

Mr. Jeff McClanahan  
Director of Utilities  
Kansas Corporation Commission  
1500 S.W. Arrowhead Rd.  
Topeka, Kansas 66604-4027

February 14, 2018

Dear Mr. McClanahan:

Westar Energy, Inc. hereby submits its Net Metering Annual Report to reflect all net metering installations. The regulation states that each report shall specify the following information:

1. Information by customer type, including the following for each net metered facility:
  - A. The type of generation resources in operation,
  - B. Zip Code of the net metered facility,
  - C. First year of interconnection,
  - D. Any excess kilowatt-hours that expired at the end of the prior calendar year,
  - E. Generator size, and
  - F. Number and type of meters.
  
2. The utility's system retail peak in Kansas and the total rated net metered generating capacity for all net metered facilities connected with the utility's system in Kansas.

The regulation requires a report listing of all net metered facilities connected during the prior calendar year.

Due to changes in the statute and the approved tariffs, there were no kilowatt-hours that expired at the end of 2017.

If you should have any questions regarding this report, please feel free to contact me at 575-8181.

Sincerely,

Rebecca Fowler  
Regulatory Affairs

CC: Don Ford  
Tammie Rhea
