Sheet 1 of 4 Sheets

ENERGY COST ADJUSTMENT  
Schedule ECA

APPLICABILITY:

This Energy Cost Adjustment (ECA) Schedule shall be applicable to all Kansas Retail Rate Schedules for the Company ~~KCPL~~.

BASIS:

Energy costs will be measured and applied to a customer's bill using an ECA factor. The ECA factor is applied on a kilowatt-hour basis (\$/kWh). Retail customer charges for energy costs are determined by multiplying the kilowatt-hours of electricity during any calendar month by the corresponding ECA factor for that calendar month.

ENERGY COST ADJUSTMENT:

Prior to January 1 of each ECA year, an ECA factor (ECA<sub>p</sub>) will be calculated for each calendar month of the ECA year as follows:

$$ECA_p = \frac{((F_p + P_p + E_p + T_p) - BPR_p)}{S_p} - \frac{OSSM_k}{S_k} - \frac{TRUE_A}{S_{TRUE}}$$

Where:

- F<sub>p</sub> = Projected cost of nuclear and fossil fuel to be consumed for the generation of electricity during the month in which the ECA is in effect for all Company ~~KCPL~~ Retail, Requirements Sales for Resale, and Bulk Power Sales customers not included in OSSM, to be recorded in Account 501, Account 518 and Account 547, excluding any Company ~~KCPL~~ internal labor cost.
- P<sub>p</sub> = Projected cost of purchased power during the month in which the ECA is in effect for all Company ~~KCPL~~ Retail, Requirements Sales for Resale, and Bulk Power Sales customers not included in OSSM, to be recorded in Account 555, and the Company's ~~KCPL's~~ projected charges or credits incurred due to participation in markets associated with Regional Transmission Organizations (RTOs).
- E<sub>p</sub> = Projected cost of emission allowances during the month in which the ECA is in effect for all Company ~~KCPL~~ Retail, Requirements Sales for Resale, and Bulk Power Sales customers not included in OSSM, to be recorded in Account 509.
- T<sub>p</sub> = Projected transmission costs, to be recorded in Account 565, and RTO, FERC and NERC fees, to be recorded in Accounts 560, 561.4, 561.8, 575.7 and Account 928, during the month in which the ECA is in effect for all Company ~~KCPL~~ Retail, Requirements Sales for Resale, and Bulk Power Sales customers not included in OSSM.
- BPR<sub>p</sub> = Projected Revenue from asset-based Bulk Power Sales customers not included in OSSM.
- S<sub>p</sub> = Projected kWhs to be delivered to all Company ~~KCPL~~ Retail and Requirements Sales for Resale customers during the month in which the ECA is in effect.
- OSSM = Projected annual asset-based Off-System Sales Margin from Bulk Power Sales at the median for the effective ECA year.
- OSSM<sub>k</sub> = The projected annual asset-based Off-System Sales Margin from Bulk Power Sales at the median for the effective ECA year multiplied by the projected ~~Unused Energy (UE)~~ Steam Production Plant Allocator for Kansas.
- S<sub>k</sub> = Projected annual kWhs to be delivered to all Kansas Retail customers during the effective ECA year.
- S<sub>TRUE</sub> = Projected kWhs for Kansas Retail customers for the twelve-month period beginning in April of the year following the ECA year.

<p>Issued: <u>December 17, 20097</u>  <small>Month Day Year</small></p> <p>Effective: <u>January 1, 2008</u>  <small>Month Day Year</small></p> <p>By: <u>Chris Giles</u> <u>Curtis D. Blanc</u> <u>Sr. Director</u>  <small>Title</small></p>	<p>FILED</p> <p>THE STATE CORPORATION COMMISSION OF KANSAS</p> <p>By: _____  <small>Secretary</small></p>

**KANSAS CITY POWER & LIGHT COMPANY**

(Name of Issuing Utility)

Replacing Schedule 2 Sheet 2

Rate Areas No. 2 & 4

(Territory to which schedule is applicable)

which was filed December 7, 2007

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 2 of 4 Sheets

**ENERGY COST ADJUSTMENT**  
Schedule ECA

TRUE<sub>A</sub> = The annual true-up amount for an ECA year, to be calculated by March 1 of the year following the ECA year and to be applied for a twelve-month period beginning April 1 of the year following the ECA year. The TRUE<sub>A</sub> true-up amount will reflect any difference between the total ECA revenue for the Retail sales during the ECA year and the actual costs incurred to achieve those Retail sales less the credits applied for Off-System Sales Revenue for the ECA year. Such TRUE<sub>A</sub> true-up amount may be positive or negative. Any remaining balances from prior true-up periods will be added.

$$TRUE_A = ECAREV_A - [((F_A + P_A + E_A + T_A - BPR_A) - NABPC_A) \times \frac{S_{AK}}{S_{AT}}] + OSSM_A + TRUE_{PRIOR}$$

Where:

ECAREV<sub>A</sub> = Actual ECA revenue for Kansas Retail sales during the ECA year.

