

## ATTACHMENT 13 SL - SUBLOOPS

---

## Table of Contents

1.0	INTRODUCTION .....	3
2.0	DEFINITION.....	3
3.0	GENERAL PROVISIONS .....	4

## 1.0 Introduction

### 1.1 UNE Subloops

- 1.1.1 Subject to the other terms and conditions of this Attachment, and where facilities permit, **AT&T-22STATE** shall provide UNE Subloop Distribution elements in accordance with 47 C.F.R. § 51.319(b) and under the following terms and conditions in this subsection.
- 1.1.2 **AT&T CONNECTICUT** UNE Subloops are available as described in Section 18 of the Connecticut Service Tariff.
- 1.1.3 **AT&T-21STATE** will provide UNE Subloops at rates set forth in the Pricing Schedule.

## 2.0 Definition

### 2.1 UNE Subloop Terms

- 2.1.1 "2 Wire or 4 Wire (Unbundled Subloop Distribution – Voice Grade (USLD-VG))" in **AT&T SOUTHEAST REGION 9-STATE** is a copper facility from the cross-box in the field up to and including the point of demarcation at the customer's premises and may have load coils.
  - 2.1.2 "Accessible Terminals" contain cables and their respective wire pairs that terminate on screw posts which allow **AT&T-22STATE** technicians to affix cross-connects between binding posts of terminals collocated at the same point. Terminals differ from splice cases, which are inaccessible because the case must be breached to reach the wires within.
  - 2.1.3 "Distribution Cable" is a cable from the Serving Area Interface/Fiber Distribution Interface (SAI/FDI) to the terminals from which an End User can be connected to **AT&T-22STATE**'s network.
  - 2.1.4 "INC" for purpose of Unbundled Sub-Loop Intrabuilding Network Cable (USL-INC) offering is a distribution facility owned or controlled by AT&T inside a building or between buildings on the same property that is not separated by a public street or road. INC includes the facility from the cross-connect device in the building equipment room up to and including the point of demarcation at the customer's premises. (**AT&T SOUTHEAST REGION 9-STATE**)
  - 2.1.5 "MDU" (for the purpose of Term to NID UNE Subloop) is a Multi-Dwelling Unit for Buildings with exterior or interior mounted terminals.
  - 2.1.6 "Network Terminating Wire (NTW)" is the service wire that connects **AT&T-22STATE**'s distribution cable to the NID at the Demarcation Point.
  - 2.1.7 "SAI/FDI/cross-connect device-to-NID UNE Subloop" is that portion of the UNE Local Loop from the SAI/FDI/cross-connect device to the NID, which is located on an End User's premises.
  - 2.1.8 "SAI/FDI/cross connect device" is the point in **AT&T-22STATE**'s network where feeder cable is cross-connected to the distribution cable. "SAI" is Serving Area Interface. "FDI" is Feeder Distribution Interface. The terms are interchangeable.
  - 2.1.9 "SAI/FDI -to-Term UNE Subloop" is that portion of the UNE Loop from the SAI/FDI to an accessible terminal (**AT&T-12STATE**)
  - 2.1.10 "SPOI" is defined as a Single Point of Interconnection. At the request of CLEC, and subject to charges, **AT&T-22STATE** will construct a SPOI only to those multiunit premises where **AT&T-22STATE** has distribution facilities to the premises and **AT&T-22STATE** either owns, controls, or leases the inside wire, if any, at such premises. If **AT&T-22STATE** has no facilities which it owns, controls or leases at a multiunit premise through which it serves, or can serve, End Users at such premises, it is not obligated to construct a SPOI. **AT&T-22STATE**'s obligation to build a SPOI for multiunit premises only arises when CLEC indicates that it will place an order for a UNE Subloop via a SPOI .
-

- 2.1.11 "Term-to-NID UNE Subloop" is that portion of the UNE Loop from an accessible terminal to the NID, which is located at an end user's premise. Term-to-NID UNE Subloop includes use of the Network Terminating Wire (NTW). (AT&T-12STATE)

### 3.0 General Provisions

- 3.1 In AT&T CONNECTICUT UNE Subloops are available as described in Section 18 of the Connecticut Service Tariff.
- 3.2 AT&T-21STATE offer the following UNE Subloop types:
- 3.2.1 2-Wire or 4-Wire Analog UNE Subloop provides a 2-wire or 4-wire (one or two twisted pair cable or equivalent) facility capable of transporting analog signals in the frequency range of approximately 300 to 3000 hertz (voiceband).
- 3.2.2 UNE xDSL Subloop/Unbundled Copper Subloop (UCSL) is defined in Attachment 14 – xDSL Loops and will be available where CLEC has an approved and effective Attachment 14 – xDSL Loops as a part of this Agreement. In addition to the provisions set forth in Attachment 14 – xDSL Loops, the UNE xDSL/UCSL Subloops are subject to the UNE Subloop terms and conditions set forth in this Attachment.
- 3.2.3 UNE Subloops are provided "as is."
- 3.2.3.1 Access to UNE Subloop procedures are provided on the AT&T CLEC Online website.
- 3.2.4 Request for USL-INC will be handled in accordance with the guidelines set forth on the AT&T CLEC Online website.
- 3.3 Establishment of Intermediary Box for CLEC Access to Term to NID MTE UNE Subloop Segment (AT&T-12STATE)
- 3.3.1 As an alternative to the establishment of a UNE Subloop Access Arrangement in those instances where CLEC wishes to access/lease AT&T-12STATE Term to NID UNE Subloop segments in order to serve its End Users at MTEs in AT&T-12STATE ("Term to NID MTE UNE Subloop Segments"), CLEC may place, own and manage, for its own use, an intermediary box, which would provide CLEC with access to a Term to NID MTE UNE Subloop Segment cross-connect leased from AT&T-12STATE within the intermediary box (in order to obtain access to AT&T-12STATE Term to NID MTE UNE Subloop Segments). In the event CLEC wishes to access AT&T-12STATE Term to NID MTE UNE Subloop Segments via the establishment of an intermediary box, the following terms and conditions shall apply (rates are found in the Pricing Schedule):
- 3.3.1.1 CLEC would manage the process for placing its own intermediary box, including, without limitation, coordination with the property owner and/or management. CLEC may, at its discretion, choose to retain ownership in whole or to share ownership of the intermediary box with other CLECs. Intermediary box shall be placed no more than two feet from the AT&T-12STATE terminal.
- 3.3.1.2 The intermediary box shall contain blocks that meet AT&T-12STATE's published industry standards for the placement of services and facilities and should be labeled with CLEC's ACNA to enable the AT&T-12STATE technician the ability to run jumper/cross connect from AT&T-12STATE terminal to the intermediary box.
- 3.3.1.3 CLEC agrees that the AT&T-12STATE technician shall run the jumper/cross-connect from AT&T-12STATE's serving terminal to CLEC's intermediary box, in order for CLEC to access AT&T-12STATE Term to NID MTE UNE Subloop Segments in AT&T-12STATE. For security and safety, AT&T-12STATE will incase the cross connect in conduit, a protective covered common path, between the AT&T-12STATE terminal and the CLEC's intermediary box.

