To Whom it May Concern,

6/8/16

I hereby withdraw my protest regarding the request to increase the amount of saltwater injected into the L.D. Slocombe #1 well in Marion County. During our hearing on Tuesday of this week, I gained perspective on what exactly was being injected into the well and the amount of increase in relation to other injection wells in the area. It was duly noted that Mr. DeGood offered to have an annual inspection done of the well instead of the normal 5 year cycle.

Thank you for your time, the wealth of information I gained, and for your continued vigilance of our natural resources.

Sincerely,

Evan Yoder
