Dear Mr. Mc Cannon, 13-CONS-309-CUN1

I knew my Royalties were not the four sections listed. I will withdraw my protest. Read section 3.1 in Mr. Smith's booklet. It states the gas and oil Rights of Royalty owners described in Exhibit B-1 — — — are in favor of the Working Interest owner. Once they get control of the Mineral Rights ~~leases~~, they will control the drilling of future oil wells, using these.

I fail to see how giving equal Royalty payments in the A.T.U. will benefit me. I know about the natural gas and oil pools in my leases.

Sincerely
Myrna L. Green
