

BEFORE THE STATE CORPORATION COMMISSION  
OF THE STATE OF KANSAS

STATE CORPORATION COMMISSION

AUG 14 2009

In the Matter of the Application of Atmos )  
Energy for Approval of the Commission for )  
Gas System Reliability Surcharge per K.S.A. )  
66-2201 through 66-2204 )

Docket No. 10-ATMG-133-TAR

**DIRECT TESTIMONY OF BARTON W. ARMSTRONG**

1 **Q. PLEASE STATE YOUR NAME AND BUSINESS ADDRESS.**

2 A. My name is Barton W. Armstrong, and my business address is 25090 W. 110<sup>th</sup> Terrace, Olathe,  
3 Kansas 66061.

4 **Q. BY WHOM ARE YOU EMPLOYED AND IN WHAT CAPACITY?**

5 A. I am employed by Atmos Energy ("Atmos") as Vice President of Operations. In that capacity,  
6 I have overall responsibility for the safe and reliable provision of gas service in the Kansas  
7 Region, including daily operations and maintenance activities, and planning and completion  
8 of capital investment projects.

9 **Q. PLEASE STATE YOUR EDUCATIONAL BACKGROUND AND BUSINESS**  
10 **EXPERIENCE.**

11 A. I received a Bachelor of Science degree from Texas Tech University, Lubbock, Texas, in 1991.  
12 I have been employed in the natural gas distribution business for 19 years, during which time  
13 I have worked in various capacities in operations and marketing. I began work in 1990 for  
14 Atmos Energy (formerly Energas) in Lubbock, Texas as a utility worker in the service  
15 department. From 1993 to 2006, I worked in the Marketing department in various roles  
16 including Sales Representative, Industrial and Large Volume Sales Manager and Marketing  
17 Manager for the West Texas Division. In this role I was responsible for all business

1 development, gas transportation revenues, sales revenues, customer growth and operations of  
2 an Intrastate pipeline that supplied natural gas to over 200,000 customer in West Texas. In  
3 2007 I was promoted to Operations Manager in Lubbock and responsible for 89 employees,  
4 6,000 miles of pipe, all daily field operations, maintenance and capital projects. In 2008 I was  
5 promoted to Vice President of Marketing for the Colorado-Kansas Division and relocated to  
6 Olathe, Kansas. In this role I was responsible for coordinating growth activity, business  
7 development, and customer service for both Colorado and Kansas. In 2009 I was named to  
8 my current position in Kansas.

9 **Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THIS COMMISSION?**

10 A. No.

11 **Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY?**

12 A. The purpose of my testimony is to support the eligibility of infrastructure system replacement  
13 projects included in Atmos' proposed Gas System Reliability Surcharge (GSRS.)

14 **Q. ARE YOU SPONSORING ANY EXHIBITS?**

15 A. Yes. As mentioned in Ms. Wilkes' testimony, I am sponsoring that portion of Exhibits KPW-2  
16 and KPW-3 relating to the specific projects identified in KPW-2 and the functional or blanket  
17 projects identified in KPW-3. In addition, I am sponsoring BWA-1 through BWA-3. Exhibit  
18 BWA-1 is a summary of the specific projects and the functional projects included in this filing.  
19 Exhibit BWA-2 includes the supporting documentation for each of the specific projects  
20 identified in KPW-2. Exhibit BWA-3 is a list of functional projects included in KPW-3.  
21 Atmos maintains a file for each of the functional projects listed in Exhibit BWA-3. However,  
22 because of the voluminous nature of the files, Atmos will make those files available to Staff  
23 and any other party at Atmos' offices in Olathe, Kansas.

1 **Q. PLEASE BRIEFLY DESCRIBE ATMOS' KANSAS GAS OPERATIONS.**

2 A. In my capacity as Vice President of Operations, I manage approximately 148 gas operations  
3 employees. Atmos serves approximately 123,750 customers in 106 communities and in 33  
4 surrounding counties in Kansas.

5 **Q. WHAT IS A GAS SYSTEM RELIABILITY SURCHARGE (GSRS)?**

6 A. In 2006, Senate Bill 414, the Gas Safety and Reliability Act, was passed into law. Under this  
7 law, a utility "may file a petition and proposed rate schedules with the commission to establish  
8 or change GSRS rate schedules that will allow for the adjustment of the natural gas public  
9 utility's rates and charges to provide for the recovery of costs for eligible infrastructure system  
10 replacements." Each year a utility is required to relocate and replace certain segments of its  
11 system. The GSRS will allow the utility to recover these expenses between rate cases through  
12 a surcharge.

13 **Q. HOW IS "ELIGIBLE INFRASTRUCTURE SYSTEM REPLACEMENT" DEFINED?**

14 A. K.S.A. 66-2202 defines "eligible infrastructure system replacement" as: "natural gas public  
15 utility plant projects that: (1) Do not increase revenues by directly connecting the  
16 infrastructure replacement to new customers; (2) are in service and used and required to be  
17 used; and (3) were not included in the natural gas public utility's rate base in its most recent  
18 general rate case" and shall only consist of the following:

19 (1) Mains, valves, service lines, regulator stations, vaults, and other  
20 pipeline system components installed to comply with state or federal safety  
21 requirements as replacements for existing facilities;

22 (2) Main relining projects, service line insertion projects, joint  
23 encapsulation projects and other similar projects extending the useful life or enhancing

1 the integrity of pipeline system components undertaken to comply with state or federal  
2 safety requirements; and

3 (3) Facility, relocations required due to construction or improvement of a  
4 highway, road, street, public way or other public work by or on behalf of the United  
5 States, this state, a political subdivision of this state, or another entity having the power  
6 of eminent domain provided that the costs related to such projects have not been  
7 reimbursed to the natural gas public utility.