F<sub>A</sub> = Actual total company cost of nuclear and fossil fuel consumed for the generation of electricity for the ECA year recorded in Account 501, Account 518 and Account 547, excluding any internal KCPL labor cost and all costs associated with OSSM<sub>A</sub>.

P<sub>A</sub> = Actual total company cost of purchased power incurred during the ECA year recorded in Account 555, and the Company's KCPL's actual charges or credits incurred due to participation in markets associated with Regional Transmission Organizations (RTOs) less all costs associated with OSSM<sub>A</sub>.

E<sub>A</sub> = Actual total company emission allowance costs incurred during the ECA year recorded in Account 509 less all costs associated with OSSM<sub>A</sub>.

T<sub>A</sub> = Actual total company transmission costs recorded in Account 565 and RTO, FERC and NERC fees recorded in Accounts 560, 561.4, 561.8, 575.7 and Account 928 for the ECA year less all costs associated with OSSM<sub>A</sub>.

BPR<sub>A</sub> = Actual Revenue from asset-based Bulk Power Sales customers not included in OSSM<sub>A</sub>.

NABPC<sub>A</sub> = Actual total company cost for non-asset-based sales to Bulk Power customers during the ECA year, as reflected in P<sub>A</sub> and T<sub>A</sub>.

OSSM<sub>A</sub> = Actual total company asset-based Off-System Sales Margin from Bulk Power Sales for the ECA year multiplied by the actual ~~Unused Energy (UE)~~ Steam Production Plant Allocator for Kansas.

S<sub>AK</sub> = Actual kWhs delivered to the Company's KCPL's Kansas Retail customers during the ECA year.

S<sub>AT</sub> = Actual kWhs delivered to all Company KCPL Retail and Requirements Sales for Resale customers during the ECA year.

TRUE<sub>PRIOR</sub> = Remaining true-up amounts from previous ECA years (positive or negative).

**KANSAS CITY POWER & LIGHT COMPANY**

(Name of Issuing Utility)

Replacing Schedule 2 Sheet 3

Rate Areas No. 2 & 4

(Territory to which schedule is applicable)

which was filed December 7, 2007

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 3 of 4 Sheets

ENERGY COST ADJUSTMENT  
Schedule ECA

NOTES TO THE TARIFF:

1. On or before December 20<sup>th</sup> prior to each ECA year, the Company ~~KCPL~~ will submit a report containing the projected monthly ECA factors on a \$/kWh basis for each month of the coming ECA year. Such report will set the monthly ECA factors for January, February and March of the ECA year. The Company ~~KCPL~~ will publish such projected monthly ECA factors, and any updates to such monthly ECA factors to consumers.
2. On or before the 20<sup>th</sup> day of March, June, and September of each ECA year, the Company ~~KCPL~~ will submit a report containing updated projected ECA factors for the remaining months of the effective ECA year. Such updated projected ECA factors will set the monthly ECA factors for the next calendar quarter of the ECA year. Such report shall also compare the original ECA revenue projections and the then-current ECA year-end projections on a total revenue basis. If the original projection and the then-current projection become significantly out of balance at any time during the ECA year, the remaining monthly ECA factors may be adjusted to address the anticipated difference.
3. On or before the 1<sup>st</sup> day of March each year beginning March 1, 2009, the Company ~~KCPL~~ will file an application that provides the true-up reconciliation for the preceding ECA year, otherwise known as the Actual Cost Adjustment ("ACA"). Such reconciliation amount, if any, for a given ECA year will be applied as an adjustment to the monthly ECA factors for the 12-month period beginning April following the reconciled ECA year. The Commission may make such ACA subject to correction in whole or in part, pending final determination on the application. All revenues collected pursuant to the ECA tariff shall be deemed to be revenues subject to adjustment until the ACA review is complete, the Commission has issued a final order in the ACA matter, and all terms and conditions of such order are satisfied. The Commission shall make a final determination on the adjustment, including the reasonableness and prudence of the actual ECA costs incurred during the ECA year, within two hundred forty (240) days of the filing of the application. Prudent operation of the Company's ~~KCPL's~~ system will be consistent with industry standards regarding economic dispatch, reliability, maintenance and fuel procurement as such is necessary to minimize the impact of this ECA tariff on customer rates.
4. The monthly ECA factor will be expressed in dollars per kilowatt-hour rounded to five decimal places.
5. Each ECA year will be a calendar year, with the first year beginning January 1, 2008.
6. The ECA amount on each customer bill will be calculated such that the ECA factor for each calendar month within the billing period is applied to the estimated usage for the appropriate calendar month (i.e., prorated) based on the number of days of usage in each calendar month.
7. The references to Accounts within the ECA tariff are as defined in the FERC uniform system of accounts.
8. Retail Customers are customers that receive service under one of the Company ~~KCPL~~ Retail tariffs.
9. Requirements Sales for Resale Customers are wholesale customers receiving firm service for the full capacity and energy needs of the customer on a contract basis of one year or longer (Account 447).
10. Bulk Power Sales Customers are wholesale customers receiving service under Power contracts. These are Non-Requirements Sales for Resale customers (Account 447).

