Re: Docket No. 15-CONS-953-CPEN

Mr. Palmateer:

I requested a hearing on the above referenced Docket Number in a letter dated July 6, 2015. This was in reference to a letter I received containing the Notice of Violation from the KCC dated June 1, 2015 concerning the failure to submit a CP-4 form for two wells that Kansas Petroleum Resources plugged under KCC supervision. I received the order designating prehearing officer and setting prehearing conference. I will decline the conference and pay the penalty as prescribed by the KCC. I have included the invoice and a check to the KCC for \$200.00

I have submitted the required forms and am in compliance with the KCC. I had hoped to have the penalty dismissed due to a mistake in submitting the wrong form. As soon as the mistake was realized I submitted the correct form. That did not happen so I am submitting the total amount of the fine as indicated.

Sincerely,

Rod Andersen
