

Dear Kansas Corporation Commision,

I would like to request a hearing on the mater of 19-cond-3400-CPEN.

None of the wells on my inventory have been producing while my license has been expired.
I have been working with several operators to get the wells transferred to them and have found one willing to take the lease, we need a couple more weeks to finalize the details and get the T-1's filed.

Thorvald McKiearnan
Thunderbolt Construction.
