Re: Summer Sun Gas LLC, License 6880
Brown #2 Well
Docket No: 16-CONS-4131-CSHO

Dear John,

You are the designated pre-hearing officer. I represent the operator. For background, the file will reflect the landowners assumed control of the well years ago under written contract. The landowners are now deceased, and their sons own the property.

When contacted by staff regarding the well, the operator attempted entry but the Brown family refuses, and still claim the well. There was apparently some discussion about one of the sons obtaining a license for what is now, presumably, a domestic gas well, but there was no follow through by the Browns.

I have spoken with Jon Myers about the dilemma several times.

May I please participate in the prehearing conference at 1:30 on August 23rd by telephone? If so, please call me at 620-331-0144, when you and Jon are ready to take up the matter.

Thank you!

Very Truly Yours,

Jon Viets