- 
- 3.3.2 CLEC must have in place Connecting Facility Arrangement (CFA) assignments prior to ordering and assigning specific Term to NID MTE UNE Subloop Segments from **AT&T-12STATE**.
- 3.3.3 Following CLEC's provisioning, placement, and completion of Connecting Facility Arrangement Assignments ("CFA") data submission to **AT&T-12STATE** associated with the intermediary box, CLEC would place orders and schedule activities related to access to the Term to NID MTE UNE Subloop Segment including, without limitation: transferring the End User's service from **AT&T-12STATE** to CLEC providing **AT&T-12STATE** with CFA prior to ordering and the assigning of a specific Term to NID MTE UNE Subloop Segment(s).
- 3.3.4 The ordering procedures for the Term to NID MTE UNE Subloop Segment will be the same as those that apply to UNE Subloop today and shall be submitted to **AT&T-12STATE** by CLEC via a Local Service Request ("LSR").
- 3.3.5 **AT&T-12STATE** will upon receipt of the LSR from CLEC for a Term to NID MTE UNE Subloop Segment, process the order and place the jumper/cross connect to the CFA provided by the CLEC on the LSR, from the **AT&T-12STATE** terminal to the CLEC intermediary box. **AT&T-12STATE** must have access to the intermediary box for completion of the order.
- 3.3.6 In connection with the MTE intermediary box for CLEC access to Term to NID MTE UNE Subloop Segments in **AT&T-12STATE** only, CLEC may elect to lease from **AT&T-12STATE** Term to NID MTE UNE Subloop Segments which do not include traditional testing and the associated labor, at the recurring and non-recurring rates set forth in the Pricing Schedule for the "Term to NID MTE UNE Subloop Segment." In the event CLEC wishes to lease the Term to NID MTE UNE Subloop Segment from **AT&T-12STATE** in lieu of **AT&T-12STATE**'s standard Term to NID UNE Subloop segment, CLEC understands and agrees no performance measures and/or remedies shall apply to the Term to NID MTE UNE Subloop Segment as a result of the elimination of associated testing and reduction in functionality associated with the Term to NID MTE UNE Subloop Segment.
- 3.4 **AT&T-Establishment of Term to NID MTE UNE Subloop Segment When no Intermediary Box is Installed (AT&T-12STATE)**
- 3.4.1 In those instances where CLEC elects not to install an intermediary box or to have **AT&T-12STATE** install an intermediary box pursuant to the SAA process outlined herein above, the CLEC may still lease from **AT&T-12STATE** Term to NID MTE UNE Subloop Segments which do not include traditional testing and the associated labor, at the recurring and non-recurring rates set forth in the Pricing Schedule for the "Term to NID MTE UNE Subloop Segment". In the event CLEC wishes to lease the Term to NID MTE UNE Subloop Segment from **AT&T-12STATE** in lieu of **AT&T-12STATE**'s standard Term to NID UNE Subloop segment, CLEC understands and agrees no performance measures and/or remedies shall apply to the Term to NID MTE UNE Subloop Segment as a result of the elimination of associated testing and reduction in functionality associated with the Term to NID MTE UNE Subloop Segment. In such cases, **AT&T-12STATE** will provide CLEC with access to the Term To NID MTE UNE Subloop via a cross connect. The **AT&T-12STATE** technician will tag appropriately and will leave up to two feet of exposed wire at **AT&T-12STATE**'s terminal. The cross connect would then be terminated by the CLEC technician in the CLEC terminal, at a time of CLEC's own choosing. For security and safety, **AT&T-12STATE** will incase the cross connect in conduit, a protective covered common path, between the **AT&T-12STATE** terminal and the CLEC's terminal. Since the CLEC has full responsibility for terminating the **AT&T-12STATE** cross- connect, **AT&T-12STATE** could not require any CFA information from CLEC.
- 3.4.2 If CLEC elects this option to obtain access to the Term To NID UNE Subloop in an MTE Environment, neither the **AT&T-12STATE** SAA process nor the intermediary box option would be required. Because the CLEC would have full responsibility for terminating the **AT&T-12STATE** cross-connect, **AT&T-12STATE** could not require any CFA information from CLEC.
- 3.5 Unbundled Network Terminating Wire (UNTW) (**AT&T SOUTHEAST REGION 9-STATE**)
-

- 
- 3.5.1 UNTW is unshielded twisted copper wiring that is used to extend circuits from an intra-building network cable terminal or from a building entrance terminal to an individual customer's point of demarcation. It is the final portion of the Loop that in multi-subscriber configurations represents the point at which the network branches out to serve individual subscribers.
- 3.5.2 This element will be provided in MDUs and/or Multi-Tenants Units (MTUs) where either Party owns wiring all the way to the End User's premises. Neither Party will provide this element in locations where the property owner provides its own wiring to the customer's premises or where a third party owns the wiring to the End User's premises.
- 3.5.3 On a multi-unit premise, upon request of the other Party (Requesting Party), the Party owning the network terminating wire (Provisioning Party) will provide access to NTW pairs on an Access Terminal that is suitable for use by multiple carriers at each Garden Terminal or Wiring Closet according to the guidelines on the **AT&T** CLEC Online website.
- 3.6 **UNTW Requirements (AT&T SOUTHEAST REGION 9-STATE)**
- 3.6.1 The Provisioning Party shall not be required to install new or additional NTW beyond existing NTW to provision the services of the Requesting Party.
- 3.6.2 The Requesting Party is responsible for obtaining the property owner's permission for the Provisioning Party to install an Access Terminal(s) on behalf of the Requesting Party. The submission of the SI by the Requesting Party will serve as certification by the Requesting Party that such permission has been obtained. If the property owner objects to Access Terminal installations that are in progress or within thirty (30) days after completion and demands removal of Access Terminals, the Requesting Party will be responsible for costs associated with removing Access Terminals and restoring the property to its original state prior to Access Terminals being installed.
- 3.6.3 The Requesting Party shall indemnify and hold harmless the Provisioning Party against any claims of any kind that may arise out of the Requesting Party's failure to obtain the property owner's permission.
- 3.6.4 The Requesting Party will be billed for nonrecurring and recurring charges for accessing UNTW pairs at the time the Requesting Party activates the pair(s). The Requesting Party will notify the Provisioning Party within five (5) business days of activating UNTW pairs using the LSR form.
- 3.6.5 If the Requesting Party initiates the Access Terminal installation and the Requesting Party has not activated at least ten percent (10%) of the capacity of the Access Terminal installed pursuant to the Requesting Party's request for an Access Terminal within six (6) months of installation of the Access Terminal, the Provisioning Party will bill the Requesting Party a nonrecurring charge equal to the actual cost of provisioning the Access Terminal.
- 3.6.6 If the Provisioning Party determines that the Requesting Party is using the UNTW pairs without reporting the activation of the pairs, the Requesting Party will be billed for the use of that pair back to the date the customer began receiving service from the Requesting Party at that location. Upon request, the Requesting Party will provide copies of its billing record to substantiate such date. If the Requesting Party fails to provide such records, then the Provisioning Party will bill the Requesting Party back to the date of the Access Terminal installation.
- 3.6.7 In existing MDUs and/or MTUs in which AT&T does not own or control wiring to the End Users' premises, and CLEC does own or control such wiring, CLEC will install provide access to UNTW to AT&T under the same terms and conditions as **AT&T SOUTHEAST REGION 9-STATE** provides UNTW to CLEC.
- 3.7 **ENGINEERING CONTROLLED SPLICE (ECS) part as Subloops (AT&T-12STATE)**
- 3.7.1 Subject to the other terms and conditions of this Attachment, **AT&T-12STATE** shall provide to Engineering controlled Splice under the following terms and conditions in this subsection.
-

