

**BEFORE THE STATE CORPORATION COMMISSION
OF THE STATE OF KANSAS**

In the matter of the failure of Mark L. Haas) Docket Nos.: 25-CONS-3087-CPEN
(Operator) to comply with K.A.R. 82-3-120.)
) CONSERVATION DIVISION
)
_____) License No.: 5935

MOTION TO ADD WELLS TO PENALTY ORDER

Staff of the Kansas Corporation Commission (Staff and Commission, respectively) files this motion requesting that the Commission add eight wells to the penalty order that was assessed on September 10, 2024, in the captioned docket. In support of Staff's motion, Staff states as follows:

1. On September 10, 2024, the Commission issued a Penalty Order against Mark L. Haas (Operator), License #5935, in the captioned docket for having six unplugged wells remaining on an expired license.

2. On September 20, 2024, an Entry of Appearance and Request for Hearing was filed on behalf of Operator.

3. On September 26, 2024, the Commission issued an Order Designating Presiding Officer and Setting Prehearing Conference for October 10, 2024. At the time of the prehearing conference, a seventh well had been located as drilled and added to Operator's license. The parties agreed that it would be appropriate to determine how many wells were associated with Operator's license and for a motion to be filed requesting the wells be included as part of the captioned docket.

4. After the prehearing conference, Staff identified well records associated with Operator's license. These were records such as cancelled injection wells or permitted wells with expired intent-to-drill forms where no completion report was filed to support the physical existence of a well. Commission District #3 Staff conducted lease inspections to confirm the

physical existence of the wells associated with the records. Staff's lease inspections resulted in a total of 13 wells associated with Operator's license being identified. These wells are:

- a. **Alexander #7, API #15-207-01379, Section 18, Township 24 South, Range 16 East, Woodson County, Kansas;**
- b. **Clarson #6, API #15-207-24732, Section 9, Township 25 South, Range 16 East, Woodson County, Kansas;**
- c. **Estes #8, API #15-207-02841, Section 7, Township 24 South, Range 14 East, Woodson County, Kansas;**
- d. Knox #12, API #15-207-23492, Section 24, Township 24 South, Range 13 East, Woodson County, Kansas;
- e. **Lauber #44, API #15-207-26091, Section 21, Township 25 South, Range 15 East, Woodson County, Kansas;**
- f. Ott A #A 21, API #15-073-01562, Section 25, Township 22 South, Range 12 East, Greenwood County, Kansas;
- g. **Rhea #21, API #15-207-02842, Section 13, Township 24 South, Range 13 East, Woodson County, Kansas;**
- h. **Sowder #2, API #15-207-25001, Section 13, Township 26 South, Range 13 East, Woodson County, Kansas;**
- i. Stockebrand #7, API #15-207-25247, Section 33, Township 23 South, Range 15 East, Woodson County, Kansas;
- j. Stockebrand II #2-M, API #15-207-22216, Section 33, Township 23 South, Range 15 East, Woodson County Kansas;
- k. **Switzer #2-H, API #15-207-25089, Section 34, Township 23 South, Range 15 East, Woodson County, Kansas;**
- l. Switzer #2-J, API #15-207-24793, Section 2, Township 24 South, Range 15 East, Woodson County, Kansas; and

m. Wallace #16, API #15-207-24885, Section 21, Township 25 South, Range 15 East, Woodson County, Kansas.

5. The wells not included in the initial penalty order issued by the Commission are in bold above. Additionally, Staff has attached field reports for each of the wells listed above as Exhibit A.¹ Staff has consulted with Operator's Counsel who indicated that he did not oppose this motion so that all of the wells impacted may be addressed at once.

WHEREFORE, Staff respectfully requests the Commission add the eight wells in bold above to the captioned docket, and for such other and further relief as the Commission deems just and equitable.

Respectfully Submitted,

/s/ Kelcey Marsh
Kelcey A. Marsh, #28300
Litigation Counsel | Kansas Corporation Commission
266 N. Main St., Ste. 220 | Wichita, KS 67202
Phone: 316-337-6200 | Email: Kelcey.Marsh@ks.gov

¹ Staff's field inspection report notes that it was not able to locate the Ott A #28, API #15-073-01747, at the time of inspection but that additional areas need to be investigated to determine whether the well is drilled.

Phone contact: 913-402-0998 County: WO

Reason for Investigation:

Request from Central Office Legal Staff.

Problem:

Confirm well status of wells listed on operator's well inventory.

Persons contacted:

KCC Staff

Findings:

On November 22nd, 2024, I inspected three permitted well locations. I located one well above ground and the other two wells were not able to be located above surface at the time of inspection. The details of the wells are as follows:

Alexander 7 API# 15-207-01379-00-00 NE SE NW 3757 FSL 2933 FEL LAT: 37.962087 LONG: -095.693955 This well was found to be constructed with 4.5" casing. No surface casing was visible at the surface. This well was not equipped with any surface control. This well was listed on RBDMS as an Approved intent to drill ("PW"). I have updated the status to Inactive ("IN") in RBDMS and updated the well location footages along with GPS coordinates.

(continued on page 2)

Actions / Recommendation Follow-up Required Deadline Date:

I will forward this report along with GPS map and photo ID's on to Ryan Duling, District #3 Compliance Officer, for review and request the report be sent to Central Office Legal staff.

Phone contact: 913-402-0998 County: WO

Reason for Investigation:

Request from central office legal staff.

Problem:

Confirm the well status of the Clarson #6 API # 15-207-24732-00-00 located in 9-25-16E Woodson County on operator Haas, Mark L expired license # 5935.

