RE: 21-EKME-320-TAR, Residential Rebate Program Annual Report

To Whom It May Concern:

Please find attached Evergy Kansas Metro's 2024 Residential Rebate Program Annual Report as required by Commission Order in Docket No. 21-EKME-320-TAR.

"Annual Report will be submitted to the Commission on April 30 for the previous calendar year for each jurisdiction and program. At a minimum, the Annual Report will include:

- Number of customers that utilized the program by year
- Number of customers that enrolled in a TOU rate from this effort
- Changes in TOU rate enrollment after initial enrollment
- Summary of rebate application information, such as make/model of EV
- Summary of Marketing efforts
- Detailed budget information
- Estimated amount of off peak charging
- Update on budget variances
- Circuit breaker size distribution
- Interval Usage data on up to 5 TOU and non-TOU customers for Summer and Winter Peak Months.

The report will be provided by Evergy for the period of the approved programs under this docket."

Please let me know if you have any questions.

Sincerely,

Shelley Terhune

Shelley Terhune
Regulatory Affairs

Evergy Kansas Metro Transportation Electrification (TE) Residential Rebate Program 2024
Annual Report
21-EKME-320-TAR

1. Number of customers that utilized the program by year.

For the 12 months ending December 31, 2024, Kansas Metro had 1156 Residential Rebate program participants.

2. Number of customers that enrolled in a TOU rate from this effort.

As a result of this program, 42 customers enrolled in a TOU rate. See TOU Enrollment pages 32 to 33.

3. Changes in TOU rate enrollment after initial choice. The number of customers adding or dropping later.

There were 46 changes to the TOU rate enrollment after the customers made their initial choice. Details are on page 35 and 36.

4. Summary of information identified by Evergy within the rebate application, such as make/model of EV, etc.

A Summary from the rebate applications of make and models of EV is on pages 38 to 58. Additional detail starts on page 59.

5. Summary of marketing efforts.

Marketing efforts are detailed in the Transportation Electrification Marketing Summary 2024, that starts on page 78.

6. Detailed budget information.

The 5-year TE Marketing and Customer Education budget for Evergy KS Metro starts on page 103.

7. Estimated amount of off peak charging for each methodology used by Evergy to make the estimate.

Our Final EM&V report will be completed by December 2026 which will include the estimated amount of off-peak charging.

8. Update on budget variances in item IV.

See page 106 for the TE Program Budget and Variance.

9. 240 circuit breaker size distribution (as installed).

A summary of the circuit breaker size distribution is located on page 37.

10. Interval data for one summer peak month and one winter peak month.

- Up to five customers from each category (i.e. TOU and non-TOU)

The July 2024 interval data of 5 customers TOU and 5 customers non-TOU for the summer peak, and the January 2024 interval data for the winter peak interval data of 5 customers TOU and 5 customers non-TOU is provided in the report.

Transportation Electrification

Marketing Summary 2024

Executive Summary

- Rebate submission activity with Evergy residential customers **increased 33.89% YoY** with the highest performing quarter to date in Q4 2024.
- **EV paid search for residential and commercial outpaced** all other marketing tactics boosting rebate submission activity. We will continue to learn from and expand our search terms to maintain a competitive presence.
- Email remained true as the **most cost-effective tactic** for trackable conversions. Insights gained from email will help shape future targeting strategies.
- Webinars helped increase interest, email engagement, and rebate activity for non-residential customers with a **5.45% YoY increase** in applications submitted to Evergy.
- Monitoring **evolving EV market trends** will continue to provide valuable insights for marketing opportunities to engage both residential and non-residential customers at optimal points in their decision-making journey.

Performance

- Evergy residential EV rebate submissions reached a record high in Q4 2024, surpassing our annual goal of 1,520 by 1 rebate submitted.
- Commercial EV rebate activity also increased in 2024, with marketing surpassing the rebate submission goal of 55 for the year by 3 submissions.

