Attorney for Southwestern College

Re: 14-CONS-030-CEXC – Southwestern College #11, 3-26S-16W.

Jim and David:

This application was filed on July 11, 2013, and was timely protested by Southwestern College on August, 13, 2013. The well passed a casing integrity test on November 15, 2013, and publication of notice has been verified. In March 2014, I received correspondence from Thomas G. Schnittker, who I understand to be a farm manager for Southwestern College. My understanding going into summer 2014 was that the parties were negotiating regarding this well, and I fully support the parties resolving any issues without the need for a hearing.

Because this docket has been open for over one year, I am requesting a status update regarding any ongoing negotiations and whether a hearing is necessary. Please let me know within the next two weeks. In the unlikely event that I do not receive a reply, I will file a motion to have this matter set for hearing. Thanks for your assistance in getting this matter resolved.

Sincerely,

Lane Palmateer
Litigation Counsel
