To whom it may concern.

I'm writing this letter in order to request a hearing and to seek relief from what I feel is an excessive fine for my apparent crime or violation.

I became really behind on my bills after March 2016, I had double hernia surgery and made my job slow down. - I'm a contractor who works and doesn't just make phone calls.

I didn't have the money on the 28th of February but the first day I had the money I tried to renew and then I found my penalty letter.

I was informed I was sent 2 emails concerning this matter. But never received a letter of any kind other than a letter about a new form.

I don't use E-mail don't use my computer for business and I also let my friend use it 1/2 of this semester and all of last semester for a class in coding or something.

CONSERVATION DIVISION
WICHITA, KS

If I would have received a letter
I promise I would have responded.

I feel the fine is excessive for
my situation.

my well sat open from 1980-81
untill I told you guys about
it after I found it on my property.
Its a Hobby well Takes over a
year to produce 47 Barrels of fluid.
not A money maker.

I feel a fine would be in order
but 250% of the Lic fee
is excessive

Car Pymts - House pymts - power - water
gas all have penalties 10-15-20%
not more than the Bills themselves

I was told by no less than 3 persons
that you guys have to protect
open and unplugged wells.

you guys didnt close or plug the
"well" for 36 yrs - I Found it
researched it Told you guys about it
Licensed it - paid TAXES on the
one time I sold oil and I TAKE
good care of the well and its
surroundings I Figured your
fine for not closing the
well in

allowing me to Find it - open it
Lic it - produce it - take care of it
maintain it - Pay taxes on it

36 Yrs Your Fine would be
Approx \$97,236.00

I'm being a smart ASS but
Please See if you could help
me reduce the fine, it an
extreme amount because I'm behind
on bills in the First Place.

Thanks For Listening.
