCP&L to implement their proposed energy efficiency programs. The KCC should look favorably upon energy efficiency measures whether proposed by KCP&L or another utility in the future.
Michael Rea	20414 Crickett Ln, Lenexa KS 66220	mrea@jccc.edu	913-707-4374	I believe energy efficiency is the greatest way to reduce our carbon footprint and incentivizing residents and building owners will create the impact necessary to make this change.
Alice Bean	3904 W. 8th St	beanalice01@gmail.com	7858424117	I support energy efficiency as the lowest cost energy generation. Please develop all possible energy efficiency programs to limit the amount of electricity needed to be generated by other sources and focus on helping low income families and businesses save energy
David Nachman	12715 Woodson St, Overland Park KS 66209	dnachman@nachmanlaw.com	8162856029	I support the energy efficiency opportunities offered by KCPL. Please approve and support these measures.
Michael F. Keller	14713 Woodward Overland Park, Ks. 66223	Kellermfk@aol.com	913 375 6983	Flatly object to KCP&L receiving any compensation for any efficiency or DSM programs. Rates have significantly increased over the years with no evidence that any of the firm's actions have been favorable to the consumer. The legislature should simply provide efficiency tax rebates directly to the residents and cut out the middleman (KCP&L). This would be provided for by reducing KCP&L's return on investment which grossly exceeds investment returns in financial markets. That is, they get taxed more with the taxes paid for by a reduced profit.
Al Pugsley	9029 Rosewood Dr	apphs58@yahoo.com	913-381-1091	Energy efficiency is the best way to save energy
Ben Bradley	6810 Delmar Ln, Prairie Village, KS 66208	ben.d.bradley@gmail.com	2022814408	As a Kansan who recently returned to the state from the East Coast, I was dismayed to learn that there wasn't a robust energy efficiency program offered by KCP&L for the benefit of Kansas consumers and I was therefore heartened to learn about this proposal before the KCC. Energy efficiency programs are not only the "greenest" form of energy generation, they can save consumers (and utilities) real money. I support energy efficiency measures as a low cost and high return way to help Kansas consumers. I look forward to participating in these programs in 2017.
Jerry Rees	2016 West 92 St.	reesveenstra@aol.com	913-568-4250	Energy efficiency is the cheapest, cleanest, fastest source of energy! As a Kansas KCP&L customer, I encourage you to support KCP&L's proposed energy efficiency programs for its residential and business customers in Kansas (Docket No. 16-KCPE-446-TAR). These are similar to the ones that have already been approved in Missouri. In fact, KCP&L's 3-year energy efficiency programs in Missouri have been so successful that they are being renewed for another 3 years! Please support KCP&L's request (Docket No. 16-KCPE-446-TAR). I ask that my comments be included in the public record.
Al Pugsley	9029 Rosewood Dr Prairie Village, KS 66207	apphs58@yahoo.com	913-381-1091	I think KS deserves an energy savings plan like MO
Jamie	1108 Oregon st Lawrence ks 66045	Jkhofling@gmail.com	3169902925	Please approve docket number 16-KCPE-446-TAR to support energy efficiency in Kansas.
Sara Gregg	622 Ohio St, Lawrence, KS 66044	saramgregg@gmail.com	202-276-1024	As an energy-conscious consumer, I despair of the lack of resources in NE Kansas for reducing our reliance on fossil fuels. The coal plant in Lawrence represents a bygone age, and while our household has elected to pay an additional charge to buy only wind power, it does not improve my sense of how much remains to be done. KCP&L has an opportunity to save billions of dollars by investing in energy efficiency and renewable energy, especially with the recent push toward EV cars in KC, and I hope to see the innovative efforts made toward energy efficiency in other areas (I see both Colorado and Iowa offer home energy audits, for example) expand in both Missouri and Kansas.
Judith O'Hara	9403 S Riverton Rd, Partridge, KS 67566	simplyscarlett46@gmail.com	620-664-0558	It is imperative that Kansas utilities take steps to offer energy efficiency programs to their consumers.

