Subject: Application for Injection Well
APT 15-121-30564-00-00 SW4 s18 t16 r24e

On Saturday, November 1 2014 the Trust received in the U.S Mail postage prepaid many identical, defective Applications of Triple addressed to the KCC for an injection well permit.

This request seeks relief as an interested person under the provisions of the Kansas Surface Owner's Notice Act KSA 55-2011 Sup169 a petitions the KCC to stay further consideration on the Application of Triple until it is in compliance with the law

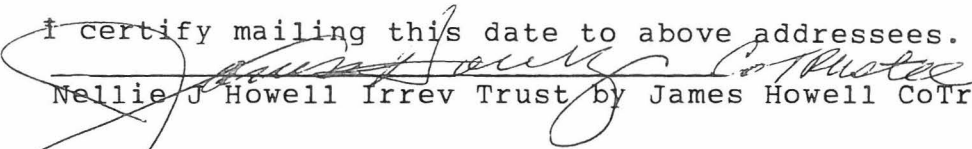

The KCC Application directs that "All blanks MUST be filled" and instructs "Fully complete Application" That has not been done, consequently the Application is defective and void with critical information omitted from the Application by insertion of the word "attached" but not in fact "attached".

To correct the deficiency request is made for any and all documents submitted to KCC with the original Application be provided petitioner for those sections labeled "attached".

Efforts to make contact with Lance Town on November 5, 2014 was futile with Application phone 913 837 5400 being Mo-Kan Dial a telephone company and the correct number 913 837 8400 being a recording, not available leave name and number we will return the call It never happened.

I certify mailing this date to above addressees.