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 4 of 4 Sheets

ENERGY COST ADJUSTMENT  
Schedule ECA

NOTES TO THE TARIFF (continued):

- 10. The Unused Energy (UE1) Allocator for KCPL's Kansas jurisdiction is calculated by dividing the KCPL Kansas jurisdictional "Unused Energy" MWhs by the total KCPL "Unused Energy" MWhs. The "Unused Energy" MWhs for each KCPL jurisdiction (Kansas, Missouri, and FERC) is calculated by subtracting the "Energy Used" MWhs for each jurisdiction from the "Available Energy" MWhs for each jurisdiction. The "Energy Used" is based on the "Energy w/ Losses" Allocator (E1) which reflects the energy used by each jurisdiction's customers. The "Available Energy" is calculated by multiplying KCPL's total "Available Capacity" by the total hours in the subject year (8760 in non-leap years) and by the jurisdictional "Demand" Allocator (D1) which reflects the 12-CP demand from each jurisdiction's customers. The "Available Capacity" is defined as the total MWs of capacity from all sources of generation and capacity purchases that are included in the cost-of-service (revenue requirement) calculation.
- 11. The Steam Production Plant Allocator for the Company's Kansas jurisdiction is based on Kansas's allocation of steam production plant as a percentage of total Company steam production plant. For purposes of the ECA, steam production plant is allocated among the Company's Kansas, Missouri and wholesale jurisdictions based on two methods: (1) an energy allocator for environmental-related plant; and (2) a 12CP demand allocator for all other plant.
- 12. This tariff is subject to the Company's KCPL's Rules and Regulations as approved by the State Corporation Commission of Kansas.
- 13. This tariff is subject to all applicable Kansas statutes and regulations regarding the filing and investigation of complaints on unreasonable, unfair or unjust rates.

Replacing Schedule 31 Sheet 4

Rate Areas No. 2 & 4

(Territory to which schedule is applicable)

which was filed

~~August 1, 2009~~  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 4 of 6 Sheets

**SMALL GENERAL SERVICE  
Schedule SGS**

(Continued)

**REACTIVE DEMAND ADJUSTMENT (Secondary and Primary Service):**

Company may determine the customer's monthly maximum 30-minute reactive demand in kilovars. In each month a charge of ~~\$0.667~~ <sup>→ 0.621</sup> per month shall be made for each kilovar by which such maximum reactive demand is greater than fifty percent (50%) of the customer's Monthly Maximum Demand (kW) in that month. The maximum reactive demand in kilovars shall be computed similarly to the Monthly Maximum Demand as defined in the Determination of Demands section.

**MINIMUM MONTHLY BILL:**

The Minimum Monthly Bill shall be equal to the sum of the Customer Charge, Facilities Charge, and Reactive Demand Adjustment.

**UNMETERED SERVICE:**

Unmetered secondary service refers to electric service which is not measured by a kWh meter or by a kWh/demand meter. This type of service usually applies to delivery points for which it is impractical or difficult to install and read meters. The usage and demand are calculated by using typical hours of use and rated equipment loads.

**SUMMER AND WINTER SEASONS:**

The Summer Season is four consecutive months, beginning and effective May 16 and ending September 15, inclusive. The Winter Season is eight consecutive months, beginning and effective September 16 and ending May 15. Customer bills for meter reading periods including one or more days in both seasons will reflect the number of days in each season.

**ENERGY COST ADJUSTMENT:**

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

**CUSTOMER DEFINITIONS:**

Secondary Voltage Customer - Receives service on the low side of the line transformer

Primary Voltage Customer - Receives service at Primary voltage of 12,000 volts or over but not exceeding 69,000 volts. Customer will own all equipment necessary for transformation including the line transformer.

Water Heating Customer - Customer connected prior to March 1, 1999, that receives service through a separately metered circuit as the sole means of water heating with an electric water heater of a size and design approved by the Company.