Name	Address	Email	Phone	Comments:
Brad Miller	316 S. Madison	b_red@hotmail.com	6208425442	I support energy efficiency programs in Kansas. As in accordance with Kansas Energy Efficiency Investment Act (KEEIA), I reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. Please implement these improvements. Thank you for your consideration.
Benjamin Claypool	8347 Somerset Dr Prairie Village KS 66207	bpclaypool@kc.rr.com	913-991-3332	Kansas desperately needs energy efficiency programs through KCP&L, and Kansans have been wanting them for many years. It always seemed strange that we didn't have the same programs Missouri residents enjoy, and I was thrilled to see similar programs could be offered here. Energy efficiency is the lowest cost resource for energy generation and just makes sense. I strongly support this Docket and urge you to approve it. Thank you, Benjamin.
Louis Bornman	12309 W 74th Terrace	BornmanL@aol.com	9132688526	I enjoy cost savings from past energy efficiency upgrades I have made to my home. The energy efficiency program proposed by KCP&L will make energy savings possible for a variety of people, so that we all may benefit.
Erin Chacey	12809 Glenfield Rd. Leawood, KS 66209	erinchacey@gmail.com	913-909-9838	Energy efficiency is one of the cleanest and least-expensive energy improvements available today and is accessible to everyone. Improvements in energy efficiency also create jobs and save home and business owners money. Plus, as a Christian, I feel like wasting energy is the opposite of loving your neighbor and not at all in line with stewarding creation as we're called to do. We are invited to use the earth's resources for sure; but we are not invited to be careless or wasteful with them.
Melissa Cheatham	4109 W 96th St, Overland Park KS 66207	melissa.cheatham@gmail.com	202-246-0229	As a homeowner, spouse of a small business owner and parent, I write to express my support that energy efficiency investments be permitted as the lowest cost way to meet our state's energy needs. Energy efficiency saves money and reduces the burden that will be borne by my children due to dangerous pollution.
Les Blevins	1207 N 1800 Rd., Lawrence, Kansas 66049	LBlevins@sunflower.com	785-842-1943	Due to human induced global warming, energy efficiency improvements must enable distributed generation from all available sources in order to protect our Kansas citizens and businesses from cyber attacks on central power plants and the main power grid. Conversion of low carbon biomass to the various forms of energy is the low hanging distributed energy fruit that can most efficiently back up wind and solar close to load centers from small towns to large cities.
Michelle Milburn	5064 Rock Creek Ln Mission, KS 66205	mmilburn@stanion.com	913-829-8111	As an energy specialist for an electrical distributor I work with facilities to identify waste and reduce operating cost. As an industry professional I've witnessed successful efficiency programs reduce demand in other states. Energy efficiency programs benefit everyone, from the individual homeowner to the investor owned utility. These programs extend the life of turbines, prevent the need for new power plant investment, save money for families and business owners, and extend the life of our grid system. In addition, efficiency programs do not require additional investment in infrastructure. It is the most effective means of making an immediate reduction in energy usage and expense.  The healthiest energy markets minimize waste, diversify energy sources, and invest in reliability. Energy efficiency measures are most cost effective for sectors with higher energy rates like homeowners and small commercial facilities, the sectors that need relief the most. These programs would have an even greater impact on industry in rural Kansas where Rural Electric Cooperatives have a higher cost of energy due to a greater expense for providing service and supporting infrastructure. When a company can reduce its operating expense, it frees up capital to invest in growth initiatives like training, marketing and facility/equipment investment.  I fully support smart energy investments and energy efficiency programs in Kansas.
James Burbange	Garfield street	dodi1334@yahoo.com	78521804681.	I support energy efficient programs in Kansas
Darrell Craig Mays	11412 King Ln, Overland Park KS 66210	Craig_mays@hotmail.com	9134817331	I support energy efficiency programs in Kansas. In accordance with Kansas Energy Efficiency Investment Act (KEEIA), I reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. Please implement these improvements. Thank you for your consideration.

