Kansas Corporation Commission
1500 SW Arrowhead Road
Topeka, Kansas 66604

RE: In the Matter of the Capital Plan Compliance Docket for Kansas City Power & Light Company and Westar Energy, Inc. Pursuant to the Commission's Order in 18-KCPE-095-MER, Docket No. 19-KCPE-096-CPL

To Whom it May Concern:

Evergy Metro, Inc. d/b/a Evergy Kansas Metro ("Evergy Kansas Metro"), Evergy Kansas Central, Inc. and Evergy Kansas South, Inc. (collectively referred to herein as "Evergy Kansas Central"); and all three collectively referred to herein as "Companies"), are submitting their Five-year Capital Investment Plan ("Capital Plan"), as required by the Order Adopting Integrated Resource Plan and Capital Plan Framework of the State Corporation Commission of the State of Kansas ("Commission") issued in Docket No. 19-KCPE-096-CPL ("18-095 Docket") on February 6, 2020 ("IRP and Capital Plan Order").

In its IRP and Capital Plan Order, the Commission approved the IRP and Capital Plan Framework that was submitted by the Companies, Commission Staff, and the Citizens' Utility Ratepayer Board on March 1, 2019, and revised in the Joint Supplement and Clarification to Compliance Filing filed on September 9, 2019.

The Commission's IRP and Capital Plan Order requires the Companies to submit their initial capital plan report by March 9, 2020, and subsequent annual filings by February 28 of each year.¹ The purpose of the Capital Plan reporting is to "[t]o provide the Commission visibility into Evergy's forecast for new investments as well as replacement of aging utility infrastructure; and [t]o identify strategic and major capital projects that will set Evergy's short-term and long-term direction."²

In compliance with these requirements, attached hereto are the Evergy Kansas Central 2025-2029 Capital Investment Plan, and the Evergy Kansas Metro 2025-2029 Capital Investment Plan. The two Capital Investment Plan documents contain confidential information related to customer-specific information, contract negotiation strategies, facilities security, and information concerning trade secrets. Therefore, the Companies are filing both a confidential and public version of the two Capital Investment Plan documents.

¹ Order Adopting Integrated Resource Plan and Capital Plan Framework, p. 12, Docket No. 19-KCPE-096-CPL (February 6, 2020).

² Order Adopting Integrated Resource Plan and Capital Plan Framework, Attachment A - Capital Plan Reporting & IRP Process Framework, p. 1, Docket No. 19-KCPE-096-CPL (February 6, 2020).

In November 2021, the Commission's Order in the STP Investigation directed Evergy to "explain the increased spending in its CapEx projections, and the impact that increased spending will have on the trajectory of rates."³

In compliance with these additional requirements, additional information has been added to the Capital Investment plan documents and further explained in the following paragraphs.

The Evergy Kansas Central Capital Investment Plan reflects an overall increase in capital investment projections of \$1,338 million or 4%, on a five-year compound annual growth basis, from the previous 2024-2028 plan to the current 2025-2029 plan. The increase is driven by new generation needs identified in Evergy's most recent Integrated Resource Plan to meet energy needs and capacity requirements. The increase is also driven by distribution improvements for infrastructure, grid modernization and reliability as well as additional investments in the existing generation fleet that will cost-effectively serve Kansas customers.

The additional investment in the Evergy Kansas Central Capital Investment Plan is projected to impact the trajectory of rates by 1.6%, on a five-year compound annual growth basis, assuming no sales growth and before consideration of other changes to the cost of service. Assuming a range of 0.0% to 3.0% annual growth in sales with a consistent sales mix, the additional investments are projected to impact the trajectory of rates by a decrease of (1.4%) to an increase of 1.6% on a five-year compound annual growth basis.

The Evergy Kansas Metro Capital Investment Plan reflects an overall increase in capital investment projections of \$785 million or 10%, on a five-year compound annual growth basis, from the previous 2024-2028 plan to the current 2025-2029 plan.

