RE: Video Service Application for Valu-Net LLC

Attached is our Amended Kansas Video Service Authorization Application to add Baldwin City Kansas. We have now received CUID information from the FCC and wish to move forward with this Application. The CUID for Baldwin City is KS0883. We previously provided the legal description and areas to be served and wish to use that same information for this Application. If other information is required, please do not hesitate to contact me.

Thank you for your time.

Sincerely,

Richard L. Tidwell
President
