**RE: *In the Matter of the Application of Boomerang Wireless, LLC for Expanded Service as a Wireless ETC in the State of Kansas (Low-Income Only)***  
**Docket No. 16-BOWZ-437-ETC**

To Whom It May Concern:

I previously corresponded with Mr. Baumhardt at your office regarding Boomerang Wireless, LLC's ("Boomerang") application to expand its service area in Kansas, which application was granted on September 27, 2016.

As part of the requests for information made during that application, you asked how Boomerang intended to comply with the FCC's minimum mobile service standards requirement that would go into effect as of December 1, 2016. At that time, Boomerang advised it was in the process of developing compliant service plans and would supplement the docket when finalized.

Boomerang has now finalized its new service plan but as the order granting its expansion application has been entered and the online docket status is listed as closed, do we still need to file the plan in that docket or notify the KCC by other means? (Or does enclosing the updated service plan here suffice?)

Please advise whether we need to do anything further with the enclosed updated service plan. Thanks.

Very truly yours,

Richard J. Raimond