- 
- 3.7.2 AT&T-12STATE will also make available an Engineering Controlled Splice (ECS), which will be owned by AT&T-12STATE, for CLEC to gain access to UNE Subloops at or near remote terminals.
- 3.7.3 The ECS shall be made available for UNE Subloop Access Arrangements (SAA) utilizing the Special Construction Arrangement (SCA).
- 3.7.4 CLEC requesting such a SCA shall pay all of the actual construction, labor, materials and related provisioning costs incurred to fulfill its SCA on a Time and Materials basis, provided that AT&T-12STATE will construct any UNE Subloop Access Arrangement requested by a Telecommunications Carrier in a cost-effective and efficient manner. If AT&T-12STATE elects to incur additional costs for its own operating efficiencies and that are not necessary to satisfy an SCA in a cost-effective and efficient manner, CLEC will not be liable for such extra costs.
- 3.7.5 CLEC shall be liable only for costs associated with cable pairs that it orders to be presented at an engineering controlled splice (regardless of whether the requesting carrier actually utilizes all such pairs), even if AT&T-12STATE places more pairs at the splice.
- 3.7.6 Although AT&T-12STATE will construct the engineering controlled splice, the ECS maybe owned by AT&T-12STATE or the CLEC (depending on the specific arrangement) at the option of AT&T-12STATE.
- 3.7.7 If more than one requesting Telecommunications Carrier obtains space in expanded remote terminals or adjacent structures and obtains an SAA with the new copper interface point at the ECS, the initial Telecommunications Carrier which incurred the costs of construction of the engineering controlled splice and/or additional copper/fiber shall be reimbursed those costs in equal proportion to the space or lines used by the requesting carriers.
- 3.7.8 AT&T-12STATE may require a separate SCA for each remote terminal site.
- 3.7.9 Written acceptance and at least 50% of payment for the SCA must be submitted at least 90 days before access to the copper UNE Subloop is to be provisioned by AT&T-12STATE. If an augment of cabling is required between the ECS and the SAI, the interval for completion of the SCA will be determined on an individual case basis. AT&T-12STATE will not begin any construction of the ECS until the CLEC has provided proof that it has obtained the necessary rights of way. In the event CLEC disputes the estimate for the ECS in accordance with the dispute resolution procedures set forth in this Agreement, AT&T-12STATE will proceed with construction of the ECS upon receipt from CLEC of notice of the dispute and not less than fifty percent (50%) of the total estimated costs, with the balance payable by CLEC upon completion of the ECS. Such payments may be subject to any "true-up", if applicable, upon resolution of the dispute in accordance with the Dispute Resolution procedures.
- 3.7.10 CLECs will have two (2) options for implementing the ECS: a "Dedicated Facility Option" (DFO) and a "Cross-connected Facility Option" (CFO):
- 3.7.10.1 Dedicated Facility Option (DFO)
- 3.7.10.1.1 CLEC may request AT&T-12STATE splice the existing cabling between the ECS and the SAI to the CLEC's SAA facility. This facility will be "dedicated" to the CLEC for subsequent UNE Subloop orders.
- 3.7.10.1.2 CLEC must designate the quantity of UNE Subloops they desire to access via this spliced, dedicated facility, specified by subtending SAI.
- 3.7.10.1.3 CLECs will compensate AT&T-12STATE for each of the dedicated UNE Subloop facilities, based on recurring UNE Subloop charges, for the quantity of UNE Subloops dedicated to the CLEC between the ECS and the SAI.
-

3.7.10.2 Cross-connected Facility Option (CFO)

- 3.7.10.3 CLEC may request AT&T-12STATE build an ECS cross-connect junction on which to terminate CLEC's SAA facility.
- 3.7.10.4 The SCA associated with this option will include the charges associated with constructing the cross-connect device, including the termination of AT&T-12STATE cabling between the ECS and the RT and/or SAI, and the inventorying of that AT&T-12STATE cabling.
- 3.7.10.5 CLEC must designate the quantity of UNE Subloops they desire to access via this cross-connectable, dedicated facility, specified by subtending SAI.
- 3.7.10.6 CLEC will compensate AT&T-12STATE for the charges incurred by AT&T-12STATE derived from the CLEC's request for the SCA.

3.7.11 The introduction of an ECS creates the following additional copper UNE Subloop segments:

<u>FROM:</u>	<u>TO:</u>
ECS	Serving Area Interface or Feeder Distribution Interface
ECS	Terminal
ECS	NID

## Attachment 14 - xDSL Loops

---

AT&T NEVADA, AT&T ARKANSAS, AT&T KANSAS, AT&T MISSOURI/CINCINNATI BELL ANY DISTANCE INC.

Version: 3Q08 – CLEC ICA - All Traffic 08/08/08

## Table of Contents

1.0	INTRODUCTION.....	3
2.0	GENERAL PROVISIONS.....	3
3.0	PRODUCT SPECIFIC SERVICE DELIVERY PROVISIONS .....	3

## 1.0 Introduction

- 1.1 **AT&T-21STATE** will make available xDSL Loops and xDSL/Unbundled Copper Subloop (UCSL) Subloops for the provision of xDSL-based services or line splitting arrangements provided by CLEC in accordance with the FCC's *Triennial Review Order* and associated lawful and effective implementing rules, 47 C.F.R. §51.319(a)(1)(i)-(iv) and (b)(1), as such rules may be modified from time to time.

## 2.0 General Provisions

- 2.1 **AT&T-21STATE** will provide xDSL Loops and xDSL/UCSL Subloops for CLEC to deploy xDSL technologies presumed acceptable for deployment or non-standard xDSL technologies as defined in this Agreement and as provided for under the applicable lawful and effective FCC rules, 47 C.F.R. §51.230, as such rule may be modified from time to time.
- 2.2 **AT&T-21STATE** will not guarantee that an xDSL Loop or xDSL/UCSL Subloops ordered by CLEC will perform as desired by CLEC for xDSL based services, but will guarantee that Loops will be provisioned to meet basic metallic Loop parameters, including continuity and pair balance. CLEC shall designate on its Local Service Request (LSR), at CLEC's sole option, what Loop conditioning **AT&T-21STATE** is to perform in provisioning the order.
- 2.3 The Parties shall comply with the FCC's lawful and effective spectrum management rules, 47 C.F.R. §51.231-233, as such rules may be modified from time to time. Refer to AT&T CLEC Online website for specific processes addressing Spectrum Management.
- 2.4 Maintenance, Repair and Testing:
- 2.4.1 **AT&T-21STATE** shall provide Maintenance Repair and Testing in accordance with the lawful and effective requirements of 47 C.F.R. §51.319(a)(1)(iv) and as outlined on the AT&T CLEC Online website and within Attachment 07 - Operations Support Systems (OSS).
- 2.4.2 Line and Station Transfer (LST): For a loop currently in service where trouble ticket resolution has identified that excessive bridged tap(s), load coil(s) and/or repeater(s) are on the loop and transferring to a new loop is a solution identified by **AT&T-12STATE** to resolve a trouble, **AT&T-12STATE**, at its sole option, may perform an LST to resolve the identified trouble. In the event that a request for conditioning is received from the CLEC on a loop currently in service and **AT&T-12STATE** determines that an LST can be performed, the **AT&T-12STATE** LOC will contact the CLEC to inform it of the decision to perform an LST in lieu of CLEC's requested conditioning. In such case, the charge for the LST set forth in the Pricing Schedule shall apply in lieu of any loop conditioning charges which would have applied had the requested conditioning been performed. If, however, the LST does not resolve the reported trouble and the trouble is determined to be an **AT&T-12STATE** network-related problem, then CLEC will not be charged the LST rate or for **AT&T-12STATE**'s resolution of the trouble. If, however, the trouble is found not to be an **AT&T-12STATE** network-related problem, then CLEC shall pay the Maintenance of Service charges referenced in the Pricing Schedule, in addition to the applicable LST charge.

