### **TARIFF FORMAT**

**Page Numbering** - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially and from time to time new pages may be added to the Tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Page No. 3 and Page No. 4 would be numbered Page No. 3.1.

**Paragraph Numbering Sequence** - There are generally 4 levels of paragraph coding associated with this Tariff. Each level of coding is subservient to the next higher level:

1. Sample
  - A. Sample
    - i. Sample
      - a. Sample

**Check Sheets** - When a Tariff filing is made with the Commission, an updated Check Sheet accompanies the Tariff filing. The Check Sheet lists the pages contained in the Tariff, with a cross reference to the current page number. When new pages are added, the check sheet is changed to reflect the revisions; all revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page, if these are the only changes made to it. The Tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.
