RE: Docket No. 19-CONS-3003-CEXC  
Application to Extend Plugging  
Wheeler F #1 Section 34-27S-19W  
Kiowa County, KS

Dear Commissioners,

Morning Star Farms, GP is the operating tenant of the surface location being utilized for the Wheeler F #1 well bore. Both the well location and the lease road interfere with our farming practices on this location and we object to any extension of time for TGT to plug this non-producing well bore.

The presence of this temporarily abandoned well not only causes revenue loss, there is also the possibility of casing leaks that can potentially contaminate the water resources on this land and surrounding land.

Please require TGT to plug this well bore immediately.

Thank you,

  
Roger Stotts
