RE: Docket 25-BTRE-157-COC

To Whom it May Concern,

Butler Rural Electric Cooperative Association Inc. is withdrawing its application for Certificate of Convenience in the docket referenced above.

After discussion with Kansas Corporation Commission staff and Evergy Kansas Central in this matter, it was determined the Evergy Kansas Central equipment was installed prior to the start of the Retail Electric Supplier Act and as such, a formal application for the Commission to consider is not required.

If any other information is needed, please contact me.

Best Regards,

Doug Veatch
Manager of Operations