## 3.0 Product Specific Service Delivery Provisions

- 3.1 Loop Makeup Information and Ordering:
- 3.1.1 At the CLEC's request, **AT&T-21STATE** will provide CLEC with nondiscriminatory access to its Loop makeup information as it exists in **AT&T-21STATE**'s database and records via:
- 3.1.1.1 a mechanized Loop makeup for near real-time access to data available electronically; or
- 3.1.1.2 manual Loop makeup for information that may not be available electronically.
- 3.1.2 CLEC will be given nondiscriminatory access to the same Loop makeup information that **AT&T-21STATE** is providing to any other CLEC, **AT&T-21STATE**'s retail or wholesale operations and/or its advanced services Affiliate.
-

- 3.1.2.1 In the **AT&T SOUTHEAST REGION 9-STATE** region, CLEC will have access to Loop makeup information only on facilities owned or controlled by **AT&T SOUTHEAST REGION 9-STATE** or controlled by the requesting CLEC.
- 3.1.3 **AT&T-21STATE** does not guarantee accuracy or reliability of the Loop make up information provided. CLEC may obtain Loop makeup information according to the terms and conditions described on the AT&T CLEC Online website incorporated herein by reference, as may be amended from time to time.
- 3.2 Provisioning Intervals:
- 3.2.1 **AT&T-21STATE**'s provisioning intervals per order per End User location shall be the intervals set forth on the AT&T CLEC Online website.
- 3.3 Loop Conditioning (a.k.a Line Conditioning in **AT&T SOUTHEAST REGION 9-STATE**):
- 3.3.1 **AT&T 21STATE** will condition xDSL Loops and xDSL/UCSL Subloops in accordance with the lawful and effective requirements of 47 C.F.R. §51.319(a)(1)(iii).
- 3.3.2 All modifications for Loop Conditioning/Line Conditioning in this section will be performed at the rates set forth in the Pricing Schedule.
- 3.3.3 **AT&T-21STATE** shall provide Line Conditioning on 251(c)(3) Unbundled Loops, as requested by CLEC, even in instances where **AT&T-21STATE** does not provide advanced services to the End User on that 251(c)(3) Unbundled Loop.
- 3.3.4 **AT&T-21STATE** will not modify a 251(c)(3) Unbundled Loop in such a way that it no longer meets the technical parameters of the original 251(c)(3) Unbundled Loop type e.g., voice grade, etc., being ordered.
- 3.3.5 In **AT&T-12STATE** (i) If load coils, repeaters or excessive bridged tap are present on a loop less than 12,000 feet in actual loop length, conditioning to remove these elements will be performed without request; (ii) if the loop qualification indicates conditioning is available on a loop that is 12,000 feet in actual loop length or greater, CLEC may request that no conditioning be performed or that **AT&T-12STATE** perform some or all of the available loop conditioning to remove excessive bridged tap, load coils and/or repeaters at the rates set forth in the Pricing Schedule. CLEC may obtain loop conditioning information according to the terms and conditions described in the **AT&T** CLEC Online website; incorporated herein by reference, as may be modified from time to time.
- 3.3.6 **AT&T SOUTHEAST REGION 9-STATE** will remove load coils only on copper 251(c)(3) Unbundled Loops that are equal to or less than eighteen thousand (18,000) feet in length. **AT&T SOUTHEAST REGION 9-STATE** will remove load coils on copper 251(c)(3) Unbundled Subloops where the total loop distance (feeder plus distribution) from the **AT&T SOUTHEAST REGION 9-STATE** Central Office to the End User is equal to or less than 18,000 feet or, if there is no copper feeder, the distance from the remote terminal (RT) to the End User is equal to or less than 18,000 feet.
- 3.3.7 For any copper 251(c)(3) Unbundled Loop being ordered by CLEC which has over six thousand (6,000) feet of combined bridged tap will be modified, upon request from CLEC, so that the 251(c)(3) Unbundled Loop will have a maximum of six thousand (6,000) feet of bridged tap. This modification will be performed at no additional charge to CLEC. In **AT&T SOUTHEAST REGION 9-STATE** loop conditioning orders that require the removal of bridged tap that serves no network design purpose on a copper 251(c)(3) Unbundled Loop that will result in a combined total of bridged tap between two thousand five hundred (2,500) and six thousand (6,000) feet will be performed at the rates set forth in the Pricing Schedule. CLEC may request removal of any unnecessary and non-Excessive bridged tap (bridged tap between zero (0) and two thousand five hundred (2,500) feet which serves no network design purpose), at rates pursuant to **AT&T SOUTHEAST REGION 9-STATE**'s Special Construction (SC) Process, (which is a part of the service inquiry process), as mutually agreed to by the Parties.
- 3.3.8 If CLEC requests Unbundled Loop Modification (ULM) on a reserved facility for a new 251(c)(3) Unbundled Loop order, **AT&T SOUTHEAST REGION 9-STATE** may perform a pair change and provision a different 251(c)(3) Unbundled Loop facility in lieu of the reserved facility with ULM if feasible. The 251(c)(3)
-

Unbundled Loop provisioned will meet or exceed specifications of the requested 251(c)(3) Unbundled Loop facility as modified. CLEC will not be charged for ULM if a different 251(c)(3) Unbundled Loop is provisioned. For 251(c)(3) Unbundled Loops that require a Design Layout Report (DLR) or its equivalent, **AT&T SOUTHEAST REGION 9 STATE** will provide LMU detail of the 251(c)(3) Unbundled Loop provisioned.

- 3.3.9 CLEC shall request 251(c)(3) Unbundled Loop make up information pursuant to this Attachment prior to submitting a Service Inquiry, in accordance to the terms and conditions described in the AT&T CLEC Online website, and/or a Local Service Request (LSR) for the 251(c)(3) Unbundled Loop type that CLEC desires **AT&T SOUTHEAST REGION 9-STATE** to condition.
- 3.3.10 When requesting ULM for a 251(c)(3) Unbundled Loop that **AT&T SOUTHEAST REGION 9-STATE** has previously provisioned for CLEC, CLEC will submit a Service Inquiry to **AT&T SOUTHEAST REGION 9-STATE**. If a spare 251(c)(3) Unbundled Loop facility that meets the 251(c)(3) Unbundled Loop modification specifications requested by CLEC is available at the location for which the ULM was requested, CLEC will have the option to change the 251(c)(3) Unbundled Loop facility to the qualifying spare facility rather than to provide ULM. In the event that **AT&T SOUTHEAST REGION 9-STATE** changes the 251(c)(3) Unbundled Loop facility in lieu of providing ULM, CLEC will not be charged for ULM but will only be charged the service order charges for submitting an order.
- 3.4 Loops and Subloops available under this Attachment are further identified in the Pricing Schedule and AT&T CLEC Online website.
- 3.5 Pricing/Rates:
  - 3.5.1 The rates applicable to xDSL Loops, xDSL/UCSL Subloops, and the associated charges including without limitation, the applicable service order charges and charges for mechanized and manual Loop qualification, Loop conditioning and cross-connects are set forth in the Pricing Schedule.
  - 3.5.2 In those instances specified herein, or in the event that **AT&T-21STATE** agrees to perform any additional work on CLEC's behalf that is not explicitly addressed in this Attachment or for work performed outside of standard business hours, CLEC shall pay Maintenance of Service charges as outlined on the AT&T CLEC Online website and within Attachment 07 - Operations Support Systems (OSS).

## **ATTACHMENT 15 - COORDINATED HOT CUT**

---

## Table of Contents

1.0	INTRODUCTION .....	3
2.0	DEFINITIONS .....	3
3.0	CHC AND OC (CHC/OC) SERVICE DESCRIPTION .....	3
4.0	CHC/OC PRICING .....	3
5.0	ORDER COORDINATION-TIME SPECIFIC (OC-TS) AT&T SOUTHEAST REGION 9-STATE ONLY .....	3

## 1.0 Introduction

- 1.1 This Attachment sets forth terms and conditions for Coordinated Hot Cut (CHC) provided by **AT&T-13STATE** and for Order Coordination (OC) and Order Coordination-Time Specific (OC-TS) provided by **AT&T SOUTHEAST REGION 9-STATE**.

