RE: Wilson #20 Penalty Assessment

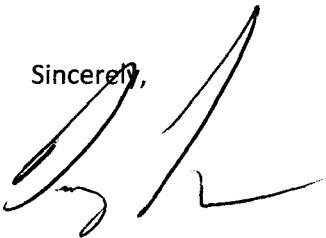

15-015-40375 7-25S-5E Permit # D17047.0

Mr. Myers,

White & Ellis Drilling respectfully requests a hearing on the above referenced penalty assessment. White & Ellis Drilling asks that the penalty be waived. In truthfully and accurately reporting form U3C, we stated that the Wilson #20 had a maximum operating pressure of 550 psi for 2015. The maximum pressure authorized is 300 psi. We are in the process of amending the Wilson #20 application to reflect the current injection pressure. Compliance with KCC rules and regulations is a top priority of ours.

Thank you for your consideration in this matter.

Sincerely,

A handwritten signature in black ink, appearing to be 'Dan Flowers', written over the word 'Sincerely,'.