Persons contacted:

KCC Staff

Findings:

On November 22nd, 2024, I inspected one permitted well location listed on operator's license. While looking at old ariel photographs from 1991 on KGS, I noticed tracks and a turnaround spot near the location of where the well was intended. There is also a drillers log from Coconut Drilling and two electronic logs from Cornish attached to this well entry on the KGS Website. I was unable to locate a well above ground at the spot location. I used a metal detector and located a spot that picked up metal tone indicating a possible casing below surface. There is also gravel near this location representing an old pad around the well site that is often used to level the pump jack.

(continued on page 2)

Actions / Recommendation Follow-up Required Deadline Date:

I will forward this report along with screen shots of the 1991 Ariel photographs, a copy of the drillers log, and a photo of the well location on to Ryan Duling, District #3 Compliance Officer, for review and request the report be sent to Central Office Legal staff.

Inspection Date: 11/22/2024 District: 3 Incident Number: 8837

- New Situation Lease Inspection
 Response to Request Complaint
 Follow-up Field Report

Operator License No: 5935 API: 15-207-26091-00-00 Q3: SW Q2: SE Q1: SE
Operator Name: Haas, Mark L SEC 21 TWP 25 RGE 15 RGEDIR: E
Address: 800 W. 47th ST., STE 409 FSL: 250
City: Kansas City FEL: 1151
State: Missouri Zip Code: 64112 Lease: Lauber Well No.: 44
Phone contact: (913)-402-0998 County: WO

Reason for Investigation:

Request from central office legal staff.

Problem:

Confirm the well status of the Lauber # 44 API # 15-207-26091-00-00 located in 21-25-15E Woodson County on operator Haas, Mark L expired license # 5935.

Persons contacted:

KCC Staff

Findings:

On November 22nd, 2024, I referenced the Lauber # 44 API # 15-207-26091-00-00 with GPS. This well was listed on RBDMS as an Approved intent to drill ("PW"). I have updated the status to Inactive ("IN") in RBDMS and updated the well location footages along with GPS coordinates.

Lauber # 44 API # 15-207-26091-00-00 SW SE SE, 250 FSL & 1151 FEL, Lat. 37.851024 & Long. - 95.760741. The Lauber # 44 was found to be an inactive oil well constructed with 6 inch casing. My lease inspection found that this well has cement present at the surface. Since there are no records of this well being plugged it will need to be drilled out. See attached photos 962 & 963.

Actions / Recommendation

Follow-up Required

Deadline Date:

I will forward this report on to Ryan Duling, District #3 Compliance Officer, for review and request the report be sent to Central Office Legal staff.

Report Prepared By: Duling / Tromsness

Position: E.C.R.S.

KCC OIL/GAS REGULATORY OFFICES

Additional Findings:

(Continued from page 1)

Well Information:

Ott A #A 21, API #15-073-01562-00-01, 3645 FSL 4954 FEL, Lat: 38.109060 Long: -96.047850, NW SW NW, The Ott #A-21 is an inactive EOR (Enhanced Oil Recovery) well constructed with 5.5" production casing and 2.375" tubing. The tubing is shut in with a swedge and valve. See attached photos PIC ID #01 and #02.

Ott A #28. API #15-073-01747-00-00, 990 FSL 330 FEL, The Ott A #28 well is listed on operator's expired license and District #3 staff has yet to confirm the location. This well is listed in the SE 1/4 of 25-22-12E. The Ott Lease covers the NW 1/4 of 25-22-12E and the NE 1/4 of 26-22-12E. Staff will have to investigate those two area to determine if the Ott A #28 was drilled in those quarter sections instead of the listed spot location on the operator's license.

In conclusion, one inactive well was located on the Ott A lease located in 25-22-12E, Greenwood county, and listed on Mark Haas KLN #5935 inactive operator's license. This license was not renewed. Operator's license expired on 6/30/2005. District staff will investigate and try to locate the Ott A #28 well at a later time.

Well Information:

Stockebrand II #2-M, API #15-207-22216-00-01, 657 FSL 1213 FEL, Lat: 37.997407 Long: -95.761583, NW SW SE SE, Stockenbrand #2M is an inactive oil well constructed with 2" casing that is shut in with a ball valve. There is an old drill/workover pit just North and West of this well. In the past, this well has flowed allowing fluids to escape into the pit. Fluids were present in the pit consisting of an approximation of 1-2 barrels of fluid. See attached photos, PIC ID#01 and PIC ID#02 dated 10/14/2024.

Stockebrand #7, API #15-207-25247-00-00, 2463 FSL 1060 FEL, Lat: 38.002359 Long: -95.761136, NW SE SE, Stockebrand #7 is an inactive oil well constructed with 3.5" casing that is not shut in. See attached photo, PIC ID#03 dated 10/14/2024.

In conclusion, two inactive oil wells were located on the Stockebrand Lease located in 33-23-15E, Woodson county, and listed on Mark Haas KLN #5935 inactive operator's license. This license was not renewed. Operator's license expired on 6/30/2005.

Important procedures to follow:

1. Notify District office before setting surface casing.
2. Set surface casing by circulating cement to the top.
3. File completion forms ACO-1 with K.C.C. within 90 days of well completion, following instructions on ACO-1, side 1, and including copies of wireline logs.
4. Notify District office 48 hours prior to old well workover or re-entry.
5. Prior to plugging, prepare a plugging plan, then obtain agreement from the appropriate district office for an approved plugging plan.
6. Submit plugging report (CP-4) to K.C.C. after plugging is completed.
7. Obtain an approved injection docket number before disposing of salt water.
8. Notify K.C.C. within 10 days when injection commences or terminates.
9. If an alternate 2 completion, cement in the production pipe from below any usable water to surface within 120 days of spud date.
