Subject: Docket No. 20-UNTV-525-SHO

Dear Sandra Reams:

Thank you for your email responses last week. Per our correspondence, this letter is to address the Commission directly, formally, for Docket No. 20-UNTV-525-SHO.

Per our recent correspondence, UniTel Voice was communicating with GVNW, in lieu of filing a formal response to the Docket. We now realize this was our error. As described, The Commission did not know of these informal actions, including UniTel Voice submitting documents and payments. Our hope is that this letter will be used as the formal response to be used in the Docket.

GVNW Staff filed a Report and Recommendation based on what was filed and paid through August 31, 2020, since UniTel Voice had requested an extension until that date. Due to delays with US Mail, our payments and documents were received in early-September. The timing difference between the period Staff's Report addressed, and when UniTel Voice's filings and payments were processed are detailed below.

1. UniTel Voice has paid all outstanding amounts, with the exception of penalties.
 - a. Check #1429 for \$241.00 cleared on 9/14/2020 is for the March 2020 – February 2021 (FY 24) KUSF assessment and Late Filing Penalty.
 - b. Check #1425 for \$194.11 cleared on 9/1/2020 appears to be for the March 2019 – February 2020 (FY 23) assessment and Late Filing Penalty.
 - c. Check #1426 for \$186.11 cleared on 9/1/2020 is for the March 2018 – February 2019 (FY 22) KUSF assessment and Late Filing Penalty.

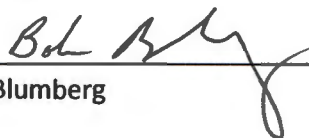

2. UniTel Voice has filed all outstanding documentation, including:

- a. FY 22
- b. FY 23
- c. FY 24

We have worked very hard over the last couple months to ensure that all requested documentation, forms, and payment are all submitted.

Our liability to KUSF over these 3 years of reports totaled less than \$300, excluding the penalties and fees. We respectfully ask that you waive these penalties due to the extreme amount compared to the amount actually owed.

Sincerely,

Bob Blumberg
