BEFORE THE STATE CORPORATION COMMISSION OF THE STATE OF KANSAS

In the Matter of the Notice of Exemption)

Of Pixley Solar Energy LLC Pursuant)

To K.S.A. 66-104(e))

25-PSEE-147-SLR

Docket No. 25-PSEE_147-SLR

NOTICE OF EXEMPTION OF PIXLEY SOLAR ENERGY LLC PURSUANT TO K.S.A. 66-104(e)

COMES NOW, Pixley Solar Energy LLC ("Pixley Solar" or "Applicant") and hereby provides notice to the State Corporation Commission of the State of Kansas ("Commission" or "KCC") of its decision to opt out of public utility regulation pursuant to K.S.A. 66-104(e). In support of its Notice, the Applicant states as follows:

I. INTRODUCTION

- 1. Pixley Solar is a limited liability company, organized and existing under the laws of the State of Delaware, in good standing in all respects. (*See* **Exhibit A**, attached hereto).
- 2. Pixley Solar is developing, constructing, and will own and operate a solar energy project in Barber County, Kansas (the "Pixley Solar Project"). (*See* Exhibit B for a map of the Project location). All Pixley Solar Project facilities will be constructed on privately-owned land pursuant to either solar leases, transmission easements, or parcels purchased by Pixley Solar in fee simple pursuant to agreements with the respective landowners. In light of these privately negotiated lease and easement arrangements, Pixley Solar will neither request nor require condemnation authority in order to obtain land use rights for the Pixley Solar Project. The Pixley Solar Project will interconnect to the Thistle 345 kV Substation via an approximately 1.1-mile 345 kV generation tie transmission line.

- 3. The Pixley Solar Project will have a nameplate capacity of approximately 189 MW and commercial operation is currently planned to occur in approximately April 2025. Pixley Solar is subject to a Purchase and Sale Agreement with Public Service Company of Oklahoma ("PSO"), pursuant to which PSO will acquire Pixley Solar. The Pixley Solar Project will not sell any power to retail customers in Kansas.
- 4. Pixley Solar has entered into a Decommissioning Agreement, Contribution Agreement, and a Road Use and Maintenance Agreement with Barber County.

II. DEFINITION OF PUBLIC UTILITY AND NOTICE OF DECISION TO OPT OUT OF PUBLIC UTILITY REGULATION

5. K.S.A. 66-104(a) states in pertinent part as follows:

The term "public utility," as used in this act, shall be construed to mean every corporation, company, individual, association of persons, heirs, trustees, lessees or receivers, that now or hereafter may own, control, operate or manage, except for private use, any equipment, plant or generating machinery, or any part thereof, for the transmission of telephone messages or for the transmission of telegraph messages in or through any part of the state, or the conveyance of oil and gas through pipelines in or through any part of the state, except for pipelines less than 15 miles in length and not operated in connection with or for the general commercial supply of gas or oil, and all companies for the production, transmission, delivery or furnishing of heat, light, water, or power.

6. K.S.A. 66-104(e) states as follows:

At the option of an otherwise jurisdictional entity, the term "public utility" shall not include any activity or facility of such entity as to the generation, marketing and sale of electricity generated by an electric generation facility or addition to an electric generation facility which:

- (1) is newly constructed and placed in service on or after January 1, 2001; and
- (2) is not in the rate base of:
 - (A) an electric public utility that is subject to rate regulation by the state corporation commission;
 - (B) any cooperative, as defined by K.S.A. 17-4603 and amendments thereto, or any nonstock member-owned cooperative corporation incorporated in this state; or
 - (C) a municipally owned or operated electric utility.

(Emphasis added).

- 7. Because the Applicant is building generation capacity in Kansas, it falls within the definition of "public utility" as stated in K.S.A. 66-104(a), as it will "own, control, operate or manage, except for private use, any equipment, plant or generating machinery," and is a company engaged in "the production, transmission, delivery or furnishing of heat, light, water, or power."
- 8. However, at the option of an "otherwise jurisdictional entity," K.S.A. 66-104(e) indicates that the term public utility shall not include "any activity or facility of such entity as to the generation, marketing and sale of electricity generated by an electric generation facility or addition to an electric generation facility" which meets the requirements of subsection (e) of the statute.

9. The Project will be:

- (1) newly constructed and placed in service on or after January 1, 2001, in accordance with K.S.A. 66-104(e)(1); and
- (2) not placed in the rate base of either an electric public utility subject to rate regulation by the KCC, nor any cooperative or municipally owned or operated electric utility, in accordance with K.S.A. 66-104(e)(2)(A) through (C).
- 10. It is anticipated that Pixley Solar will be sold to PSO pursuant to a Purchase and Sale Agreement. PSO is not a public utility subject to rate regulation by the KCC, nor it is a cooperative or municipally owned or operated electric utility. Pixley Solar may continue to exist after closing of the Purchase and Sale Agreement. Because the exemption is specific to the entity owning the subject facilities, Pixley Solar is exercising the option to exempt itself from the

3

¹ See, e.g. Staff Memorandum, Docket No. 21-FR3E-079-WND (Aug. 17, 2020); Staff Memorandum, Docket No. 19-SFWE-204-WND (Feb. 14, 2029).

definition of "public utility" pursuant to the opportunity to opt out of regulation contained in K.S.A. 66-104(e).²

- 11. Accordingly, the Applicant hereby provides this Notice to the Commission of its decision to opt out of public utility regulation pursuant to K.S.A. 66-104(e). Because the Applicant has opted out of public utility regulation, the Applicant is likewise exempt from the application of the following statutes, as each of these statutes, by their specific terms, apply only to jurisdictional entities: K.S.A. 66-131, permit to transact business in the State of Kansas as a public utility required; and K.S.A. 66-1,177 *et seq.*, the electric transmission line siting act.
- 12. Pursuant to K.S.A. 66-104(e)(2), an entity that has exercised to exempt itself from regulation is still subject to the Commission's jurisdiction over wire-stringing, and is therefore required to comply with the K.S.A. 66-183, guidelines for stringing wires along or across streets, highways, or public places; and K.A.R. 82-12-1 *et seq.*, the Commission's wire-stringing regulations. Pixley Solar intends to file the Form EL required by K.A.R. 82-12-1 *et seq.*

⁻

² Similarly situated independent power producers have exercised their option to exempt themselves from the definition of "public utility" by filing notices with the Commission. *See*, *e.g.*, Docket No. 21-FR3E-079-WND, Notice of Exemption of Flat Ridge 3 Wind Energy, LLC, Pursuant to K.S.A. 66-104(e) (Aug. 10, 2020); Docket No. 19-SFWE-204-WND, Notice of Exemption of Solomon Forks Wind Project, LLC Pursuant to K.S.A. 66-104(e) (Nov. 15, 2018); Docket No. 18-PTWE-447-WND, Notice of Exemption of Pratt Wind, LLC Pursuant to K.S.A. 66-104(e) (April 13, 2018); Docket No. 17-CPBE-139-WND, Notice of Exemption of CP Bloom Wind LLC Pursuant to K.S.A. 66-104(e) (Oct. 21, 2016).

WHEREFORE, Applicant respectfully submits to the Commission this Notice of Exemption pursuant to K.S.A. 66-104(e).

Respectfully submitted,

POLSINELLI PC