8 **Q. WHAT TYPES OF PROJECTS ARE INCLUDED IN ATMOS' GSRS PROPOSAL?**

9 A. Exhibits KPW-2 and KPW-3 summarize the projects being included in this GSRS proposal.  
10 There are three groups of projects being submitted. The first group is comprised of specific  
11 safety related system replacements and are summarized in KPW-2 with back up  
12 documentation included in BWA-2. The second group consists of governmentally mandated  
13 road relocation projects which have not been reimbursed to the natural gas utility and are also  
14 summarized in KPW-2, with back up documentation included in BWA-2. The third group is  
15 comprised of functional safety related projects and are summarized in KPW-3, with a list of  
16 the projects included in BWA-3. All three groups of projects are eligible for inclusion in a  
17 GSRS proposal. Exhibit BWA-1 is a summary of both specific and functional projects  
18 included in the filing. The exhibits provide the location, project description, work order  
19 number and completion date for each of the specific projects. The safety related projects listed  
20 in Exhibits KPW-2 and KPW-3 also include a reference to the compliance section of the state  
21 or federal pipeline safety requirements as replacements for existing facilities. As mentioned  
22 previously, Exhibit BWA-3 is a list of functional projects included in KPW-3. Atmos  
23 maintains a file for each of the projects listed in Exhibit BWA-3. However, because of the

1 voluminous nature of the files, Atmos will make those files available to Staff and any other  
2 party at Atmos' office in Olathe, Kansas.

3 **Q. WHAT IS THE INCLUSION CRITERIA FOR THE FIRST AND THIRD TYPES OF**  
4 **PROJECTS BEING INCLUDED IN THE PROPOSAL (SPECIFIC AND**  
5 **FUNCTIONAL SAFETY RELATED SYSTEM REPLACEMENT PROJECTS)?**

6 A. The inclusion criteria for the safety related projects, according to K.S.A. 66 2202, is as  
7 follows: "(1) Mains, valves, service lines, regulator stations, vaults and other pipeline system  
8 components installed to comply with state or federal safety requirements as replacements for  
9 existing facilities; and (2) Main relining projects, service line insertion projects, joint  
10 encapsulation projects and other similar projects extending the useful life or enhancing the  
11 integrity of pipeline system components undertaken to comply with state or federal safety  
12 requirements."

13 **Q. REGARDING THE SECOND TYPE OF PROJECT BEING INCLUDED IN THE**  
14 **PROPOSAL (GOVERNMENT MANDATED ROAD RELOCATIONS), WHAT IS THE**  
15 **INCLUSION CRITERIA FOR THESE ROAD RELOCATION PROJECTS?**

16 A. The inclusion criteria for the road relocation projects, according to K.S.A. 66 2202, is as  
17 follows: "Facility relocations required due to construction or improvement of a highway, road,  
18 street, public right of way or other public work by or on behalf of the United States, this state,  
19 a political subdivision of this state or another entity having the power of eminent domain  
20 provided that the costs related to such projects have not been reimbursed to the natural gas  
21 utility."

22 **Q. ARE PROJECTS OTHER THAN SAFETY RELATED AND GOVERNMENT**  
23 **MANDATED ROAD RELOCATIONS MEETING THE INCLUSION CRITERIA**

1 **LISTED ABOVE BEING INCLUDED IN THE GSRS PETITION?**

2 A. No. Only projects meeting the criteria previously mentioned are being submitted for  
3 consideration in this filing.

4 **Q. EXPLAIN HOW THE UNDERLYING COSTS RELATED TO THE FUNCTIONAL**  
5 **SAFETY RELATED PROJECTS WERE DETERMINED.**

6 A. Atmos considers a functional project to be any project that is less than 250 feet in length. The  
7 costs related to the functional or bundled safety related projects were sourced from our  
8 software called Power Plant, which is our primary system for collecting this project data. We  
9 subsequently used a conservative approach in determining what project dollars met the  
10 qualifications for recovery under the GSRS by making adjustments to the total costs, which  
11 eliminated some replacement projects that may have otherwise qualified. The adjustments  
12 were made by determining the average cost per unit in each functional group and applying the  
13 average cost per unit to a readily identifiable number of units that would qualify. The  
14 qualifying units were derived differently for each functional group as follows: for mains, all  
15 units were counted as qualifying because the purpose of this functional group is to repair  
16 non-growth mains; and for services and meter loops, the qualifying units were restricted to  
17 readily identifiable replacements due to leak repairs only and excluded projects like customer  
18 requested relocations, and service line work as a result of main relocations or upgrades.

19 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

20 A. Yes, it does.

VERIFICATION OF BARTON W. ARMSTRONG

STATE OF KANSAS            )  
  )ss:  
COUNTY OF JOHNSON    )

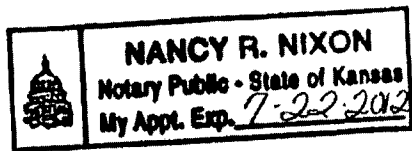

I, Barton W. Armstrong, being first duly sworn on oath, depose and state that I am the witness identified in the foregoing Direct Testimony of Barton W. Armstrong; that I have read the testimony and am familiar with its contents; and that the facts set forth therein are true and correct.

*Barton W. Armstrong*
