Celeste Chaney-Tucker, Executive Director
Kansas Corporation Commission
1500 S.W. Arrowhead Road
Topeka, KS 66604-4027

Dear Executive Director:

Jayhawk Pipeline, L.L.C. ("Jayhawk") is making this filing to cease operation of a segment of its common carrier pipeline and delete an origination from its Certificate of Convenience and Necessity. Please accept for approval the attached Application to Cease Operation (the "Application") of its pipeline from Taloga Station to Liberal Station in Morton, Stevens, and Seward Counties effective August 31, 2025. The facts presented in the Application substantiate the need to cancel the Taloga origination and discontinue operation of the referenced pipeline segment. As of this filing, a docket number has not been assigned to the following KCC Tariffs, submitted May 30, 2025, that had an effective date of July 1, 2025.

Supplement #26 to KCC No. 80
Supplement #21 to KCC No. 83

In addition to the Application and its exhibits, required supporting documentation includes a Customer Notice of Tariff Change and a Change Page for each affected Tariff which are enclosed herewith (Supplement #27 to KCC No. 80 and Supplement #22 to KCC No. 83).

Jayhawk has served notification of its intention to cease operation of the segment on June 2 and again on the date of this filing, July 24, 2025. Upon approval by the Kansas Corporation Commission, Jayhawk will make these tariff documents available on a website at: <https://www.chspipelines.com/tariffs>.

If you need additional information, or if we can be of any further assistance, please call me at 406-861-9284.

Sincerely,

APPLICATION TO CEASE OPERATION

Comes now Jayhawk Pipeline, L.L.C. ("Jayhawk") and respectfully states and alleges as follows:

1. Jayhawk operates a liquids pipeline as a common carrier in Kansas under the authority of a Certificate granted by the State Corporation Commission of the State of Kansas (the "KCC" or "Commission") on September 14, 1953 in Docket Number 16365.

2. Jayhawk desires, and herein seeks the approval of the Commission, to cease operation of a 50-mile segment of its pipeline as a liquids pipeline common carrier from Taloga to Liberal via Morton, Stevens, and Seward Counties in Kansas.

Specifically, Jayhawk seeks cessation of the following described routes on the following tariffs:

KCC No. 80 Supplement 26

Taloga Station (Morton County) to Hudson Station

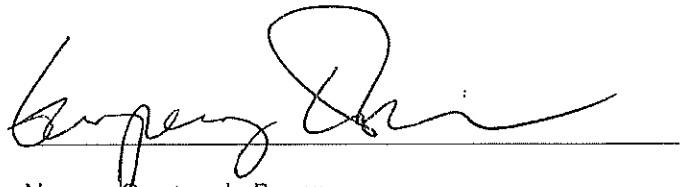

KCC No. 83 Supplement 21

Morton and Stevens Counties to Harper Ranch Station (Clark County)

3. Attached hereto and marked as Exhibit "A" is a map that depicts the above-described segment of pipeline that Jayhawk seeks permission to cease operating.
4. Attached hereto is the Affidavit in support of this Application.
5. Attached hereto is a change page for KCC No. 80 and KCC No. 83.

WHEREFORE, Jayhawk requests that the Commission approve the termination of service on the segment of its pipeline that runs from Taloga, Kansas (Morton County) to Liberal, KS (Seward County), for the modification of its tariffs reflecting the termination of service on that segment, and for such other relief as is warranted under the circumstances.

AFFIDAVIT

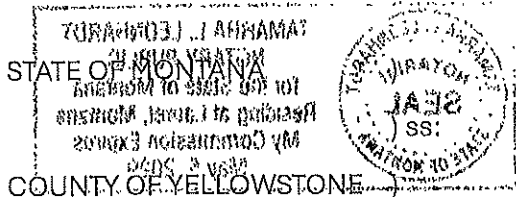

STATE OF MONTANA)

COUNTY OF YELLOWSTONE)

I, Gregory L. Brown, of lawful age, being duly sworn upon oath, state as follows:

1. I am Manager of Jayhawk Pipeline, L.L.C. ("Jayhawk").
2. This Affidavit is being provided in support of the Application filed by Jayhawk in this docket seeking approval to abandon and terminate service on a 50-mile segment of pipeline from Taloga (Morton County) to Liberal (Seward County), Kansas (See Exhibit A).
3. As a result of the abandonment, Jayhawk also seeks approval to delete originations from Taloga Station, Morton County, Kansas on KCC No. 80 Supplement 26 and Morton and Stevens Counties on KCC No. 83 Supplement 21.
4. While performing integrity testing of its pipeline system with an inline inspection tool, Jayhawk identified numerous anomalies in the Taloga to Liberal segment that required significant repair in the immediate future. The estimated costs of making the necessary repairs to the segment, and corresponding risks to the environment, are too great to justify making those repairs. As such, Jayhawk is required to discontinue service on this line by August 31, 2025.
5. Of note, discontinuing service at this time avoids repairs along the pipeline that could affect several high consequence areas, including potential drinking water sources.
6. Shippers transporting crude oil on the Taloga to Liberal segment have destinations of Harper Ranch Station and McPherson, KS. Alternative pipeline options in proximity that support continued shipments include origination at Eubanks Station or Liberal Station on Jayhawk Pipeline, L.L.C.
7. If approved, the cessation of operations on the Taloga to Liberal segment will be effective August 31, 2025.

JAYHAWK PIPELINE, L.L.C.
CUSTOMER NOTICE OF TARIFF CHANGE

TO: All Shippers on Jayhawk Pipeline, L.L.C. in the State of Kansas

RE: KCC No. 80 Supplement 26 and KCC No. 83 Supplement 21

On July 24, 2025 Jayhawk Pipeline, L.L.C. ("Jayhawk") filed an Application with the Kansas Corporation Commission ("Commission") requesting approval to cease service on the segment of its pipeline system from Taloga to Liberal in Morton, Stevens, and Seward counties within KS.

That Application may be acted upon by the Commission within thirty (30) days of its filing. If you would like to protest the relief sought in this filing, you must do so within that thirty (30) day period.

You may file a protest in one of three manners:

- Intervene in the docket by having an attorney submit a petition for intervention in accordance with K.A.R. 82-1-225 and filing a written protest: or
- Send an informal protest to the Commission without intervention by mailing it to the attention of Paul Owings, Chief Engineer, Pipeline Safety, Kansas Corporation Commission, 1500 SW Arrowhead Drive Topeka, Kansas 66604: or
- Telephone Paul Owings, Chief Engineer, Pipeline Safety at 785-271-3141.

If you have any questions about this tariff filing, you may contact Michelle Slyder at 406-861-9284 or call Paul Owings at the Commission at the telephone number listed above.
