In the Matter of the Application of	)	
<b>SANDRIDGE EXPLORATION AND</b>	)	Docket No. 15-CONS-251-CFLA
<b>PRODUCTION, LLC</b> for Permission	)	
to Flare Natural Gas from the Perth 3302	)	KCC License No. 34192
#2-1H Well in Sumner County, Kansas,	)	
Pursuant to K.A.R. §§ 82-3-208 & 82-3-314	)	CONSERVATION DIVISION
_____	)	

**MOTION FOR INTERIM RELIEF**

Applicant SandRidge Exploration and Production, LLC ("SandRidge") moves the State Corporation Commission of the State of Kansas (the "Commission") for an order granting SandRidge authorization to continue flaring natural gas from the Perth 3302 #2-1H well, the subject of the Application in the above captioned docket, during the pendency of the Application in the docket.

In support of its Motion, SandRidge states and alleges as follows:

1. SandRidge is a Delaware limited liability company and is duly authorized to do business within the state of Kansas. SandRidge's principal business address is 123 Robert S. Kerr Avenue, Oklahoma City, OK 73102.
2. On September 24, 2014, SandRidge filed an Application in the above captioned docket seeking an Order permitting SandRidge to continue flaring gas from the Perth 3302 #2-1H well. The basis for the relief sought in the Application, and the allegations in support of that relief set forth therein, are incorporated herein by reference.
3. In the Application, SandRidge also requested that it be allowed to continue flaring the gas produced from the Perth 3302 #2-1H well during the pendency of this Application, and

that the relief granted by the Commission on this Application be made retroactive to the date of first production from that well.

4. Notice of the filing of that Application was published in the Wichita Eagle on September 24, 2014, and in the Belle Plaine News on September 25, 2014. Notice was also served on those persons required by law, as set forth in the Application. The protest period has not yet expired.

5. To date, SandRidge has been flaring gas from the Perth 3302 2-1H well pursuant to and in accordance with the rules and regulations of the Commission.

6. SandRidge has installed and is utilizing such facilities and following such procedures as are reasonably necessary to flare such gas in a manner designed to comply with all applicable air quality regulations and to prevent damage to property and injury to persons who are reasonably expected to be in the vicinity for work, pleasure or business. Those practices and procedures will continue if this motion is granted.

7. SandRidge has been and will continue to meter, measure and monitor the volumes of gas flared from the Peth 3302 2-1H well, and the records thereof will be retained by SandRidge for a period of two (2) years. SandRidge is willing to report this information to the Commission semiannually or as designated by the Commission.

8. If SandRidge is not allowed to continue flaring gas produced from the Perth 3301 2-1H well during the pendency of this Application, it will be required to shut-in that well. Granting the relief requested by this motion will prevent waste, will not violate correlative rights, and is otherwise consistent with the statutory duties of the Commission.

WHEREFORE, for the reasons set forth herein, SandRidge requests that it be allowed to continue to flare the gas produced from the Perth 3302 #2-1H well during the pendency of the

Application in this docket, and for such other and further relief as the Commission deems just and proper.

Respectfully submitted,

By   
David E. Bengtson (#12184)
