RE: 2018 Kansas Generation Survey Data

Please Provide the Following:

Some, or all, of the 2018 Generation Survey that was previously submitted was identified as "Confidential." KCC Staff is compiling the information, as has been done in previous years, to provide a K.S.A. required report to the Legislature. The attached document has selected pages of the draft Legislature Report that summarizes your utility information. Please review the pages and determine if the summarized information is considered "Confidential." If the pages are considered confidential information, please provide your reasoning for the confidential classification.

Midwest Energy Response:

Midwest Energy considers this information to be confidential as it allows potential counterparties to have insight to our energy portfolio. Divulging this information may hinder our ability in the future to negotiate the best possible contract and ultimately rates for our customer-owners.
