130 S Market, Room 2078  
Wichita, KS 67202

Dear Sirs:

On May 21, 2014 I received a very incomplete U-1 from Hawkins Oil Company. I have enclosed a copy of what was received by us in its entirety, not completed, no attachments, nothing else! I also have enclosed a copy of Te-Pe Oil & Gas page 4 from the U-1 of our Carter and Kramer, etc. leases in Sec 28 for reference. We have several Arbuckle and Kansas City producing wells on our leases and will hereby protest this application made by Hawkins Oil Company.

Mr. Hawkins has not even made an intelligent attempt to make an application and it is insulting to me that he would even consider sending something such as this to us. I also am wondering how he came about getting so far as to have the permit number?

If you would please let me know what he is doing I would appreciate it. I will also be in contact with Mr. J. Hunt Hawkins and convey my feelings to him.

Terry P. Bandy, Owner/Operator