## 2.0 Definitions

- 2.1 “Conversion of Service” means the matching of the disconnect of one Telecommunications product or service with the installation of another Telecommunications product or service.
- 2.2 “Designated Installation” means an installation of service occurring at a specific time of day as specified.

## 3.0 CHC and OC (CHC/OC) Service Description

- 3.1 CHC/OC is an optional manual service offering that permits CLEC to request a Designated Installation and/or Conversion of Service during or after normal business hours.
- 3.2 CHC/OC allows the Parties to coordinate the installation of the SL2 Loops (**AT&T SOUTHEAST REGION 9-STATE**), Unbundled Digital Loops and other Loops where CHC/OC may be purchased as an option, to CLEC's facilities in order to limit the time an End User may be without service. CHC/OC is available when the Loop is provisioned over an existing circuit that is currently providing service to the End User. CHC/OC for physical conversions will be scheduled at **AT&T-22STATE**'s discretion during normal working hours on the committed due date.
- 3.3 CLEC will initiate the beginning of a CHC/OC by contacting the appropriate coordination center. This special request enables CLEC to schedule and coordinate particular provisioning requirements with **AT&T-22STATE**.
- 3.4 **AT&T-22STATE** may limit the number of service orders that can be coordinated based on workload and resources available. **AT&T-22STATE** shall approve the CHC/OC request on a non-discriminatory basis, by requesting carrier, and on a first come first served basis.
- 3.5 **AT&T-22STATE** reserves the right to suspend the availability of CHC/OC service during unanticipated heavy workload/activity periods. Heavy workload includes any unanticipated volume of work that impacts **AT&T-22STATE**'s ability to provide its baseline service. Where time permits, **AT&T-22STATE** will make every effort to notify CLEC when such unanticipated activities occur.

## 4.0 CHC/OC Pricing

- 4.1 CHC/OC is a time sensitive labor operation. Total charges are determined by a number of factors including the volume of lines, day of the week, and the time of day requested for the coordinated cut.
- 4.2 When CLEC orders CHC/OC service, **AT&T-22STATE** shall charge and CLEC agrees to pay for CHC/OC service at the “additional labor” or “Time and Material” rates set forth in the Pricing Schedule.
- 4.3 In the event **AT&T-22STATE** fails to meet a CHC/OC service commitment for reasons within the control of **AT&T-22STATE**, **AT&T-22STATE** will not charge CLEC a CHC/OC service charge. However, in the event **AT&T-22STATE** misses a CHC/OC service commitment due to reasons outside of **AT&T-22STATE**'s control, including but not limited to actions of CLEC, its agent or End User, the CHC/OC service charge will still apply. For example, if CLEC requests any change to an order with CHC/OC service including, but not limited to, no access to the CLEC's End User's premises, or CLEC/End User not ready to proceed with the order, the CHC/OC service charge will apply and **AT&T-22STATE** will not be obligated to ensure a CHC/OC for that order.

## 5.0 Order Coordination-Time Specific (OC-TS) AT&T SOUTHEAST REGION 9-STATE Only

- 5.1 OC-TS is a chargeable option for all Loops except Unbundled Copper Loops (UCL) and is billed in addition to the OC charge. CLEC may specify a time between 9:00 a.m. and 4:00 p.m. (local time) Monday through Friday, excluding **AT&T SOUTHEAST REGION 9-STATE**'s holidays. If CLEC specifies a time outside this window, or selects a time or quantity of loops that requires **AT&T SOUTHEAST REGION 9-STATE** technicians to work outside normal work hours, overtime charges will apply in addition to the OC and OC-TS charges. Overtime charges will be applied based on the amount of overtime worked and in accordance with the rates set forth in the Pricing Schedule. The OC-TS charges for an order due on the same day at the same location will be applied on a per LSR basis.

## 1.0 Introduction

- 1.1 This Attachment sets forth terms and conditions for Resale Services provided by **AT&T-22STATE** to CLEC.
- 1.2 To the extent required by Section 251(c)(4) of the Act, **AT&T-22STATE** shall make available to CLEC for resale at wholesale rates Telecommunications Services that **AT&T-22STATE** provides at retail to End Users who are not Telecommunications Carriers.
- 1.3 Each state-specific avoided cost discount applicable to rates paid by CLEC for the resale of Telecommunications Services is referred to herein as a Resale Discount. Where available, Resale Discounts are listed in the Pricing Schedule; if not listed in the Pricing Schedule, the Resale Discount(s) and/or rate(s) as stated or reflected in the applicable Tariff shall apply.
- 1.4 Except as otherwise expressly provided herein, the state-specific Tariff(s) shall govern the terms, conditions and charges associated with the Telecommunications Services available to CLEC for resale, with the exception of any resale restrictions; provided, however, that any restrictions on further resale by the End User shall continue to apply. Use limitations shall be in parity with services offered by **AT&T-22STATE** to its End Users.
- 1.5 Any change to the rates, terms and conditions of any applicable Tariff is automatically incorporated herein and is effective hereunder on the date any such change is effective.

## 2.0 Definitions

- 2.1 "Special Needs Services" means services for the physically disabled as defined in state-specific Tariffs.
- 2.2 "Tariff" means the most current state-specific retail and, where available, resale tariff(s) and/or Guidebook(s) (the latter as posted on the AT&T CLEC Online website).

## 3.0 General Provisions

- 3.1 **AT&T-22STATE**'s obligation to provide Resale Services under this Attachment is subject to availability of existing facilities. CLEC may resell Telecommunications Services provided hereunder only in those service areas in which such Resale Services or any feature or capability thereof are concurrently offered to **AT&T-22STATE**'s End Users at retail.
  - 3.2 **AT&T-22STATE** has no obligation to make services available at the Resale Discount to CLEC for its own use or for the use of one or more of its parent, Affiliates, subsidiaries or similarly-related entities. CLEC shall not use any Resale Service to avoid the rates, terms and conditions of **AT&T-22STATE**'s corresponding retail Tariff(s). Moreover, CLEC shall not use any Resale Service to provide access or interconnection services to itself, interexchange carriers (IXCs), wireless carriers, competitive access providers (CAPs), or other Telecommunications providers; provided, however, that CLEC may permit its End Users to use resold local Exchange telephone service to access IXCs, wireless carriers, CAPs, or other retail Telecommunications providers.
  - 3.3 Notwithstanding any other provision in this Agreement or in any applicable Tariff, once a service has been grandfathered it is available to CLEC for resale at the Resale Discount pursuant to the rates, terms and conditions of the state-specific retail Tariff and only:
    - (i) to the same End User; and
    - (ii) at that End User's existing location, both at the time of grandfathering.
  - 3.4 CLEC shall only sell Plexar®, Centrex and Centrex-like services to a single End User or multiple End User(s) in accordance with the terms and conditions set forth in the Tariff(s) applicable to the state(s) in which service is being offered.
-

