Docket # 19-CONS-3233-CPEN

Kansas Corporation Commission

Attn: Lauren Wright

I hereby request a hearing to discuss the status of the well listed below. I received the letter from your office on January 17<sup>th</sup> stating I was in violation for the listed wells being abandoned. I did not receive approval for the wells to be up and running until Jan. 31<sup>st</sup>. This gives very little time to have the wells up and running by Feb. 19<sup>th</sup>. We have also had a run of bad weather that has contributed to the delay on getting the wells running. Again, none of the mentioned wells have been abandoned. I am requesting a response back either by phone or mail to have a hearing date set to discuss this matter in further detail.