KANSAS CITY POWER & LIGHT COMPANY

(Name of Issuing Utility)

Replacing Schedule 34 Sheet 6

Rate Areas No. 2 & 4

(Territory to which schedule is applicable)

which was filed

~~August 1, 2007~~  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 6 of 8 Sheets

**LARGE POWER SERVICE  
Schedule LPS**

(Continued)

**REACTIVE DEMAND ADJUSTMENT (Secondary, Primary, Substation, and Transmission Service):**

Company may determine the customer's monthly maximum 30-minute reactive demand in kilovars. In each month a charge of ~~\$0.557~~ <sup>0.621</sup> per month shall be made for each kilovar by which such maximum reactive demand is greater than fifty percent (50%) of the customer's Monthly Maximum Demand (kW) in that month. The maximum reactive demand in kilovars shall be computed similarly to the Monthly Maximum Demand as defined in the Determination of Demands section.

**MINIMUM MONTHLY BILL:**

The Minimum Monthly Bill shall be equal to the sum of the Customer Charge, Facilities Charge, Demand Charge, and Reactive Demand Adjustment.

**SUMMER AND WINTER SEASONS:**

The Summer Season is four consecutive months, beginning and effective May 16 and ending September 15, inclusive. The Winter Season is eight consecutive months, beginning and effective September 16 and ending May 15. Customer bills for meter reading periods including one or more days in both seasons will reflect the number of days in each season.

**ENERGY COST ADJUSTMENT:**

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

**CUSTOMER DEFINITIONS:**

- Secondary Voltage Customer - Receives service on the low side of the line transformer.
- Primary Voltage Customer - Receives service at Primary voltage of 12,000 volts or over but not exceeding 69,000 volts. Customer will own all equipment necessary for transformation including the line transformer.
- Substation Voltage Customer - Service is taken directly out of a distribution substation at primary voltage. The customer will own the feeder circuits out of this substation.
- Transmission Voltage Customer - The customer owns, leases, or otherwise bears financial responsibility for the distribution substation. Service is taken off of the Company's transmission system.

**MUNICIPAL ORNAMENTAL STREET LIGHTING SERVICE**  
**Schedule MOL**

**AVAILABILITY:**

Available for ornamental street lighting service through a Company-owned Street Lighting System within corporate limits of a municipality.

**TERM OF CONTRACT:**

Contracts under this schedule shall be for a period of not less than ten years from the effective date thereof. Termination prior to end of 10-year period results in a one-time charge equal to the Company's actual investment less depreciation.

**RATE (High Pressure Sodium Vapor):**

1.0 Basic Installation:

Street lamps equipped with ornamental luminaire on ornamental poles served from underground extensions not in excess of 200 feet per unit:

Size of Lamp	Total Charge	Total Charge
	per Lamp per Month <u>Under Sod</u>	per Lamp per Month <u>Under Concrete</u>
1.1 9500 Lumen High Pressure Sodium (100-watt)	\$51.35 <u>57.01</u>	\$75.44 <u>81.10</u>
1.2 16000 Lumen High Pressure Sodium (150-watt)	\$52.47 <u>58.41</u>	\$76.56 <u>82.50</u>

Company inventory availability as follows <sup>(1,2)</sup>:

Luminaire: Standard Ornamental

Post: 12-foot cast aluminum with 4 inch diameter shaft

Base: Standard Screw-in Base

<sup>(1)</sup> If any equipment becomes obsolete, then new installations will be accomplished with the most appropriate available equipment by mutual agreement of the Company and the Municipality.  
<sup>(2)</sup> Any changes to above listed standard equipment will incur additional monthly facilities charges.

**NOTE:** Wattage specifications do not include wattage required for ballast.

09-KCPE-246-RTS  
Approved

**ENERGY COST ADJUSTMENT:**

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

**OFF-PEAK LIGHTING SERVICE**  
**Schedule LS**

**AVAILABILITY:**

For secondary electric service through one meter for lighting service which is controlled with a photo-electric cell or other positive controlled device which restricts service to non-daylight hours. At the Company's discretion, the metering requirement may be eliminated for some unmetered lights connected prior to March 1, 1999, where it is economical for the Company to do so. Usage for unmetered lights will be estimated using wattage ratings and hours usage.

Standby, breakdown, supplementary, temporary or seasonal service will not be supplied under this schedule.

**TERM OF CONTRACT:**

Contracts under this schedule shall be for a period of not less than one year from the effective date thereof.

**RATE:**

~~4.7600~~ per kwh for all kwh per month.  
5.3060

Monthly service facilities charge shall be equal to 1.50% of the total installed cost of the Company's lighting service facilities in excess of ordinary metering and transformation facilities as determined at the time of any installation, extension, addition or betterment of the Company's service facilities. The monthly service facilities charge shall remain in effect until the Company's investment in such facilities is recovered.

