RE: ORDER SUSPENDING INTRASTATE MOTOR CARRIER OPERATIONS (19-TRAM-429-PEN)

Savannah Traders LLC hereby requests a hearing on the above stated suspension due to the severity of imposed fine. The \$3,350 fine imposed on an already struggling starter trucking company is unaffordable due to the nature of business revenue.

A response to the originally mailed penalty assessment was not entered on time due to a misplacement of the MAY 2<sup>nd</sup> certified letter.

This company has had negative revenue in this current month of August, July, June and May. This fine is excessive, unbearable and unaffordable and will only push this small business to close its doors for good.

A commission safety sponsored safety meeting has been scheduled as ordered to improve company safety awareness.

Thank you for your consideration.

Sincerely,

Charles Mulengo

CEO