The increase in capital investment, driven by new renewable generation as reflected in Evergy's most recent Integrated Resource Plan and distribution facilities, is projected to increase Evergy Kansas Metro's rates by 2.7%, on a five-year compound annual growth basis, before consideration of other changes to the cost of service. Assuming a range of 0.0% to 3.0% annual growth in sales with a consistent sales mix, the additional investments are projected to impact the trajectory of rates by a decrease of (0.3%) to an increase of 2.7% on a five-year compound annual growth basis.

Sincerely,

Cathryn J. Dinges

Attorney for Evergy Metro, Inc, Evergy Kansas Central, Inc. and Evergy Kansas South, Inc.

cc: All parties

Schedule 2 - 2024 Actual Versus Plan by Project

February 28, 2025

| | In millions (may not foot due to rounding) | Explanation for variances | Actual | Plan | Increase |
|------|---|---------------------------|--------------------------|------|--------------------|
| Line | Category | Project | in excess of \$3 million | 2024 | 2024 (Decrease) |
| 1 | Disclosures | | | | |
| 2 | Confidentiality | | | | |
| 3 | The following pages contain project by project detail that is confidential and involves strategies employed, to be employed or under | | | | |
| 4 | consideration. The release of this information, including numeric values, numeric denominations and time periods or dates ("data") | | | | |
| 5 | and the description or context of such data could harm the company by violating disclosure regulations required by governing authorities | | | | |
| 6 | such as the U.S. Securities and Exchange Commission ("SEC"), the Federal Energy Regulatory Commission ("FERC"), the Nuclear | | | | |
| 7 | Regulatory Commission ("NRC") and various other regulatory agencies. The company also has a fiduciary duty to its employees, | | | | |
| 8 | customers, regulators and other stakeholders to protect sensitive information that may impact the operations or financial condition of | | | | |
| 9 | the company. | | | | |
| 10 | | | | | |
| 11 | Safe Harbor | | | | |
| 12 | In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, a number of important factors | | | | |
| 13 | could cause actual results to differ materially from forward-looking information. | | | | |
| 14 | | | | | |
| 15 | Principals of Reporting | | | | |
| 16 | Amounts presented reflect the cost projected to benefit Evergy Kansas Central and may not reflect the entire project cost. For example, information | | | | |
| 17 | technology projects that benefit multiple jurisdictions may be managed in aggregate under a single Evergy operating company. These costs are then | | | | |
| 18 | charged or credited through common use billing adjustments based on how other operating companies and jurisdictions benefit from the project. | | | | |

**Evergy Kansas Central
Capital Investment Plan Update
Schedule 3 - 2025 Current Plan by Project**

PUBLIC

February 28, 2025

In millions (may not foot due to rounding)

Plan

| Line | Category | Project | 2025 |
|------|--------------------|---------|------|
| 1 | Disclosures | | |

Confidentiality

The following pages contain project by project detail that is confidential and involves strategies employed, to be employed or under consideration. The release of this information, including numeric values, numeric denominations and time periods or dates ("data") and the description or context of such data could harm the company by violating disclosure regulations required by governing authorities such as the U.S. Securities and Exchange Commission ("SEC"), the Federal Energy Regulatory Commission ("FERC"), the Nuclear Regulatory Commission ("NRC") and various other regulatory agencies. The company also has a fiduciary duty to its employees, customers, regulators and other stakeholders to protect sensitive information that may impact the operations or financial condition of the company.

10

Safe Harbor

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, a number of important factors could cause actual results to differ materially from forward-looking information.

14

Principals of Reporting

Amounts presented reflect the cost projected to benefit Evergy Kansas Central and may not reflect the entire project cost. For example, information technology projects that benefit multiple jurisdictions may be managed in aggregate under a single Evergy operating company. These costs are then charged or credited through common use billing adjustments based on how other operating companies and jurisdictions benefit from the project.
