KANSAS CITY POWER & LIGHT COMPANY

(Name of Issuing Utility)

Replacing Schedule \_\_\_\_\_ Sheet \_\_\_\_\_

Rate Areas 2 &amp; 4

(Territory to which schedule is applicable)

which was filed \_\_\_\_\_

No supplement or separate understanding  
shall modify the tariff as shown hereon.Sheet 28 of 99 Sheets**GENERAL RULES AND REGULATIONS  
APPLYING TO ELECTRIC SERVICE****4. BILLING AND PAYMENT (continued)****4.08 ESTIMATED BILL PROCEDURE: (continued)****(A) ESTIMATION METHOD: (continued)**

(1) For customers with Advanced Metering Infrastructure (AMI) meters, when a current meter read is unavailable, the system will average consumption from the three-prior days to estimate a read. If that information is not available, a second estimation attempt will be made. The system will average the usage from five historical reads from the previous year. It will average the usage from the read in the prior year from the same day as being estimated along with the three days prior and one day after. If the second estimation attempt is not successful, then the estimation is a manual process. The Billing Department will estimate usage based on historical usage information from the same premise and if and not available, the usage of customers with like premises.

(2) For customers with non-AMI meters, when a current meter read is unavailable, the system will average the usage from the prior year in the same billing month and the following billing month. If that information is not available, a second read estimation attempt will be made by averaging the usage from the prior two readings. If the second estimation attempt is not successful, then the estimation is a manual process. The Billing Department will estimate usage based on historical usage information from the same premise and if not available, the usage of customers with like premises.