The below chart depicts the number of EV rebates submitted each month for both residential and non-residential in 2024:

	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEPT	OCT	NOV	DEC	TOTAL
Residential	118	103	119	114	116	112	106	132	132	140	141	188	1,521
Commercial	13	6	2	6	4	3	1	5	5	2	2	9	58

Residential Electrification Marketing

Residential 5-Year Marketing Plan

For each phase of the customer journey, high level strategy will focus on three key categories, with many activities in each. The marketing plan and strategy will continue to adapt to changing program needs.

	Year 1	Year 2	Year 3	Year 4	Year 5
EV Awareness, Interest, Evaluation	Advertising: Digital EV education Targeted events: Re-launch ride and drives at Connect and with MEC and limited awareness events	Advertising: Digital EV education Targeted events: Permanent ride and drives at Connect, MEC events and expansion of targeted events	Advertising: Digital EV education and real-world deployments Targeted events: Permanent ride and drives at Connect, expansion of partnership events and expansion of targeted events with developing partnerships	Advertising: Digital EV education & real-world deployments Targeted events: Permanent ride and drives at Connect, expansion of events and expansion of targeted events with established partnerships Web content: Develop additional resource content to enhance the customer journey	Advertising: Digital EV education & real-world deployments Targeted events: Permanent ride and drives at Connect, expansion of events and expansion of targeted events with established partnerships Web content: Develop additional content to enhance the customer journey
EV Purchase	Advertising: Digital & 1:1 rebate and off-peak charging advertising P-O-S materials: Identify key dealerships to provide with educational materials Strategy Preparation: New MO TOU rates	Advertising: Digital & 1:1 rebate, off-peak charging, and TOU rate advertising P-O-S materials: Develop plan to expand key dealerships Strategy Preparation: New KS TOU rates	Advertising: Digital & 1:1 rebate, off-peak charging and TOU rate advertising P-O-S materials: Engage with key dealerships	Advertising: Digital & 1:1 rebate, off-peak charging, and TOU rate advertising P-O-S materials: Expand key dealership communications	Advertising: Digital & 1:1 rebate off-peak charging, and TOU rate advertising P-O-S materials: Expand key dealership communications
EV Ownership	Advertising: Digital & 1:1 rebate and off-peak charging advertising Driver engagement: Develop and launch monthly engagement piece and support driver led events Reporting: Develop driver reporting	Advertising: Digital & 1:1 rebate and off-peak charging advertising Driver engagement: Deploy monthly engagement piece and support driver led events Reporting: Develop driver reporting in partnership	Advertising: Digital & 1:1 rebate and off-peak charging advertising Driver engagement: Deploy monthly engagement piece and support driver led events Reporting: Deploy driver reporting Investigate: Managed charging platforms to implement in Y4	Advertising: Digital & 1:1 rebate and off-peak charging advertising Driver engagement: Deploy monthly engagement piece and support driver led events EV charging vendor engagement: Digital & event rebate partnerships Reporting: Deploy driver reporting Education: Managed charging platform	Advertising: Digital & 1:1 rebate and off-peak charging advertising Driver engagement: Deploy monthly engagement piece and support driver led events EV charging vendor engagement: Digital & event rebate partnerships Reporting: Deploy driver reporting Education: Managed charging platform

Residential Marketing Strategy

- 1. Promote electric vehicle charging rebates to identified or potential EV drivers in areas where availability of electric vehicle charging is lacking for the EV driver population.**
- 2. Educate EV drivers with managed charging educational messaging using Evergy-owned channels.**
- 3. Work with area dealerships to promote Evergy charging rebates during the vehicle-purchase phase.**

How will we do this?

