Re: Request for Hearing  
Docket #20-CONS-3134-CPEN  
Fitzgerald #3 SWD  
Sec. 17-29S-6W, Kingman County, Ks

We respectfully request a hearing on the above referenced docket. Oil Producers, Inc. of Kansas (OPIK) did not operate this well without a current mechanical integrity test (MIT) as stated in the violation description. After the failed MIT, OPIK shut the well in. It was no threat to fresh water. This is a vital SWD for our wells in the area. OPIK was in constant contact with the Kansas Corporation Commission (KCC), District Office and Wichita Office, as to the status of this well and others we were working on. We received the penalty assessment during the period of time that we were moving in on location, as communicated to the KCC. We are currently on location of the Fitzgerald #3 SWD to return to service.

We respectfully request your compassion and ask that this assessment be rescinded and dismissed.

Sincerely,

Melody C. Fletcher  
Chief Operating Officer
