NOTICE OF FILING OF STAFF'S REPORT AND RECOMMENDATION

The Staff of the State Corporation Commission of the State of Kansas (Staff and Commission, respectively) files this *Notice of Filing of Staff's Report and Recommendation*, as required by the Commission's November 21, 2017 *Order Opening General Investigation*.

I. Background

1. On November 21, 2017, the Commission issued an *Order Opening General Investigation*, to examine legal issues pertaining to notice requirements for injection applications filed between October 2008 and the present.

2. Pursuant to Paragraph 8 of the Commission's November 21, 2017 order, Staff was directed to provide a list of all underground injection well applications going back to October 2008, where the applicant's publication notice informed persons that they only had 15 days from publication to file an objection or protest, and to provide a sub-list of those applications that were approved by the Commission, including various other data pertaining to the applications.

II. Summary of Staff's Report and Recommendation

3. Staff's Report and Recommendation, which is attached, provides a brief history of injection application permitting and attaches the data requested by the Commission.

III. Service of Staff's Report and Recommendation

4. The Commission's November 21, 2017, *Order Opening General Investigation* indicates this proceeding will be governed by the provisions of the Kansas Administrative Procedure Act.¹ Pursuant to K.S.A. 77-519(c), a party shall serve copies of any filed item on all parties, by mail or any other means, including electronic means, if the party to be served has consented to service by electronic means, prescribed by state agency rule and regulation or by the presiding officer.

5. While Staff is presently the only party to this proceeding before the Commission, Staff intends to electronically serve all members of the Oil and Gas Advisory Committee constituted under K.S.A. 55-173, as such members were so served the Commission's November 21, 2017 order. Staff shall do so simultaneous with the filing of this *Notice of Filing of Staff's Report and Recommendation*.

6. Further, Staff intends to serve all operators for whom applications for injection authority were approved, going back to October 2008, where the applicant's publication notice informed persons that they only had 15 days from publication to file an objection or protest, as such seems to be a necessary step to achieving meaningful input in this general investigation docket. Since the logistics of serving 300 operators at their last known address contemporaneous with the filing of Staff's Report and Recommendation are difficult, however, Staff will serve these operators as expeditiously as possible, and will file a follow-up notice of service to inform the Commission when such service is complete. It is Staff's suggestion that the Commission-ordered deadlines for entries of appearance, petitions for intervention, and submissions of briefs commence with the filing of Staff's follow-up notice that such service is complete.

¹ See, e.g., *Order Opening General Investigation*, ¶17, 18.

WHEREFORE, Staff submits this *Notice of Filing of Staff's Report and Recommendation*.

Respectfully submitted,

Jonathan R. Myers, #25975
Litigation Counsel
Kansas Corporation Commission
266 N. Main, Suite 220

**REPORT AND RECOMMENDATION
CONSERVATION DIVISION**

To: Chair, Shari Feist Albrecht
Commissioner Jay Scott Emler
Commissioner Pat Apple

From: Ryan A. Hoffman, Director, Conservation Division

Date: 2/19/18

Re: Staff Report 18-CONS-3224-CINV

SUBJECT:

18-CONS-3224-CINV: In the Matter of a General Investigation to Examine the Legal Issues Pertaining to the Notice Requirements for Applications, Filed Between October 2008 and the Present, Seeking Underground Injection of Salt Water Pursuant to K.A.R. 82-3-402.

EXECUTIVE SUMMARY:

Staff has provided the information requested in Paragraph 8(a) and (b) of the Commission's Order Opening General Investigation (Order).

BACKGROUND:

On February 8, 1984 the Kansas Corporation Commission (KCC or Commission) was delegated the Underground Injection Control (UIC) Program from the Environmental Protection Agency to implement the Class II well program within Kansas under Section 1425 of the Safe Drinking Water Act of 1974. From February 1984 until April 2002, the Commission issued injection authority through orders or dockets. In April 2002, the Commission approved regulations delegating the authority to issue injection permits to staff. In July 2002, the Commission issued a Declaratory Order stating "[t]he amendments to the injection well regulations were intended to allow the Conservation Division to take all actions with regard to injection wells without a Commission Order, except for contested matters."¹ Since 2002, the routine processing of injection applications has been the responsibility of staff. Only contested matters are assigned a docket number and scheduled for an evidentiary hearing before the Commission. This results in only a small number of injection permits being issued by the Commission through an evidentiary hearing.

The present investigative docket was opened to examine the legal sufficiency of publication notices for injection permits dating back to October 2008 which contained an erroneous protest

¹ Docket No. 02-CONS-294-CREG, ¶ 8, p. 2. (July 26, 2002)

timeframe. The pertinent regulation, K.A.R. 82-3-135a(e), was amended effective October 24, 2008, to change the protest period for applications filed under K.A.R. 82-3-400 through 82-3-412 and K.A.R. 82-3-600 through 82-3-607, from 15 days to 30 days. Staff reviews the published Notice of Application as part of the overall permitting process.

Pursuant to the Order Opening General Investigation (Order) in this docket, staff has researched the more than 4,300 new injection permits and amendments filed since October of 2008. To comply with Paragraph 8(a) of the Order, staff has provided the listing attached as Exhibit A. Exhibit A is separated into portions. The first contains all of the authorized injection permits filed since October of 2008 whose Notice of Applications were published with a 15-day protest period. This listing contains 1,007 applications for injection authority at 2,111 wells. To comply with Paragraph 8(b) of the Order, staff has provided the relevant docket number if the Commission approved the permit as a result of an evidentiary hearing. The second portion of the list is those applications which were dismissed, withdrawn, or denied.

Both lists are sorted alphabetically by operator and then alphabetically by the county in which the well is located. Staff has provided a column "No. Days Pub to Perm" to show how many days elapsed between the notice publication and the granting of the permit. No publication dates were retrieved for the applications on the second portion of the list because no permit was ever granted.

RECOMMENDATION:

1. Staff recommends this listing to be as complete of a record of all applications filed during the requested timeframe as possible.
2. Staff recommends the deadlines in this matter do not begin to run until such time as staff is able to provide notice of this filing on all affected operators listed herein.
3. Staff will file notice in this docket when copies of this report have been mailed to all affected operators.