**TAX ADJUSTMENT:**

Tax Adjustment Schedule TA shall be applicable to all customer billings under this schedule.

**ENERGY COST ADJUSTMENT:**

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

**REGULATIONS:**

Subject to Rules and Regulations filed with the State Regulatory Commission.

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 1 of 4 Sheets

**PRIVATE UNMETERED PROTECTIVE LIGHTING SERVICE**  
**Schedule AL**

**AVAILABILITY:**

For unmetered protective lighting service for private entrances, exits, yards, driveways, streets, alleys, walkways and other all-night outdoor private areas on existing customer's premises. Not available for municipal street, park or other public lighting, or for temporary service.

**RATE:**

**A. Base Charge:**

The monthly rate for each private lighting unit installed on an existing wood pole and using existing secondary circuits is as follows:

	<u>Area Lighting</u>	<u>Flood Lighting</u>
5800 Lumen High Pressure Sodium Unit (70-watt)	<del>\$11.98</del> 13.30	
8600 Lumen Mercury Vapor Unit* (175-watt)	<del>\$12.46</del> 13.89	
16000 Lumen High Pressure Sodium Unit (150-watt)		<del>\$19.76</del> 22.03
22500 Lumen Mercury Vapor Unit* (400-watt)	<del>\$20.10</del> 22.91	
22500 Lumen Mercury Vapor Unit* (400-watt)		<del>\$21.39</del> 23.85
50000 Lumen High Pressure Sodium Unit (400-watt)		<del>\$33.88</del> 37.55
63000 Lumen Mercury Vapor Unit* (1000-watt)		<del>\$26.57</del> 40.77

\* Limited to the units in service September 30, 1985, until removed.

NOTE: Wattage specifications do not include wattage required for ballast.

**B. Additional Charges:**

If an extension of the Company's secondary circuit or a new circuit is required either on or off the customer's premises to supply service hereunder at the location or locations desired on the customer's premises, the above monthly rate shall be increased as follows:

Each 30-foot ornamental steel pole installed	<del>\$8.98</del> 10.01
Each 35-foot ornamental steel pole installed	<del>\$9.86</del> 10.99

KANSAS CITY POWER & LIGHT COMPANY

(Name of Issuing Utility)

Replacing Schedule 71 Sheet 2

Rate Areas 2 & 4

(Territory to which schedule is applicable)

which was filed

August 1, 2009  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 2 of 4 Sheets

**PRIVATE UNMETERED PROTECTIVE LIGHTING SERVICE**

Schedule **AL**

(Continued)

**B. Additional Charges (continued)**

Each 30-foot wood pole installed	<del>\$5.50</del>	<u>6.20</u>
Each 35-foot wood pole installed	<del>\$6.44</del>	<u>7.18</u>
Each overhead span of circuit installed	<del>\$4.75</del>	<u>1.93</u>

If the installation of additional transformer facilities is required to supply service hereunder, the above monthly rate shall be increased by a charge equal to one and three-fourths percent of the Company's total investment in such additional transformer facilities.

If the customer requires underground service, the customer will be responsible for installing all underground ductwork in conformance with Company specifications and the Company will be responsible for installing cable and making the connection to Company facilities. There will be an additional ~~\$2.44~~ per month charge for each underground lighting unit served. If the underground conduit exceeds 300 feet in length, there will be an additional charge of ~~\$2.44~~ per month per 300 foot length, or fraction thereof. 2.72

2.72

**BILLING:**

The charges for service under this schedule shall appear as a separate item on the customer's regular electric service bill.

**TERM:**

The minimum initial term under this rate schedule shall be one year. However, if the private lighting installation requires extension of the Company's service facilities of more than one pole and one span of circuit or the installation by the Company of additional transformer facilities, the customer shall be required to execute a service agreement with an initial term of three years.

**UNEXPIRED CONTRACT CHARGES:**

If the contracting customer terminates service during the initial term of the agreement, and a succeeding customer does not assume the same agreement for private lighting service at the same service address, the contracting customer shall pay to the Company unexpired contract charges equal to the monthly rate times the number of remaining months in the contract period.

**ENERGY COST ADJUSTMENT:**

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
**Schedule TR**

**AVAILABILITY:**

Available for traffic control signal service through a Company-owned Traffic Control System within corporate limits of a municipality.

**TERM OF CONTRACT:**

Contracts under this schedule shall be for a period of not less than ten years from the effective date thereof.

**RATE: Basic Installations.**

- (1) Individual Control. This basic installation consists of four mounted 3-light signal units all with 8-inch lenses, and is operated by its own controller (having no more than fourteen signal circuits), which is activated by a synchronous motor. The monthly rate for this basic installation is ~~\$135.50~~ **151.14**
- (2) Suspension Control.