- Target EV underserved Kansas and Missouri counties through both the Kansas and Missouri customer product journeys (Email → Direct Mail → Social Media)
- Clear messaging on rebate incentives available and the requirements prior to application process (i.e., how to maximize savings for Kansas customers)
- Tailor specific messaging to EV drivers identified within HEA completions
- Promote rebates primarily through Evergy-owned channels and direct mail
- Participate in various well-attended electric vehicle events in Kansas and Missouri underserved areas to further discussion on rebates and managed charging education

Residential Audience Segmentation

Audience	Customers who are nearing or who are at point-of-purchase	Existing EV owners	Customers with interest in EVs who plan to purchase within 1-3 years
Goals	Educate customers on EV charging rebates available	Engage to act on rebates available + promote off-peak charging education	Educate on benefits of driving electric, rebates available, and incorporate charging behavior
Primary Tactics	Email, Digital, Social, Events, Web, Bill Insert, Webinars	Email, Digital, Social, Events, Web, Bill Insert	Email, Digital, Social, Events, Web, Bill Insert

If you own an electric vehicle, you probably know that fully charging it through a regular 120v home outlet takes a full day or more. **Not exactly convenient.**

Installing a 240v charging outlet in your garage means your car can charge in hours instead of days, up to 5 times faster.

Depending on your home's configuration, installing faster charging, also called Level 2 charging, averages between \$1,000 to \$2,000 in our area. But Evergy offers a rebate that can make a big dent in that expense.

KANSAS	KANSAS & MISSOURI
GET A \$250 Rebate	GET A \$500 Rebate
to install Level 2 charging	for installing Level 2 charging AND enrolling in our Time of Use rate plan

Getting the rebate is easy. Have a licensed electrician install a 240-volt, 40A circuit with a NEMA 14-50 outlet or a hardwired charging station at your home. Then submit the receipt within six months and get the rebate. **Now that's convenient!**

[Learn More >](#)

Paid Search brought the highest amount of traffic and customer engagement in 2024 for Residential EV paid marketing efforts with 7,700 site sessions, which indicates we are finding customers at the right time—during the research phase for EV charging.

Curious about electric vehicles?

With the new Panasonic EV battery factory coming to DeSoto, KS, and federal tax rebates making electric vehicles more affordable, is it time to test drive an EV?

At our [Evergy Connect locations](#), you can test drive an EV without any sales pressure. Just sign up for a time slot!

Upcoming test drive events:

Wichita: March 28th; April 2nd and 11th from 9 am to 3 pm
[Info and signup >>](#)

Kansas City: March 28th and 29th; April 3rd, 4th and 5th from 9 am to 3 pm
[Info and signup >>](#)

Keep in mind: Evergy also offers an EV charging rebate of up to \$500 when you install a Level-2, 240-volt outlet or hardwired charging station at home for your electric vehicle.

EV Charging Rebate

Join the EVolution!

Customers can get up to \$500 towards the cost of installing Level 2 electric vehicle (EV) charging at home.

Scan the QR code to learn more.

Email communications outperformed all other tactics for EV residential marketing.

2024 saw 8,848 customers visit the site from Evergy-owned email communications about EV rebate, including brand emails, weekly energy reports, and product promotional emails. Due to the success in Missouri, Kansas has been added into the customer product journey for 2025.

Residential Events – Q1 and Q2 (+ Webinar)

