Evergy Kansas Central bill insert for U.S. Mail and PDF for electronic bill customers:

NOTICE OF PUBLIC HEARING & COMMENT PERIOD CONCERNING EVERGY RATE REQUEST

Evergy has filed an Application with the Kansas Corporation Commission (Commission) requesting a \$196.4 million (8.62%) rate increase for Evergy Kansas Central (EKC) customers. If approved, prices would become effective in September 2025. EKC residential customers would have an average monthly increase of \$13.05.

Evergy's Application requests updated prices to include nearly \$1 billion investment in infrastructure that serves customers, adjustments for overall cost of capital and increased operating expenses. Evergy's request does not include costs related to the Panasonic Electric Vehicle battery plant or the two natural gas plants that Evergy has announced it plans to build in Kansas. Evergy has also proposed the Evergy Stay Connected Pilot program that would offer monthly credits and help income eligible Kansas residents remain current on their account.

EKC serves about 735,000 customers in Topeka, Lawrence, Olathe, Leavenworth, Atchison, Manhattan, Salina, Hutchinson, Emporia, Parsons, Wichita, Arkansas City, El Dorado, Newton, Fort Scott, Pittsburg and Independence, among other towns and rural areas. This request does not include Evergy Kansas Metro, which serves customers in Lenexa, Overland Park and other communities near the Kansas City metro area.

REGULATORY RESPONSIBILITY

The Commission regulates public utilities, including home telephone, natural gas, electric and water companies, as well as motor carriers, oil and gas pipelines, and oil and gas producers. The Commission's regulatory oversight of public utilities primarily pertains to rates and terms of service. To ensure that customers of regulated utilities are provided sufficient and efficient service at just and reasonable rates, utilities may not change their rates without Commission approval.