Name	Address	Email	Phone	Comments:
Ritchey Wetzel	8900 State Line Rd #412	rwetzel@bgsenergy.com	9137088268	We, as a Business and Consumer Retailer in the Grocery industry statewide-support energy efficiency programs in Kansas. In accordance with Kansas Energy Efficiency Investment Act (KEEIA), I reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. Please implement these improvements. Thank you for your consideration.
Brad VanArsdale	7915 Randall Drive, Lenexa, Ks. 66215	brad.vanarsdale@trane.com	913-206-1470	I wholeheartedly support energy efficiency programs and education for people seeking to be in the energy efficiency workforce. In accordance with Kansas Energy Efficiency Investment Act (KEEIA), I reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. The cost of doing nothing in this realm is tremendous. It is in the best interest of all Kansas to implement these necessary improvements now as waiting will only exacerbate existing issues. Thank you for considering my comments and concerns.
Brad Miller	316 S Madison, Anthony, KS	b_red@hotmail.com	6208425442	<p>In Kansas, utilities invested only .02% of utility revenues, around \$900 thousand dollars in 2014. While the US median spending on energy efficiency is 1.09%. Kansas consistently ranks in the bottom five on the American Council for an Energy Efficient Economy (ACEEE) Scorecard. States who score well on the ACEEE scorecard generally have a lower average monthly residential bill.</p> <p>I support energy efficiency programs in Kansas. Let us make our energy utilities operate with more efficacy, thereby benefiting all Kansans.</p> <p>I appreciate your due consideration of these points.</p>
CAROLYN JENSEN	7839 NALL AVE, PRAIRIE VILLAGE, KS 66208	cajpvkc@gmail.com	913-645-3279	I am a resident of Kansas. For years, employees of KCPL on the Missouri side have received energy efficiency program incentives for both heating/cooling and energy efficient appliances when considering new purchases. I could not go to Missouri and buy them. I had to be a resident of Missouri to receive those benefits. My precious State of Kansas touts that we support energy efficiency in every article in the news media. It's more than time that we walk-the-talk, and provide these same incentives to the Kansas residents. Why shouldn't Kansans be granted the same relief as Missouri residents. Please consider the fairness and equity involved and the cost of energy savings, when standing in SUPPORT of these energy efficiency programs in Kansas. We Kansans deserve those incentives, too. Thank you
Kate Van Gorden	10804 S. Carbondale St., Olathe, KS 66061	kvangorden@gmail.com	816-808-0914	As a resident of Olathe, KS I support energy efficiency programs in Kansas. In accordance with Kansas Energy Efficiency Investment Act (KEEIA), I reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. Please implement these improvements quickly because we have waited too long. Thank you.
scott bryant	24310 morning deer dr, paola, ks 66071	bryant2677@hotmail.com	9132444538	It would be nice if Kansas and kcpl would implement some good rebates for adding solar or wind to a residential service. they did it in Missouri with alot of success. I don't see the need to get rebates for light bulbs and small things like that, the prices have come down dramatically on those items.
Kevin Ross	1536 S 105th St, Kansas City, KS 66111	kröss723@gmail.com	913-219-4917	As a life-long resident of the state of Kansas and a current Kansas City resident, I can honestly say there are very few things I'm envious of that Missourians have (that Kansans do not) with the exception of the excellent energy efficiency programs offered to KCP&L customers that live only a few miles away on the other side of the state line. It is a shame (with some irony) that we pay so much for electricity due to all the wind improvements in the Western half of the state yet get little incentive or education on reducing usage. Please extend these improvements to Kansans!
Edward Dean	2020 E. Sheridan St Olathe KS 66062	edean@collgechurch.com	913-489-6212	It is important that Kansas makes positive moves to improve energy efficiency in our state. The Kansas Energy Efficiency Investment Act (KEEIA), reference Docket No. 16-KCPE-446-TAR as a method of beginning a new era for energy efficiency programs and smart energy investments in Kansas. Please implement these improvements. Thank you for your consideration.
Warren Adams-Leavitt	4401 Paseo Boulevard, Kansas City, MO 64110	warren@metroenergy.org	816-531-7283	I am writing in support of KCP&L's Energy Efficiency Docket 16-KCPE-446-TAR. Approving KCPL's requested energy efficiency programs in their Kansas service area allows Kansans to experience the same benefits as KCP&L's Missouri customers. There is an existing residential and commercial energy efficiency industry in the KC metro area, including businesses and employees that currently makes the bulk of its money in Missouri. Implementing these programs in Kansas will double the size of that industry and deepen Kansas' share of the jobs, businesses, and revenue that come from energy retrofits. Please implement these improvements. Thank you for your consideration.

Dennis Stratton	8400 Reinhardt St., Prairie	dns@strattonmechanical.c	913-787-7357	Please restore the KCPL energy efficiency rebates. Everybody wins.

# Energy Efficiency Docket: Changing EE in Kansas Petition

Kansans have a great opportunity to impact energy efficiency in Kansas. KCP&L is proposing to implement a portfolio of energy efficiency programs for residential and business customers in 2017. Before KCP&L can roll out the programs, they need approval from the Kansas Corporation Commission. This docket presents a great opportunity for YOU to impact the future of energy in Kansas.

By signing this petition you indicate support for KCP&L Energy Efficiency Docket # 16-KCPE-446-TAR.