- 3.5 Except where otherwise explicitly permitted in **AT&T-22STATE's** Tariff(s), CLEC shall not permit the sharing of a service by multiple End User(s) or the aggregation of traffic from multiple End User(s) onto a single service.
- 3.6 CLEC shall only resell services provided under this Attachment to the same category of End User(s) to whom **AT&T-22STATE** offers such services (for example, residence service shall not be resold to business End Users).
- 3.6.1 Where available for Resale in accordance with state-specific Tariffs, CLEC may resell Special Needs Services and/or low income assistance services (e.g., LifeLine and Link-Up) to End Users who are eligible for each such service. To the extent CLEC resells services that require certification on the part of the End User, CLEC shall ensure that the End User meets all the Tariff eligibility requirements, has obtained proper certification, continues to be eligible for the program(s), and complies with all rules and regulations as established by the appropriate Commission and state Tariffs.
- 3.7 When ordering services that have an eligibility requirement (e.g., available only in a "retention", "winback", or "competitive acquisition" setting), CLEC shall maintain (and provide to **AT&T-22STATE** upon reasonable request) appropriate documentation, including, but not limited to, original end user service order data, evidencing the eligibility of its End Users for such offering or promotion. **AT&T-22STATE** may request up to one (1) audit for each promotion per twelve (12) month period that may cover up to the preceding twenty-four (24) month period.
- 3.8 Promotions of ninety (90) calendar days or less ("Short-Term Promotions") shall not be available for Resale, whether at the Resale Discount or otherwise; provided, however, that **AT&T-22STATE** shall offer Short-Term Promotions for Resale at no Resale Discount in a particular state if and only to the extent required by Commission order in that state.
- 3.9 CLEC shall pay the Federal End User Common Line (EUCL) charge and any other appropriate Commission-approved charges, as set forth in the appropriate Tariff(s), for each local exchange line furnished to CLEC under this Attachment.
- 3.10 To the extent allowable by law, CLEC shall be responsible for both Primary Interexchange Carrier (PIC) and Local Primary IntraLATA Presubscription (LPIC) change charges associated with each local Exchange line furnished to CLEC under this Attachment. CLEC shall pay all charges for PIC and LPIC changes at the rates set forth in the Pricing Schedule or, if any such rate is not listed in the Pricing Schedule, then as set forth in the applicable Tariff.
- 3.11 If CLEC is in violation of any provision of this Attachment, **AT&T-22STATE** will notify CLEC of the violation in writing ("Resale Notice"). Such Resale Notice shall refer to the specific provision being violated. CLEC will have thirty (30) calendar days to correct the violation and notify **AT&T-22STATE** in writing that the violation has been corrected. **AT&T-22STATE** will bill CLEC a sum equal to:
- (i) the charges that would have been billed by **AT&T-22STATE** to CLEC or any Third Party but for the stated violation; and
  - (ii) the actual revenues CLEC billed its End User(s) in connection with the stated violation, whichever is greater.
- Should CLEC dispute the stated violation, CLEC must notify **AT&T-22STATE** in writing of the specific details and reasons for its dispute within fourteen (14) calendar days of receipt of the Resale Notice from **AT&T-22STATE** and comply with the Dispute Resolution provisions of the General Terms and Conditions ("GT&C") of the Agreement ("Dispute Resolution provisions"). Resolution of any dispute under this Attachment shall also be conducted in compliance with the Dispute Resolution provisions in the GT&C.
- 3.12 Notwithstanding any other provision of this Agreement, CLEC acknowledges and agrees that the assumption (or resale to similarly-situated end users) of customer specific arrangement contracts, individual case basis contracts, or any other customer specific pricing contract is not addressed in this Agreement and that if CLEC would like to resell such arrangements, it may only do so consistent with applicable law and after negotiating an amendment hereto that establishes the rates, terms and conditions thereof (including, without limitation, the wholesale discount, if any,
-

associated with such resale). Such amendment will only be effective upon written execution by both Parties and approval by the Commission(s).

- 3.13 Except where otherwise required by law, CLEC shall not, without **AT&T-22STATE**'s prior written authorization, offer the services covered by this Attachment using the trademarks, service marks, trade names, brand names, logos, insignia, symbols or decorative designs of **AT&T-22STATE** or its Affiliates, nor shall CLEC state or imply that there is any joint business association or similar arrangement with **AT&T-22STATE** in the provision of Telecommunications Services to CLEC's End Users.

#### **4.0 Responsibilities of Parties**

- 4.1 CLEC shall be responsible for modifying and connecting any of its systems with **AT&T-22STATE**-provided interfaces, as outlined in Attachment 07 – Operations Support Systems (OSS), and CLEC agrees to abide by **AT&T-22STATE** procedures for ordering Resale Services. CLEC shall obtain End User authorization as required by applicable federal and state laws and regulations, and assumes responsibility for applicable charges as specified in Section 258(b) of the Act.
- 4.2 CLEC shall release End User accounts in accordance with the directions of its End Users or an End User's authorized agent. When a CLEC End User switches to another carrier, **AT&T-22STATE** is free to reclaim the End User or process orders for another carrier, as applicable.
- 4.3 CLEC will have the ability to report trouble for its End Users to the appropriate **AT&T-22STATE** maintenance center(s) twenty-four (24) hours a day, seven (7) days a week, or otherwise shall be in parity with the ability offered by **AT&T-22STATE** to its End Users. CLEC will be assigned Maintenance Center(s) when CLEC's initial service agreements are made. CLEC End Users calling **AT&T-22STATE** will be referred to CLEC at the telephone number(s) provided by CLEC to **AT&T-22STATE**. Nothing herein shall be interpreted to authorize CLEC to repair, maintain, or in any way touch **AT&T-22STATE**'s network facilities, including without limitation those on End User premises.
- 4.4 CLEC's End Users' activation of Call Trace and annoying call complaints shall be handled by the **AT&T-22STATE** operations centers responsible for handling such requests. **AT&T-22STATE** shall notify CLEC of requests by its End Users to provide call records to the proper authorities. Subsequent communication and resolution of each case involving one of CLEC's End Users (whether that End User is the victim or the suspect) will be coordinated through CLEC. **AT&T-22STATE** shall be indemnified, defended and held harmless by CLEC and/or the End User against any claim, loss or damage arising from providing this information to CLEC. It is the responsibility of CLEC to take the corrective action necessary with its End User who makes annoying calls. Failure to do so will result in **AT&T-22STATE** taking corrective action, up to and including disconnecting the End User's service.
- 4.5 CLEC acknowledges that information **AT&T-22STATE** provides to law enforcement agencies at the agency's direction (e.g., Call Trace data) shall be limited to available billing number and address information. It shall be CLEC's responsibility to provide additional information necessary for any law enforcement agency's investigation.
- 4.5.1 In addition to any other indemnity obligations in this Agreement, CLEC shall indemnify **AT&T-22STATE** against any Claim that insufficient information led to inadequate prosecution.
- 4.5.2 **AT&T-22STATE** shall handle law enforcement requests in accordance with the Law Enforcement provisions of the GT&C's of the Agreement.

#### **5.0 Billing and Payment of Rates and Charges**

- 5.1 CLEC is solely responsible for the payment of all charges for all services furnished under this Attachment, including but not limited to calls originated or accepted at CLEC's location and its End Users' service locations.
-

