Dear Kansas Corporation Commission:

On or about February 27, 2015 Globalinx Enterprises, Inc. (formerly known as Tri-M Communications, Inc. d/b/a TMC) ("Globalinx") made a business decision to cease being a telecommunications service provider.

In connection with this decision, Globalinx submitted a Notice to its customers notifying them of this decision and informing them that they would need to find a new service provider. In order to ease any customer disruption, Globalinx made arrangements with Birch Telecom, Inc. ("Birch"), one of its wholesale vendors, to maintain service to these customers should the customers elect to authorize Birch to be their service provider going forward.

Globalinx is in the process of withdrawing all of its regulatory licenses in the various states, filing final tax returns and generally winding down its business. Since substantially all of Globalinx's customers are now obtaining service elsewhere, you can expect no further returns or reports being filed by Globalinx once the final returns have been submitted.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Jane Mulvehill
Manager of Taxation
