Dear Mr. Stucky,

We previously had a protest date stamped in at your office concerning the above well. We also sent a registered protest to Urban Oil & Gas. A copy of the registered mail is attached. My wife previously called you while I was in the hospital and told you that we would like to request a hearing to protest this disposal well. We have wells nearby that we believe will be impacted by converting this well into a disposal well. Please let us know when this hearing will be scheduled and if we need to submit prior evidence.

Thank you for your help in this matter.

Very truly yours,

Benjamin M. Giles
