

**BEFORE THE CORPORATION COMMISSION
OF THE STATE OF KANSAS**

In the matter of the application of Apollo Energies,)	Docket No: 22-CONS-3367-CUIC
Inc. (Operator) for a permit to authorize the)	
enhanced recovery of saltwater into the Bowers #1)	
well located in the NE/4 of Section 3, Township 28,))	CONSERVATION DIVISION
Range 11 West, Pratt County Kansas)	
_____)	License No: 30481

**PRE-FILED TESTIMONY OF JIM BYERS,
PRESIDENT OF APOLLO ENERGIES, INC.**

- 1 **Q: Please state your name and business address?**
- 2 A: Jim Byers, 10378 N HWY 281, Pratt Kansas 67124
- 3 **Q: Are you the president of Apollo Energies, Inc.?**
- 4 A: Yes
- 5 **Q: Could you provide the Commission a brief description of your work history?**
- 6 A: I've been in the oilfield business since 1965. I worked at Clark Well Service, Inc.,
- 7 Medicine Lodge, Kansas, at Skelly Oil Company later to become Getty Oil as a
- 8 production foreman and completion man. I worked at Eagle Exploration, Inc. as manager
- 9 of operations and production manager and began working at my own business, Apollo
- 10 Energies, Inc. in 1985 through the present date.
- 11 **Q: Do you own and/or operate a number of wells in Kansas and Oklahoma?**
- 12 A: I have an operator's license in both Kansas and Oklahoma. Apollo Energies, Inc. owns
- 13 and operates over 200 wells in the State of Kansas and 4 - 5 wells in the State of
- 14 Oklahoma.

15 **Q:** **Are you testify on behalf of Apollo Energies, Inc. in the above entitled matter**
16 **wherein Apollo Energies, Inc. has requested a permit to authorize the enhanced**
17 **recovery of saltwater into the Bowers #1 Well located in the Northeast Quarter**
18 **(NE/4) of Section 3, Township 28 South, Range 11 West of the 6th P.M., Pratt**
19 **County, Kansas?**

20 **A:** Yes

21 **Q:** **Is it a true statement that Braden - Deem purchased this lease in 1970 and formed**
22 **the Cunningham Water Flood Unit?**

23 **A:** Yes

24 **Q:** **Does the Cunningham Water Flood Unit cover the following described leaseholds in**
25 **Pratt County, Kansas?**

26 All of Section, Township 28 South, Range 11 West of the 6th P.M., Pratt County, Kansas

27 **A:** Yes

28 **Q:** **When did Apollo Energies, Inc. acquire the Cunningham Water Flood Unit?**

29 **A:** Apollo Energies, Inc. purchased this water flood unit from Braden - Deem on April 1,
30 1990. Apollo Energies, Inc. has operated the Cunningham Water Flood Unit from that
31 date until present date at an annual profit.

32 **Q:** **How many wells are currently injecting water into the Cunningham Water Flood**
33 **Unit?**

34 **A:** The Royce #4 Well located near the southern portion of the Cunningham Water Flood
35 Unit is currently the only well injecting water into the Cunningham Water Flood Unit.

36 **Q: How many producing wells are currently located on the Cunningham Water Flood**
37 **Unit?**

38 A: There are four wells and the Bowers #2, which is currently down for repairs which cannot
39 be completed until the irrigation season is over for the protestors since the well is located
40 in the center of the irrigation system on Mr. Preisser's land. There is also one injection
41 well. Attached hereto as Exhibits A, B, C & D are maps showing the location of the wells
42 production history from the Kansas Geological Society and list of royalty owners who
43 receive payments from the Cunningham Water Flood Unit.

44 **Q: Why are you requesting that the Commission grant your request to authorize the**
45 **Bowers #1 Well to be permitted as a well for enhanced recovery "injection well".**
46 **Cunningham Water Flood Unit?**

47 A: We have been concerned for a number of years that if the Royce #4 Well was ever down
48 for repairs or not able to be used as an injection well, the production from the
49 Cunningham Water Flood Unit would decrease substantially.