- 5.1.1 Interexchange carried traffic (e.g., sent-paid, information services and alternate operator services messages) received by **AT&T-22STATE** for billing to Resale End User accounts will be returned as unbillable and will not be passed to CLEC for billing. An unbillable code will be returned with those messages to the carrier indicating that the messages were generated by a Resale account and will not be billed by **AT&T-22STATE**.
- 5.2 **AT&T-22STATE** shall not be responsible for the manner in which utilization of Resale Services or the associated charges are allocated to End Users or others by CLEC. Applicable rates and charges for services provided to CLEC under this Attachment will be billed directly to CLEC and shall be the responsibility of CLEC.
- 5.2.1 Charges billed to CLEC for all services provided under this Attachment shall be paid by CLEC regardless of CLEC's ability or inability to collect from its End Users for such services.
- 5.2.2 If CLEC does not wish to be responsible for payment of charges for calling card, collect, or third number billed calls (Alternately Billed Traffic or "ABT") or toll and information services (for example, 900 calls), CLEC must order the appropriate available blocking for lines provided under this Attachment and pay any applicable charges. It is the responsibility of CLEC to order the appropriate toll restriction or blocking on lines resold to End Users. CLEC acknowledges that blocking is not available for certain types of calls, including without limitation 800, 888, 411 and Directory Assistance Express Call Completion. Depending on the origination point, for example, calls originating from correctional facilities, some calls may bypass blocking systems. CLEC acknowledges all such limitations and accepts all responsibility for any charges associated with calls for which blocking is not available and any charges associated with calls that bypass blocking systems.
- 6.0 Ancillary Services**
- 6.1 E911 Emergency Service: The terms and conditions for the provision of **AT&T-22STATE** 911 services are contained in Attachment 05 – 911/E911.
- 6.2 White Pages: The rates, terms and conditions for the provision of White Pages services are contained in White Pages section of Attachment 06 - Customer Information Services.
- 6.3 Resale Operator Services and Directory Assistance (OS/DA): The rates, terms and conditions for reselling **AT&T-22STATE** OS/DA services are contained in OS/DA section of Attachment 06 - Customer Information Services.
- 6.4 Payphone Services: CLEC may provide certain local Telecommunications Services to Payphone Service Providers (PSPs) for PSPs' use in providing payphone service. Pay Telephone Service is the only local service available for resale to PSPs. Rates for Pay Telephone Service are established under the provisions of Section 276 of the Federal Telecommunications Act of 1996 and are not subject to a wholesale discount.
- 7.0 Suspension of Service**
- 7.1 See applicable Tariff(s) for rates, terms and conditions regarding Suspension of Service.
- 7.2 CLEC may offer to resell Customer Initiated Suspension and Restoral Service, as defined in the applicable Tariff(s), to its End Users. This service is not considered a Telecommunications Service and will receive no Resale Discount unless required by Commission order(s).
- 7.3 **AT&T-22STATE** will offer Suspension of Service to CLEC for the purpose of CLEC initiated suspension of service of the CLEC's End Users. This service is not considered a Telecommunications Service and will receive no Resale Discount, unless required by Commission order(s).
-

## PRICING SCHEDULE

---

## 1.0 Pricing Schedule

1.1 This Attachment sets forth the pricing terms and conditions. The rate tables included in this Attachment may be divided into categories. These categories are for convenience only and shall not be construed to define or limit any of the terms herein or affect the meaning or interpretation of this Agreement.

### 1.2 Replacement of Non-Interim Rates

1.2.1 Certain of the current rates, prices and charges set forth in this Agreement may have been established by the Commission ("Commission-established Current Rate(s)"). All rates included in this Agreement that are not specifically excluded from treatment under this Section 1.2, or that are not marked as interim or as "TBD" (To Be Determined) shall be considered Commission-established Current Rates. If, during the Term of this Agreement the Commission or the FCC modifies a Commission-established Current Rate(s) in an order or docket that is established by the Commission or FCC to be generally applicable (i.e. not an order or docket relating only to a specific complaint or interconnection agreement arbitration) to the Interconnection Services, either Party may provide written notice ("Rate Change Notice") to the other Party, after the effective date of such order, that it wishes for the modified Commission-established Non-Interim Rate(s), ("Modified Rate(s)") to replace and supersede the Commission-established Current Rate(s) already set forth in this Agreement. Following such Rate Change Notice by either Party, and without the need for any written amendment or further Commission action, CLEC's billing tables will be updated to reflect (and CLEC shall pay) the Modified Rate(s), pursuant to timeframes as specifically set forth in Section 1.2.1.1 below and Section 1.2.1.3 below, and the Modified Rate(s) will be deemed effective between the Parties as provided in Section 1.2.1.1 below and Section 1.2.1.3 below. Nonetheless, the Parties shall negotiate a conforming amendment which shall reflect that the Commission-established Current Rate(s) were replaced by the Modified Rate(s), and shall submit such amendment to the Commission for approval. In addition, as soon as is reasonably practicable after such Rate Change Notice, each Party shall issue to the other Party any adjustments that are necessary to reflect that the Modified Rate(s) became effective between the Parties as provided:

1.2.1.1 If the Rate Change Notice is issued by a Party within ninety (90) calendar days after the effective date of any such order, the Modified Rate(s) will be deemed effective between the Parties as of the effective date of the order, and **AT&T-22STATE** will issue any adjustments that are appropriate (e.g., billing of additional charges, billing credit adjustments) to retroactively true-up the Modified Rate(s) with the Commission-established current Rate(s) for the period after the effective date of the order, in accordance herewith.

1.2.1.2 In the event that neither Party issues a Rate Change Notice to the other Party with respect to an order, the Commission-established Non-Interim Rate(s) set forth in the Agreement shall continue to apply, notwithstanding the issuance of that order.

1.2.1.3 In the event that a Party issues a Rate Change Notice under this Section 1.2 above, but not within ninety (90) calendar days after the effective date of the order, then the Modified Rate(s) will be deemed effective between the Parties as of the date the amendment incorporating such Modified Rate(s) into the Agreement is effective between the Parties (following the date the amendment is approved or is deemed to have been approved by the state commission), and shall apply, on a prospective basis only, upon the amendment effective date, on a prospective basis only. Further, the Party shall be foreclosed from replacing or otherwise superseding the Commission-established Current Rate(s) with the Modified Rate(s) if the terms and conditions of this Section 1.2 above were not part of an approved and effective agreement between the Parties at the time the order became effective, either Party may still give a Rate Change Notice, and the Modified Rate(s) shall be effective as of the date the Parties' Agreement (containing this Section 1.2,) becomes effective (following the date the Agreement is approved or deemed to have been approved by the

---

Commission) and shall apply, beginning on the Agreement's effective date, on a prospective basis only. Further, the Party shall be foreclosed from replacing or otherwise superseding the Commission-established current Rate(s) with the Modified Rate(s) for any period prior to the effective date of the Agreement containing this Section 1.2 above.

### 1.3 Replacement of Interim Rates

- 1.3.1 Certain of the rates, prices and charges set forth in this Agreement may be denoted as interim rates ("Current Interim Rates"). Upon the effective date of a Commission Order establishing non-interim rates for any rates, prices, charges, Interconnection Services specifically identified herein as interim, either Party may, within ninety (90) calendar days after the effective date of such Commission order, provide written notice ("Replacement Rate Notice") to the other Party that it wishes to obtain the new Commission-established rate(s) ("Replacement Rates") to replace and supersede the Interim Rate counterpart(s) in this Agreement. Following such Replacement Rate Notice, and without the need for any formal amendment or further Commission action, **AT&T-22STATE** will update CLEC's billing tables to replace the Current Interim Rates with their Replacement Rate(s) counterpart(s), as specified in the Replacement Rate Notice. Nonetheless, the Parties shall negotiate a conforming amendment to reflect such Replacement Rates and shall submit such amendment to the Commission for approval.
- 1.3.2 If the Replacement Rate Notice is given within ninety (90) calendar days after the effective date of such order, then the Replacement Rate(s) shall apply as of the effective date of the order and **AT&T-22STATE** will issue any adjustments that are appropriate (e.g., billing of additional charges, billing credit adjustments) to retroactively true-up the Replacement Rates with the Interim Rates for the period after the effective date of this Agreement, in accordance herewith.
- 1.3.3 In the event that neither Party issues a Rate Notice to the other Party with respect to an order, the Interim Rate(s) set forth in the Agreement shall continue to apply, notwithstanding the issuance of that order.
- 1.3.4 In the event that a Party issues a Rate Notice under this Section 1.3 above, but not within ninety (90) calendar days after the effective date of the order, then the Replacement Rate(s) will be deemed effective between the Parties as of the date the amendment incorporating such Replacement Rate(s) into the Agreement is effective between the Parties (following the date the amendment is approved or is deemed to have been approved by the Commission), and shall apply, upon the amendment effective date, on a prospective basis only. Further, the Party shall be foreclosed from replacing or otherwise superseding the Current Interim Rate(s) with the Replacement Rate(s) for any period prior to the effective date of such amendment.
- 1.3.5 In the event the terms and conditions of this Section 1.3 above were not part of an approved and effective agreement between the Parties at the time the order became effective, either Party may still give a Replacement Rate Notice, and the Replacement Rate(s) shall be effective as of the date the Parties' Agreement (the Agreement containing this Section 1.3 above) becomes effective (following the date the Agreement is approved or deemed to have been approved by the Commission) and shall apply, beginning on the Agreement's effective date, on a prospective basis only. Further, the Party shall be foreclosed from replacing or otherwise superseding the Current Interim Rate(s) with the Replacement Rate(s) for any period prior to the effective date of the Agreement containing this Section 1.3 above.

