Dear Rene Stucky,

Please deny JTC Oil Inc.'s application for injection authority at the Blunk I-10 and Blunk I-11 wells on Section 18, Township 17 South, Range 21 East in Franklin County.

Given the latitudinal coordinates of the proposed well (38.56, -95.12), the USGS Earthquake mapping tool shows there was an earthquake with a magnitude of 3.1 on March 23, 2007 with coordinates of 39.46, -95.34. This is a distance of ~16.1 miles. A 3.0 earthquake generates a maximum ground motion of 1 millimeter (mm) at 100 km distance. This well is thus too close to an active seismic area.

Sensitive groundwater latitudinal and longitudinal coordinates to this well must be plotted on the "Sensitive Groundwater Areas" map made by the Kansas Corporation Commission and this information be made public before this permit can be granted.

Sincerely,
Jessica Skyfield