- (a) 4-Way, 3-Light Signal Unit. This basic installation consists of four 3-light signal units all with 8-inch lenses mounted by pipe fittings with the entire assembly suspended from an overhead messenger or from a mast arm with a minimum clearance distance of 15 feet above the roadway. The installation is operated by its own controller, which is activated by a synchronous motor. The monthly rate for this basic installation is ~~\$63.05~~ **70.2**. The suspension system for this signal unit is provided for under Supplemental Equipment, Mast Arm, Wood Pole Suspension or Steel Pole Suspension. Supplemental 3-light signal units may be added to this basic installation only if they are hung on the same suspension system as the initial units. If pole mounted units are requested, this basic installation shall be considered changed to an Individual Control with its concomitant rate and the suspension equipment shall be considered supplemental equipment with its concomitant rates.

Sheet 3 of 10 Sheets

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
Schedule TR (Continued)

RATE: Basic Installations. (continued)

(5) Coordinated Multi-Dial Control. This basic installation is available only if capacity is available in existing facilities as determined by the Company and consists of an Individual Control installation, controlled by either a 2-dial or a 3-dial controller. The timing of the controller is coordinated with another controlled intersection by means of interconnecting cable. The monthly rate for this basic installation is ~~\$199.40~~ **222.29** including an extension of no more than 600 feet of interconnecting coordinating cable from the nearest coordinated intersection with which such intersection is to be coordinated (measured in a straight line from the centers of the two intersections). That portion of an extension in excess of 600 feet of interconnecting coordinating cable is provided for at the rate for Supplemental Equipment, Excess Coordinating Cable. If a coordinated intersection is installed between two existing coordinated intersections on an existing interconnecting coordinating cable supplying such two intersections, any charge for Excess Coordinating Cable shall be recalculated to reflect the newly-created distances between the intersections involved.

(6) Multi-Phase Electronic Control. This basic installation consists of an electronic controller (Eagle Modovac type or equal) complete with cabinet, power supply and load relays; additional equipment as required, and all necessary interconnecting cables. This basic installation is limited to those installations where such basic installations are installed and operating on September 30, 1985, and where such basic installations are operated continuously thereafter. The monthly rate for this basic installation determined on an individual intersection basis is as follows:

Lenexa, Kansas	<del>70<sup>th</sup> &amp; Quivira</del>	<del>\$422.45</del>
	<del>87<sup>th</sup> &amp; Quivira</del>	<del>\$628.87</del>
Merriam, Kansas	<del>50 Hwy &amp; Antioch</del>	<del>\$362.10</del>
	<del>67<sup>th</sup> &amp; Antioch</del>	<del>\$494.29</del>

Replacing Schedule 74 Sheet 5

Rate Area 2

(Territory to which schedule is applicable)

which was filed

August 1, 2009  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 5 of 10 Sheets

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
**Schedule TR**

(Continued)

RATE: Supplemental Equipment. (continued)

(3) 3-Light Signal Unit. (continued)

This supplemental equipment can be used with the basic 4-Way 3-Light Suspension Control Signal Unit only if the signal units are hung on the same suspension system as the initial units.

(4) 2-Light Signal Unit. This supplemental equipment consists of one 2-light signal unit with 8-inch lenses installed at any controlled intersection where the 2-light signal unit can be connected to the existing control cable and controller at such intersection. The 2-light signal unit may have one lens worded "Walk" and the other lens worded "Wait", if specified by the customer. The monthly rate for this supplemental equipment is ~~\$18.75~~ 20.90

(5) 1-Light Signal Unit. This supplemental equipment consists of one 1-light signal with an 8-inch lens installed as an addition to an existing signal unit at any controlled intersection where the 1-light signal unit can be connected to the existing control cable and controller at such intersection. The monthly rate for this supplemental equipment is ~~\$5.75~~ 6.41

(6) Push Buttons, Pair. This supplemental equipment consists of a pair of push buttons for pedestrian actuation which may be installed as pedestrian actuation devices at a basic Individual Control installation where Treadle Detectors or Loop Detectors are used or as additional stations at a basic Pedestrian Push Button Control installation and which can be connected to the existing control cable and controller at such installation and operated by the existing controller at such installation by the addition of necessary cams and relays. The monthly rate for this supplemental equipment is ~~\$2.61~~ 2.91

(7) 12-Inch Round Lens. This supplemental equipment consists of a 12-inch diameter round lens and one 116-watt traffic signal type lamp which are substituted for an 8-inch lens and one 69-watt lamp. The monthly rate for this supplemental equipment is ~~\$4.53~~ 5.05

