Subject: Invoice #H000579776

Dear Sir/Madam:

We received the above referenced invoice in the mail today for a traffic stop on Wednesday, April 16th.

Following are documents, the CAB Card from the vehicle in question, and a print out of the Kansas Department of Revenue's webpage. The CAB Card shows the 2004 International's gross weight at 24,000 pounds, and the webpage states, "You must have a Commercial Driver's License to operate any single vehicle with a gross vehicle weight of 26,001 pounds or more."

Because of this documentation, we feel this invoice has been sent in error.

Should you need additional information, please contact me. We await your response.

Sincerely,

Catherine Holmes
Office Manager

REQUIREMENTS: Effective on or after July 1, 2018, Kansas law (KSA 8-2-157) will require all CDL holders to complete "Randoms Against the Odds" training before being issued or renewed their CDL license. The training includes a brief self-assessment form and successfully answering questions about it. This video and test takes about 30 minutes and is free of charge. It must be completed only once, not each time a driver renews. The required training can be completed in any of the following ways: (1) through a self-paced online course, (2) through a classroom course, or (3) through a combination of the two. The training will be available on the Kansas Department of Transportation website and through various other sources. If you are issued or renewed before July 1, 2018, the certificate will not be required or accepted until your next renewal. Please note, conducting the training online and passing the exam with a perfect score will not earn a license renewal at the same station.
