AMENDED APPLICATION

COMES NOW, Merit Energy Company ("Merit"), by and through its attorney, Stanford J. Smith, Jr., and in support of its Amended Application in the above captioned matter states as follows:

1. Merit is authorized to do business in the State of Kansas, and has a street address of 13727 Noel Road, Suite 1200, Dallas, Texas, 75240.
2. The Kansas Corporation Commission has issued Merit operator's license 32446, which expires on May 30, 2020.
3. Merit is the owner and operator of the Wright C-1 well, which is located in the North Half of the Southwest Quarter of the Southeast Quarter of the Southwest Quarter of Section 13, Township 29 South, Range 33 West, Haskell County, Kansas, API # 15-081-20471-00-00. The subject well is located on an active oil and gas lease or unit comprising the following lands:

Southwest Quarter of Section 13, Township 29 South,
Range 33 West, Haskell County, Kansas.

4. The Wright C-1 was originally perforated in the Morrow formation due to depletion from the completed Morrow Formation and was shut-in as inactive.

5. Pursuant to K.A.R. 82-3-111, Merit sought and obtained temporary abandonment status for said well on or about December 30, 2008.

6. On or about July 23, 2019, the Kansas Corporation Commission notified Merit of the KCC's denial of renewal of temporary abandonment status for the well due to the limitation period of ten (10) years imposed by K.A.R. 82-3-111.

7. K.A.R. 82-3-111 imposes a 10-year limitation on the amount of time during which wells may be temporarily abandoned, but an exception to the 10-year limitation may be obtained pursuant to said regulation through an Application filed with the Commission pursuant to K.A.R. 82-3-100. Applicant seeks such an exception.

8. Merit wishes to continue temporary abandonment status for the subject well because Merit intends to use the well for production from new zones behind pipe. Merit is currently evaluating the KSSC A Zone. It is estimated the total reserves the well could produce 14 MBO and a reasonable projection of 30 BOPD.

Merit plans to perforate and acidize from 4,622' - 4,630' in the Wright C-1. Based on the pay height and log characteristics more similar to the Brennan B-1, equivalent production is expected. However, based on the potential for some depletion risk as well as being structurally down dip, a slightly lower RF of 10% and small drainage radius of 40 acres were used in volumetric calculations.

9. A Commission Staff-witnessed mechanical integrity test of the casing between the surface and a point within fifty (50) feet above the uppermost perforations is pending.

10. There are nine total wells on the lease including two shallow gas wells, two plugged wells, three temporarily abandoned well, one producing oil well, and one producing oil and gas wells, with a current production rate of 3.5 BOPD and 50 MCFD from three of the producing wells. There is no current production data available on one of the producing wells. It would cost an estimated Two Hundred Forty-Five Thousand Dollars (\$245,000.00) to plug this well and the remaining wells on the lease. In order to reactivate the Wright C-1 well, it would cost approximately One Hundred Sixty Thousand Dollars (\$160,000.00) based on current prices. It would cost an estimate of Seven Hundred Fifty Thousand Dollars (\$750,000.00) based on current prices to drill and complete a replacement well.

11. Merit has included a plat map, attached as Exhibit A, showing the locations of all producing, injection, temporarily abandoned, abandoned and plugged wells located on the same lease premises as the subject well.

12. Based on the foregoing, Merit requests the Commission grant an exception to the 10-year limitation, specifically to allow the Wright C-1 well to remain eligible for temporary abandonment status for three (3) years following the expiration of 10-year limitation. Merit understands that the exception would be valid for three (3) years, but Merit would still need to apply annually to the Conservation Division District Office for approval of an Application for temporary abandonment status.

13. Listed in attached Exhibit B are the names and addresses of the following persons:

- A. Each operator of each oil and gas lease covering lands within one-half (1/2) mile radius of the subject well; and
- B. Each person who owns any mineral interest of record in and under any lands located within one-half (1/2) mile radius of the subject well if unleased.

14. That the Applicant has sent by regular mail a copy of this Amended Application and Notice of Pending Application to all persons listed on the attached Exhibit B.

15. Notice of this Application will be published pursuant to K.A.R. 82-3-135a.

16. WHEREFORE, Merit prays that this matter be granted administratively without a hearing, or in the alternative be set for hearing, and upon hearing that the Commission grant Merit's request for an exception to the K.A.R. 82-3-111 10-year limitation, to allow the subject well to remain temporarily abandoned for three (3) years, subject to annual approval by the Conservation Division District Office of an application for temporary abandonment status.

Respectfully submitted,

MARTIN, PRINGLE, OLIVER, WALLACE
& BAUER, L.L.P.