50 The Bowers #1 Well is located in the northeast corner of the Cunningham Water Flood
51 unit, and I believe that the well can operate as both a northern border to the water flood
52 unit and push additional oil to the south towards the producing wells located on
53 Cunningham Water Flood Unit.

54 Obviously, in addition to the Bowers #1 well being used as both a Northern border to the
55 water flood, we believe said injection well will cause oil to be pushed to the other
56 producing wells which will enhance production for the entire unit.

57 **Q: In the protest filed by the protestors, they allege in paragraph 10, that of the oil and**
58 **gas lease covering the North Half of the Northeast Quarter (N/2 NE/4) of Section 3,**
59 **Township 28 South, Range 11 West of the 6th P.M., Pratt County, Kansas is not a**
60 **valid oil and gas lease on said property. Is that a true statement Jim?**

61 A: No, that is not a true statement. The oil and gas lease referred to in paragraph 10 of the
62 protestor's petition is part of the Cunningham Water Flood Unit. This unit has produced
63 oil in paying quantities since the unit was formed in 1970. There has been continuous
64 production from the Cunningham Water Flood Unit from 1970 to the present date, and
65 accordingly, all of the oil and gas leases which are part of the Cunningham Water Flood
66 Unit remain valid oil and gas leases.

67 **Q: Have you done any computations as to the amount of property which would be**
68 **needed by Apollo Energies, Inc. to use the Bowers #1 Well as an injection well?**

69 A: Yes, by placing two tank batteries together with a 12 foot wide road 330 feet, the total
70 acreage which would be occupied by the Bowers #1 Injection Well would be .127 acres.

71 **Q: Have you made any calculations as to the potential for increased revenue from the**
72 **Cunningham Water Flood Unit by reason of the use of the Bowers #1 Well as an**
73 **injection well?**

74 A: Yes, in the event the Bowers #1 Injection Well would increase production by 1 barrel per
75 day assuming \$90.00 per barrel oil prices, the revenue from the water unit would increase
76 by a little over \$33,000.00 per year. Obviously, at \$90.00 an oil increase of only 1/2 a
77 barrel a day would generate revenue of over \$16,000.00 per year.

78 **Q: Would Apollo Energies, Inc. compensate the protesters for the use of the**
79 **approximately .127 acres to use convert the Bowers #1 Well to an injection well?**

80 **A:** Apollo Energies, Inc. will compensate the protesters and the owners of the property
81 where the Bowers #1 Well is located on the basis of \$5,000.00 per acre, which is on the
82 high side of land being irrigated by windshield wiper type irrigation system as opposed to
83 a circle irrigation system.

84 **Q: Are there are number of royalty owners who benefit from the production received**
85 **from the Cunningham Water Flood Unit?**

86 **A:** Yes

87 **Q: Have you attached as Exhibit D to this Pre-Filed Testimony the current royalty**
88 **owners who obtained benefit from the Cunningham Water Flood Unit?**

89 **A:** Yes, I have and Larry Preisser, one of the protestors, owns a royalty interest in the
90 Cunningham Water Flood Unit.

91 **Q: Do the protestors receive benefit as a royalty owner from production received from**
92 **the Cunningham Water Flood Unit?**

93 **A:** Yes

94 **Q: Have any other royalty owners filed any protest with the Kansas Corporation**
95 **Commission regarding your petition?**

96 **A:** Not to my knowledge .

97 **Q: Has the Bowers #1 Well passed its mechanical integrity test?**

98 **A:** Yes

99 Q: **Has this well in the past been authorized by the Kansas Corporation Commission as**
100 **an injection well?**

101 A: Yes. In 1944 the Bowers #1 Well was a producing oil well. In 1970, when Braden-Deem,
102 Inc. created the Cunningham Water Flood Unit, the Kansas Corporation Commission
103 authorized Braden-Deem, Inc. to use the Bowers #1 Well as an injection well. Later, the
104 Bowers #1 Well returned to use as a producing oil well.

105 Q: **Does this conclude your testimony?**

106 A: Yes

Respectfully submitted,

JOHNSTON, EISENHAUER, EISENHAUER
& LYNCH, LLC.