### 1.4 Notice to Adopting CLECs

- 1.4.1 Notwithstanding anything to the contrary in this Pricing Schedule and Agreement, in the event that any other CLEC should seek to adopt the Agreement pursuant to Section 252(i) of the Act ("Adopting CLEC"), the Adopting CLEC would only be entitled to the current and/or interim rates set forth in this Agreement as of the date that the MFN'd Agreement provisions become effective between **AT&T-22STATE** and the Adopting CLEC (i.e. following the date the Commission approves or is deemed to have approved the Adopting CLEC's Section 252(i) adoption ("MFN Effective Date")) and on a prospective basis only. Nothing in this
-

Agreement shall entitle an Adopting CLEC to any retroactive application of any rates under this Agreement to any date prior to the MFN Effective Date and any adopting CLEC is foreclosed from making any such claim hereunder.

- 1.4.2 **AT&T-22STATE** obligation, under this Agreement, per the GT&C is to only provide Interconnection Services for which complete rates, terms and conditions are contained in this Agreement. Accordingly, to the extent CLEC orders a product or service for which there are not complete rates, terms and conditions contained in this Agreement, **AT&T-22STATE** may reject the order. CLEC must amend this Agreement to allow ordering of products and services for which complete rates, terms and conditions did not exist as of the Effective Date of the Agreement to the extent such product or service is still available at the time of the request. In the event that CLEC orders, and **AT&T-22STATE** provisions, a product or service to CLEC for which there are not complete rates, terms and conditions in this Agreement, then CLEC understands and agrees that one of the following will occur:
- 1.4.3 CLEC shall pay for the product or service provisioned to CLEC at the rates set forth in **AT&T-22STATE**'s applicable intrastate tariff(s) for the product or service or, to the extent there are no tariff rates, terms or conditions available for the product or service in the applicable state, then CLEC shall pay for the product or service at **AT&T-22STATE**'s current generic contract rate for the product or service set forth in **AT&T-22STATE**'s applicable state-specific generic Pricing Schedule as published on the AT&T CLEC Online website; or
- 1.4.4 CLEC will be billed and shall pay for the product or service as provided in Section 1.4.3 above, and **AT&T-22STATE** may, without further obligation, reject future orders and further provisioning of the product or service until such time as applicable rates, terms and conditions are incorporated into this Agreement as set forth in this Section 1.4.2 above. If CLEC and **AT&T-22STATE** cannot agree on rates, terms, and conditions either Party may institute the Dispute Resolution provisions as contained in the GT&Cs.
- 1.4.5 **AT&T-22STATE**'s provisioning of orders for such Interconnection Services is expressly subject to this Section 1.4.2 above, and in no way constitutes a waiver of **AT&T-22STATE**'s right to charge and collect payment for such products and/or services.
- 1.4.6 Where the rate for an **AT&T-22STATE** Interconnection Service is identified as a tariffed rate, any changes to the tariff rate shall be automatically incorporated into this Agreement. The issuance of a Commission Order approving such rate change shall be the only Notice required under this Agreement. Provided however, should a tariff or tariff rate, incorporated into this Agreement, be withdrawn or invalidated in any way during the term of this Agreement, the last rate in effect at the time of such withdrawal or invalidation shall continue to apply during the remaining term of this Agreement.
- 1.4.7 The Resale Discount applicable to purchases of Resold Services in each State is the current Commission-approved rate. Any Commission approved or ordered change in the Resale discount for Resold Services shall be automatically incorporated into this Agreement for the state in which such Commission approves or orders the change. The issuance of the Commission Order approving such change shall be the only Notice required under this Agreement.
- 1.5 Establishment of "TBD" Rates
- 1.5.1 When a rate, price or charge in this Agreement is noted as "To Be Determined" or "TBD" or no rate is shown, the Parties understand and agree that when a rate, price or charge is established by **AT&T-22STATE** for that Interconnection Service and incorporated into **AT&T-22STATE**'s current state-specific Generic Pricing Schedule as published on the AT&T CLEC Online website, that rate(s) ("Established Rate") shall automatically apply to the Interconnection Service provided under this Agreement back to the Effective Date of this Agreement as to any orders CLEC submitted and **AT&T-22STATE** provisioned for that Interconnection Service without the need for any additional modification(s) to this Agreement or further Commission action. **AT&T-22STATE** shall provide Written Notice to CLEC of the application of the rate,
-

price or charge that has been established, and the CLEC's billing tables will be updated to reflect (and CLEC will be charged) the Established Rate, and the Established Rate will be deemed effective between the Parties as of the Effective Date of the Agreement. The Parties shall negotiate a conforming amendment which shall reflect the Established Rate that applies to such Product or Service pursuant to this Section 1.5 above, and shall submit such Amendment to the State Commission for approval. In addition, as soon as is reasonably practicable after such Established Rate begins to apply, **AT&T-22STATE** shall bill CLEC to reflect the application of the Established Rate retroactively to the Effective Date of the Agreement between the Parties.

- 1.5.2 **AT&T-22STATE**'s provisioning of such orders for such Interconnection Services is expressly subject to this Section 1.5 above and in no way constitutes a waiver of **AT&T-22STATE**'s right to charge and collect payment for such Interconnection Services.

1.6 Recurring Charges

- 1.6.1 Unless otherwise identified in the Pricing Tables, where rates are shown as monthly, a month will be defined as a thirty (30) day calendar month. The minimum term for each monthly rated Interconnection Services will be one (1) month. After the initial month, billing will be on the basis of whole or fractional months used. The minimum term for Interconnection Services, if applicable, will be specified in the rate tables included in this Attachment.
- 1.6.2 Where rates are distance sensitive, the mileage will be calculated on the airline distance involved between the locations. To determine the rate to be billed **AT&T-22STATE** will first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association, Inc. Tariff FCC No 4. When the calculation results in a fraction of a mile, **AT&T-22STATE** will round up to the next whole mile before determining the mileage and applying rates.

1.7 Non-Recurring Charges:

- 1.7.1 Where rates consist of usage sensitive charges or per occurrence charges, such rates are classified as "non-recurring charges."
- 1.7.2 Consistent with FCC Rule 51.307(d), there may be non-recurring charges for each 251(c)(3) UNE.
- 1.7.3 When CLEC converts an End-User currently receiving non-complex service from **AT&T-22STATE**, without any facilities rearrangements to **AT&T-22STATE**'s network, the normal service order charges and/or nonrecurring charges associated with said additions and/or changes will apply.
- 1.7.4 CLEC shall pay the applicable service order processing/administration charge for each service order submitted by CLEC to **AT&T-22STATE** to process a request for installation, disconnection, rearrangement, change, or record order.
- 1.7.5 In some cases, Commissions have ordered **AT&T-22STATE** to separate disconnect costs and installation costs into two separate nonrecurring charges. Accordingly, unless otherwise noted in this Agreement, the Commission-ordered disconnect charges will be applied at the time the disconnect activity is performed by **AT&T-22STATE**, regardless of whether or not a disconnect order is issued by CLEC.
- 1.7.6 Time and Material charges (a.k.a. additional labor charges) are defined in the Price Schedule contained herein.
- 1.7.7 Loop Zone charges are defined in the Price Schedule contained herein.
