4. Call Forwarding

(a) Call Forwarding - All Calls

When activated, causes all calls attempting to terminate to a subscriber's line to be redirected to another line, whether the subscriber's line is idle or busy. Calls forwarded while the line is Idle cause a short ring on the forwarding line as a reminder that the service is active. The subscriber administers the forwarding number and activates the feature using access codes.

(b) Call Forwarding - Busy

When assigned to a line, all calls which terminate to that line when it is busy are redirected to another designated line (which may be within or outside of the same switching system).

(c) Call Forwarding - No Answer

Calls are routed to another station in the same switching system if the call is not answered within a subscriber-prescribed number of rings. If the station the call is routed to is busy, the original station continues to ring until answered or until the caller terminates the call.

(d) Call Forwarding - Remote Access

Allows a subscriber with the Call Forwarding feature to activate the service from a location other than the Customer's own telephone service line.

4.43 CLASS Advanced Calling Services

a. Descriptive Summary

CLASS Options are optional telephone service arrangements which provide one or more of the following customized call management features:

1. Call Return

This feature enables the Customer to automatically redial the telephone number of the most recent incoming call. If the telephone number is busy, the Company's equipment will monitor the line for a maximum of thirty (30) minutes beginning with the Customer's activation of Call Return in an attempt to establish the call. This feature cannot return a call to a line that is not associated with a telephone number (e.g. multi-line hunt groups) or to a line with Call Forwarding - All Calls activated.

2. Repeat Dialing

Repeat Dialing allows the Customer to place a call to the last number to which a call was previously made or attempted. In addition, if the Customer encounters a busy signal this feature will automatically scan the called line for an idle condition. This scanning continues until the called station becomes idle, the original request is canceled, or a timer expires and clears the request.

3. Caller ID with Name Description

Caller ID with Name Description allows the transmission of the calling party name and number to the Customer's access line. When a Caller ID with Name Description equipped line is on hook, the calling party name and number is transmitted across the line during the silent interval between the first and second ring. Caller ID with Name Description Customers must provide and connect their own compatible premises equipment which is designed to display the calling party name and number.

Any Company Customer may prevent the delivery of calling party name and number to the called party by dialing an access code immediately prior to placing a call. The access code activates per call blocking of name and number delivery. Per call blocking is available at no charge.

If a calling party activates blocking, the calling party name and number will not be transmitted across the line. Instead, Caller ID with Name Description Customers will receive an anonymous indicator. This indicator notifies the Caller ID with Name Description Customer that the calling party chose to block Caller ID with Name Description.

4. Call Block - Caller ID

The Call Block - Caller ID feature provides Customers with the ability to control whether or not their directory name and number is displayed to the called party.

Call Block - Caller ID is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residence of employees/volunteers, where an executive officer of the agency registers with the Kansas Corporation Commission (with a copy to the Company) a need for blocking: (a) private, nonprofit, tax-exempt domestic violence intervention agencies, and (b) federal, state and local law enforcement agencies.