(8) 12-Inch Square Lens. This supplemental equipment consists of a 12-inch square lens and one 116-watt traffic signal type lamp which are substituted for an 8-inch lens and one 69-watt lamp. The monthly rate for this supplemental equipment is ~~\$7.26~~ 8.09

Replacing Schedule 74 Sheet 6

Rate Area 2

(Territory to which schedule is applicable)

which was filed August 1, 2009  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 6 of 10 Sheets

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
**Schedule TR**

(Continued)

RATE: Supplemental Equipment. (continued)

- (9) 9-Inch Square Lens. This supplemental equipment consists of a 9-inch square lens and one 116-watt traffic signal type lamp which are substituted for an 8-inch lens and one 69-watt lamp. The monthly rate for this supplemental equipment is ~~\$5.09~~ **5.67**
- (10) Fiber Optic Arrow Lens. This supplemental equipment consists of an arrow-forming series of apertures powered by two 42-watt lamps which supply illumination to such apertures by means of optic fibers. The monthly rate for this supplemental equipment is ~~\$20.00~~ **32.33**
- (11) Directional Louvre. This supplemental equipment consists of one special 8-inch or 12-inch directional louvre visor which is substituted for one standard visor. The monthly rate for this supplemental equipment is ~~\$1.48~~ **1.33**
- (12) Vehicle - Actuation Units.
  - (a) ~~Treadle Detector~~. This supplemental equipment consists of one Pressure sensitive treadle detector installed in the pavement so that the pressure of passing vehicles operates the controller at the intersection. A treadle detector may be 6 feet or 8 feet in length and of the directional or non-directional type. The monthly rate for this supplemental equipment is ~~\$22.80~~.
  - (b) Loop Detector.
    - (i) Single. This supplemental equipment consists of one loop detector and one loop installed in the pavement so that vehicles passing over the loop operate the controller at the intersection. The monthly rate for this supplemental equipment is ~~\$22.98~~ **26.73**
    - (ii) Double. This supplemental equipment consists of one loop detector and two loops installed in the pavement so that vehicles passing over the loops operate the controller at the intersection. The monthly rate for this supplemental equipment is ~~\$38.01~~ **42.37**

~~\*Treadle detectors shall not be used for new installations or replacements after September 9, 1974.~~

Rate Area 2

(Territory to which schedule is applicable)

which was filed

August 1, 2009  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 7 of 10 Sheets

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
**Schedule TR**

(Continued)

RATE: Supplemental Equipment. (continued)

(13) Flasher Equipment. This supplemental equipment consists of the necessary clock-controlled flasher equipment so that all signals at a controlled intersection may flash amber to traffic on the main street and flash red to traffic on the cross street during certain preset periods of time. The monthly rate for this supplemental equipment is ~~\$6.93~~ **7.73**

(14) Mast Arm.

~~(a) Style 1. This supplemental equipment consists of presently installed "wind brace" style steel mast arms not to exceed 25 feet in length supported on a steel pole which may or may not also support a street lighting unit. The mast arm shall provide a minimum clearance for the traffic signal unit of 15 feet above the street. The monthly rate for this supplemental equipment, including pole, one mast arm, wiring cable, and traffic signal unit attachments, but excluding the traffic signal unit, is \$31.11. Mast arms of this type shall not be used for new installations after September 9, 1974.~~

(b) Style 2. This supplemental equipment consists of a steel mast arm not to exceed 30 feet in length supported on a steel pole which may or may not also support a street lighting unit. The pole and mast arm shall be of a "classic" style with standard mast arm lengths of 15, 20, 25 or 30 feet, providing a minimum clearance for the traffic signal unit of 15 feet above the street. The monthly rate for this supplemental equipment, including pole, one mast arm, wiring cable, and traffic signal unit attachments, but excluding traffic signal unit, is ~~\$31.11~~ **34.68**

(c) Style 3. This supplemental equipment consists of a steel mast arm over 30 feet but not to exceed 38 feet in length, supported on a steel pole which may or may not also support a street lighting unit. The pole and mast arm shall be of a "classic" style with standard mast arm lengths of 35 and 38 feet, providing a minimum clearance for the traffic signal unit of 15 feet above the street. The monthly rate for this supplemental equipment, including pole, one mast arm, wiring cable and traffic signal unit attachments, but excluding traffic signal unit, is ~~\$31.34~~ **34.94**

Replacing Schedule 74

Sheet 9

Rate Area 2

(Territory to which schedule is applicable)

which was filed

August 1, 2009  
~~November 20, 2007~~

No supplement or separate understanding shall modify the tariff as shown hereon.

