

Mr. Jeff McClanahan
Director of Utilities
Kansas Corporation Commission
1500 S.W. Arrowhead Rd.
Topeka, Kansas 66604-4027

February 27, 2017

Dear Mr. McClanahan:

Westar Energy, Inc. hereby submits its Net Metering Annual Report to reflect all net metering installations. The regulation states that each report shall specify the following information:

1. Information by customer type, including the following for each net metered facility:
 - A. The type of generation resources in operation,
 - B. Zip Code of the net metered facility,
 - C. First year of interconnection,
 - D. Any excess kilowatt-hours that expired at the end of the prior calendar year,
 - E. Generator size, and
 - F. Number and type of meters.

2. The utility's system retail peak in Kansas and the total rated net metered generating capacity for all net metered facilities connected with the utility's system in Kansas.

The regulation requires a report listing of all net metered facilities connected during the prior calendar year.

Due to changes in the statute and the approved tariffs, there were no kilowatt-hours that expired at the end of 2016.

If you should have any questions regarding this report, please feel free to contact me at 575-8181.

Sincerely,

A handwritten signature in blue ink that reads "Rebecca Fowler". The signature is written in a cursive, flowing style.
