Re: Application for Injection Well
Danis #1-21
Permit No. Pending
Sec. 21-18S-29W
Lane Co., Kansas

VIA EMAIL AND USPS

Dear Mr. Stucky:

Per copy of your correspondence to Ms. Cindy Hoedel dated October 27, 2017, we were notified that the subject application had been protested.

KAR 82-3-135b.(d) requires that "(e)ach protester shall serve the protest upon the applicant at the same time or before the protestor files the protest with the conservation division. The protest shall not be served on the applicant by the conservation division." Please be aware that the protestor, in this application, never notified Larson Engineering, Inc., dba Larson Operating Company of the protest. The only notice of the protest we received came from the Conservation Division.

I respectfully request that the protest be dismissed for protester's failure to comply with KAR 82-3-135b.(d).

Very truly yours,

Larson Engineering, Inc.

Thomas Larson, P.E.
President