PUBLIC

2024 KC Auto Show

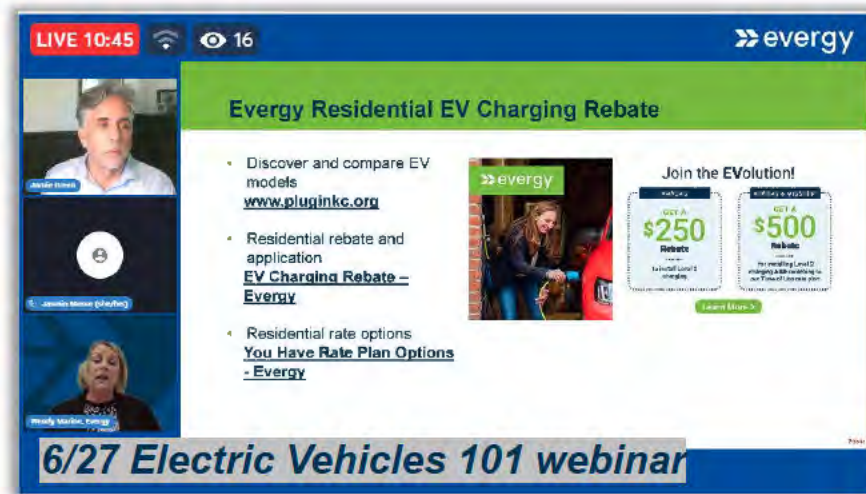

- March 14-17, 2024
- 2024 commitment negotiated down from \$20,000 to \$3,500 (co-sponsored with PIKC)
- 24,951 attendees with Evergy prominently set up at EV Test Track exit

Connect Center Test Drives

- KC & Wichita Connect: April – October
- Test drive events promoted through email, bill inserts, and Current

Electric Vehicles 101 Webinar

- June 27, 2024
- Utilized free, Evergy-owned webinar platform
- PIKC co-hosted event; 41 registrants
- Discussed electric vehicle basics, benefits, and residential charging rebate information for Missouri and Kansas Evergy customers

PUBLIC

Residential Events – Q3 & Q4

REACH Car Show

- 8/3 at Cedar Point Evergy Facility
- Classic car show benefitting Evergy's REACH foundation
- Only electric vehicle featured within classic car lineup
- ~100 attendees

Go Green Event

- 9/14 in Prairie Village, KS
- Promotion of new KS energy efficiency programs + EVs and rebate information
- Ford Mustang Mach-E and table outside
- ~140 attendees

Drive Electric Week 2024

- 9/27-10/6
- Promoted through email, social, and Current
- Participated in two events:
 - Olathe, KS EV Tailgate at Olathe Ford (10/5)

Evergy's Fleet Advisory Tool

- Evergy offers a Fleet Advisory Tool to help businesses with fleets to understand the costs and benefits of electrification.
- Our online tool guides users through fundamental questions, providing a clear picture of the high-level Return on Investment (ROI).
- The best way to understand the capabilities of this tool is to experience it firsthand...

12/5 School bus webinar

Non-Residential Events

Energy Forum

- 8/15 at Evergy's Energy Center
- 150 pre-registered attendees
- Breakout sessions on commercial EV charging
- Promoted through email, web, digital ads and news release

Charging KC

- 8/15 at Black & Veatch
- Evergy part of EV panel with PIKC and Black & Veatch
- New Mustang Mach-E fleet car, "Sally," debut outside event that evening

Next Steps

1. Further advance webinars and targeted advertising to incorporate testimonials and leverage partnerships for cross promotion
2. Continue to build upon the non-residential fleet and charging informational event strategy with a strong focus on underserved counties
3. Establish strong digital marketing presence in the research and discovery phases of EV adoption and charging infrastructure
4. Enhance consistent managed charging educational messaging (+ new KS Residential Managed Charging pilot)
5. Work with area partnerships and dealerships to ensure EV adoption needs are addressed within Evergy communities
6. Utilize momentum from 2024 efforts into planning and execution for new Fleet Advisory Services program marketing and communications

Building on the previous ramp up years, 2024 saw significant engagement growth driven by the marketing efforts to complement the five-year strategy. Much of the marketing focus was around customer reach through webinars, email, paid digital advertising and area events. A detailed marketing strategy is included in the "Transportation Electrification Marketing Summary" submitted as Report #6 as part of the Annual Reporting package.

Costs for the interim EM&V delivered in 2023, paid January 2024, and ongoing rebate administration costs are the bulk of the Program Administration costs in 2024.

The 2025 Marketing budget is \$500,000
