ORDER GRANTING MIDWEST ENERGY’S PETITION TO INTERVENE

This matter comes before the State Corporation Commission of the State of Kansas (Commission) for consideration and decision. Having reviewed the pleadings and record, the Commission makes the following findings:

1. On November 6, 2024, Evergy Kansas Central, Inc. and Evergy Kansas South, Inc. (EKC) and Evergy Metro, Inc. d/b/a Evergy Kansas Metro (EKM) (EKC and EKM collectively referred to as Evergy) filed an Application requesting a determination of the ratemaking principles and treatment that will apply to the recovery in rate of the costs to be incurred relating to: (1) EKC’s planned construction and acquisition of 50% of a 710 MW combined cycle gas turbine (CCGT) located in Kansas near its Viola Substation (Viola plant); (2) a 50% interest in a second 710 MW CCGT located near Hutchinson, Kansas (McNew plant), with flexibility to acquire the second 50% of the McNew Plant, and (3) its construction and ownership of approximately 200 MWDC (159 MWAC) of solar generation, known as the Kansas Sky generating resource (Kansas Sky).¹

¹ Petition of Evergy Kansas Central, Inc., Evergy Kansas South, Inc., and Evergy Metro, Inc. for Determination of Ratemaking Principles and Treatment, Nov. 6, 2024 (Evergy’s Application).

2. Evergy explains that the Viola Plant will be built on a greenfield site in Sumner County, and jointly owned by EKC and Evergy Missouri West, with a projected date of commercial operation on January 1, 2029.² The McNew Plant will be built on a greenfield site in Reno County, and fully owned by EKC, before eventually transferring half of the plant to Evergy Missouri West or EKM, with a projected date of commercial operation of January 1, 2030.³ Kansas Sky is being developed by Savion and is located in Douglas County, with a projected date of commercial operation in December of 2026.⁴

3. On November 15, 2024, Midwest Energy, Inc. (Midwest Energy) filed a Petition to Intervene.⁵ Midwest Energy explains that it has direct interest as it is a current customer of Evergy and has agreements for both power supply and capacity with Evergy.⁶

4. The Commission has broad discretion to grant a petition for intervention if it is in the interest of justice, if the intervention will not impair the orderly and prompt conduct of the proceedings, and if the party has stated facts demonstrating its legal rights, duties and privileges, immunities or other legal interests may be substantially affected by the proceeding.⁷ Furthermore, at any time during a proceeding, the Commission may impose limitations on an intervenor's participation.⁸

5. The Commission finds and concludes that Midwest Energy has met the requirements of K.A.R. 82-1-225 and K.S.A. 77-521(b), and should be granted intervention in this Docket. Midwest Energy will be added to the mailing list, and electronic service of pleadings, communications, and correspondence should be delivered to:
