June 23, 2017

Dear Rene Stucky,

I live in Matfield Green, in Chase County, about 6 miles northwest as the crow flies from Greenwood County.

I am writing to protest and request a hearing in the matter of the Application for an Injection Well and Application to Amend Injection Permit by Cross Bar Energy for the Vigle VW-6 and VW-8 wells in SW/4 of Section 14, Township 23-South, Range 10 East, Greenwood County.

The permit number is E-27315. I was unable to find the title and docket number on KCC's website, or in the public notice published May 24, or on the application itself, furnished through an open records request. Please advise me of the title and docket number for future correspondence.

Injecting toxic wastewater into the Bartlesville formation is dangerous and may pollute the natural resources of the state of Kansas.

In addition, the US Geological Survey states that injection wells are the cause of the recent earthquakes in Kansas. Those earthquakes continue to cause uncompensated damages to private and municipal property, and they are moving northward in the state, with several this month epi-centered near the Nebraska border.

Please consider erring on the side of caution and protect the land and water of the Flint Hills for grazing and tourism by denying the permit to Cross Bar Energy.

I emailed my protest to Cross Bar Energy earlier and cc'd you that email.

Respectfully,

Cindy Hoedel
