Kansas City Power & Light Company)
for a Waiver Regarding the Kansas)
Renewable Energy Standards Act for 2012)

by
State Corporation Commission
of Kansas

Docket No. 12-KCPE-862-MIS

NOTICE OF COMPLIANCE

COMES NOW Kansas City Power & Light Company (“KCP&L”) and files this Notice of Compliance with the August 8, 2012 Order of the State Corporation Commission of the State of Kansas (“Commission”), issued in the above-captioned docket (“August 8 Order”).¹ As of October 1, 2012, the 63 wind generating turbines at the Spearville 3 Wind Generating Facility located in Ford County, Kansas (“Spearville 3”) were confirmed commercially in-service. This in-service event places KCP&L in compliance with the Commission’s grant of a waiver from penalties under the Renewable Energy Standards Act (“RES Act”) for 2012, where such waiver was conditioned upon KCP&L attaining sufficient renewable capacity in service prior to December 31, 2012. Consistent with KCP&L’s Application in this docket, KCP&L now has sufficient renewable generating capacity in service and under contract to meet the RES Act requirements for 2012. As evidenced by the compliance data set forth in Tables 1 and 2 below,² which include the generating capacity of Spearville 3, KCP&L now has a total of 380.5 MW of renewable generation capacity of which an estimated 180.0 MW is allocated to the Kansas jurisdiction, exceeding its 2012 RES Act requirement of 167.2 MW.³

¹ See Order Waiving Penalties Associated with KCP&L’s Noncompliance with the Renewable Energy Standards Act for Calendar Year 2012, Docket No. 12-KCPE-862-MIS, Ordering ¶ B, issued Aug. 8, 2012.

² Tables 1 and 2 in this Compliance filing are consistent with Tables 2 and 4 in KCP&L’s Application in this docket with a correction to a decimal point error for net metering capacity.

³ See KCP&L’s Application Docket No. 12-KCPE-862-MIS, at ¶¶ 14-15 (filed June 1, 2012).

TABLE 1: KCP&L's Renewable Generation Portfolio

Name of Generation Facility	Owned or PPA	Type of Resource	Year Placed in Service	Nameplate Capacity (MW)
Spearville 1	Owned	Wind	2006	100.5
Spearville 2	Owned	Wind	2010	48
Spearville 3	PPA	Wind	2012	100.8
Cimarron II	PPA	Wind	2012	131.1
Net Metering	Customer	Various	Various	0.1353
TOTAL 2012				380.5
J-1, J-2 and Jeffrey ⁴	PPA	Hydro	2014	Up to 63

TABLE 2: 2012 Kansas RES Act Compliance Components

Source	Estimated Capacity Allocated to Kansas (MW)	Kansas Capacity with 1.1 Multiplier (MW)⁽¹⁾
KCP&L Owned Capacity:	63.9 MW	70.3 MW
PPA Capacity (In Service June 2012):	56.4 MW	62.0 MW
PPA Capacity (In Service October 1, 2012):	43.3 MW	47.6 MW
Net Metering: ⁽²⁾	0.1353 MW	0.1488 MW
TOTAL CAPACITY YEAR-END 2012	163.7 MW	180.0 MW

⁽¹⁾ All numbers include effect of the 1.1 multiplier.

⁽²⁾ Net Metering capacity as of June 30, 2012.

⁴ KCP&L executed a 10-year PPA with Central Nebraska Public Power Irrigation District ("CNPPID") for up to 63 MW of hydro power beginning January 1, 2014.⁴ The three hydro facilities identified in the agreement, Jeffrey, Johnson No. 1 ("J-1") and Johnson No. 2 ("J-2"), are located along the CNPPID's irrigation supply canal located in Nebraska. These facilities are operational but currently are contracted to another party. KCP&L's 10-year PPA with CNPPID for this hydro capacity begins January 1, 2014.

Respectfully submitted,

Denise M. Buffington (#24850)

Re: *In the Matter of the Application by Kansas City Power & Light Company for a Waiver Regarding the Kansas Renewable Energy Standards Act for 2012*
Docket No. 12-KCPE-862-MIS

Dear Ms. Petersen-Klein:

Please accept for filing an original and eight (8) copies of Kansas City Power & Light Company's Notice of Compliance in the above-captioned matter. Please file-stamp the extra copy included in this mailing and return in the self-addressed, postage prepaid envelope. Thank you for your assistance and attention to this matter.

Respectfully submitted,

Nicole A. Wehry