Sheet 9 of 10 Sheets

**MUNICIPAL TRAFFIC CONTROL SIGNAL SERVICE**  
**Schedule TR**

(Continued)

RATE: Supplemental Equipment. (Continued)

(20) Preemption Control for Emergency Equipment. This supplemental equipment consists of an activation switch, interconnecting cable, and an interface with the traffic signal controller that allows emergency vehicles to preempt the normal signal sequence. The activation switch is located in a fire station or other emergency facility. The monthly rate for this supplemental equipment is ~~\$44.22~~ 49.30. Availability of this rate is subject to the discretion of the Company.

(21) Optically Activated Traffic Signal Priority Control System. This supplemental equipment consists of one D harness and preempt panel, one phase selector, required optical detectors, one interface card rack, optical detector cable of up to 1000 feet in length, mounting brackets, and system control software. This equipment provides optically activated priority control over the traffic signals in one intersection. The monthly rate for this system is ~~\$130.34~~ 145.30 for each intersection. The system is activated remotely with a data encoded emitter that is installed on emergency vehicles. Customers are responsible for the purchase and installation of all data encoded emitters used on the customers' emergency vehicles, so the cost of such emitters is not included in the above monthly rate. Additionally, the cost of any upgrades of existing equipment necessitated by installation of this system is not included in the rate.

(22) Audio Warning Systems for the Visually Impaired. For each intersection including the described supplemental equipment, the customer will be billed one of the following rates:

Rate A: For a Standard Intersection consisting of 4 street corners with crossings in 2 directions from each corner:

8 Navigator pedestrian push button stations using 2-wire technology, with 5" x 7" international walking signs, with Braille inscriptions on the push button units.

1 Central control unit mounted in the cabinet.

The monthly rate for this system is ~~\$264.65~~ 317.32 per intersection.

09-KCPE-246-RTS  
Approved  
Kansas Corporation Commission  
July 24, 2009  
/s/ Susan K. Duffy

Rate B: For Non-Standard Intersections:

The monthly rate is ~~\$135.14~~ 150.62 for the central control unit plus ~~\$18.70~~ 20.85 per each required station using 2-wire technology, 5" x 7" signs and Braille inscriptions.

Additionally, the cost of any upgrades of existing equipment necessitated by installation of a ~~system~~ must be paid.

RATE: Supplemental Equipment. (Continued)

(23) Camera Video Detection System. For each standard intersection including the described supplemental equipment, the customer will be billed the shown rate:

For a Standard Intersection consisting of 4 directional traffic flows:

- 4 Image sensors (cameras) with luminaire arm mounting bracket.
  - 4 Image sensor harnesses.
  - 1 Interface panel.
  - 1 Detector port master with harness.
- Plus required cable and software package.

The monthly rate for this system is ~~\$670.37~~ <sup>979.19</sup> per intersection.

Additionally, the costs of any upgrades of existing equipment necessitated by installation of a system must be paid.

The monthly rates for each type of Supplemental Equipment at an intersection are in addition to the monthly rate for the Basic Installation at that intersection.

TAX ADJUSTMENT:

Tax Adjustment Schedule TA shall be applicable to all customer billings under this schedule.

ENERGY COST ADJUSTMENT:

Energy Cost Adjustment, Schedule ECA, shall be applicable to all customer billings under this schedule.

GENERAL RULES AND REGULATIONS APPLYING TO ELECTRIC SERVICE (continued)

6. CUSTOMER'S SERVICE OBLIGATIONS (continued)

6.10 TAMPERING WITH COMPANY FACILITIES:

The Company may discontinue service to a customer and remove its facilities from the Customer's premises, pursuant to Rule 5, when evidence is found that any portion of the Company's facilities has been tampered with in such manner that the Customer may have received ~~unmetered~~ <sup>unauthorized</sup> service. In such event, the Company may require the Customer to pay for such amount of electric service as the Company may estimate from available information to have been used, but not registered by the Company's meter, and to increase the amount of his cash deposit or indemnity bond or other credit arrangement in accordance with 3.03(B) before electric service is restored; and, in addition thereto, the Customer shall be required to bear all costs incurred by the Company for such protective equipment as, in the judgment of the Company, may be necessary.

6.11 ATTACHMENTS TO COMPANY'S FACILITIES:

Except upon prior written consent of the Company, no person shall attach anything of any kind or nature to the electric facilities of the Company wherever located and the Company reserves the right to remove forthwith and without notice any unauthorized attachment to its facilities.

6.12 INDEMNITY TO COMPANY:

The Customer shall indemnify, save harmless and defend the Company against all claims, demands, cost or expense, for loss, damage or injury to persons or property, in any manner directly or indirectly connected with, or growing out of the distribution or use of electric service by the Customer at or on the Customer's side of the point of delivery.
